Mark J. P. Wolf

Falling Star Joanna Debaroncelli,2005-10 In this collection of seven short stories and reminiscences, Joanna deBaroncelli writes of the humor, joy, and lurking tragedy of life. In the title story, Falling Star gets a spectacular comeuppance that answers his mother's prayers in an unexpected way. Carefree hearts of college days meet death head-on in Ohio University. A hard-strapped princess takes an unlikely companion as her savior in The Last of Front Page Days. A symbol of endurance, The Black Figurine outlasts a life lived dangerously at times. And Eold puts a new spin on the golden years.

Fred, the Ice Cream-Eating Squirrel Steven Neal Bryson,2021-04-27 This book is a delightful true story about a squirrel I named Fred. Fred was a baby squirrel that fell on hard times and got lost from his parents. He was found by a friend of mine, Clay, who was walking down a sidewalk in a big city and Fred came running up to him wanting his ice cream. As Clay was talking to the baby squirrel, it dove into his ice cream because it was starving. Clay, being afraid that the baby squirrel wouldn't make it on its own, brought it to me because he knew I had raised squirrels before. Fred and I became best friends the first time we met. We had a lot of fun together. He was a fun-loving squirrel as a baby and continued to be that way until he became an adult squirrel. This book about Fred tells of how he watched my brothers and I train young beagle puppies to come to a whistle, and that's what Fred started doing whenever I took him outside to play. It also tells of how Fred and I would play tricks on each other. The story does have a fictitious start on how he lost his family, but other than that the rest of the adventures are all true. You will see how smart and playful Fred the squirrel was and it will make you think about all the other animals in the woods, and just how intelligent they may be also. My grand boys, Tucker and Logan, who are now seven and nine years old, have loved these stories about Fred, the Ice Cream-Eating Squirrel, since they were old enough for me to tell them bedtime stories. Logan is the youngest and he would say, Pa Paw, tell me another story, tell me about the little squirrel. And it would hold their attention until they fell asleep. They told me that I should put this story into a book, and they are the reason that this children's book was written.

Fred Hoyle's Universe Jane Gregory,2005-05-26 Fred Hoyle was one of the most widely acclaimed and colourful scientists of the twentieth century, a down-to-earth Yorkshireman who combined a brilliant scientific mind with a relish for communication and controversy. Best known for his steady-state theory of cosmology, he described a universe with both an infinite past and an infinite future. He coined the phrase 'big bang' to describe the main competing theory, and sustained a long-running, sometimes ill-tempered, and typically public debate with his scientific rivals. He showed how the elements are formed by nuclear reactions inside stars, and explained how we are therefore all formed from stardust. He also claimed that diseases fall from the sky, attacked Darwinism, and branded the famous fossil of the feathered Archaeopteryx a fake. Throughout his career, Hoyle played a major role in the popularization of science. Through his radio broadcasts and his highly successful science fiction novels he became a household name, though his outspokenness and support for increasingly outlandish causes later in life at times antagonized the scientific community. Jane Gregory builds up a vivid picture of Hoyle's role in the ideas, the organization, and the popularization of astronomy in post-war Britain, and provides a fascinating examination of the relationship between a maverick scientist, the scientific establishment, and the public. Through the life of Hoyle, this book chronicles the triumphs, jealousies, rewards, and feuds of a rapidly developing scientific field, in a narrative animated by a cast of colourful astronomers, keeping secrets, losing their tempers, and building their careers here on Earth while contemplating the nature of the stars.

Fred Andy Borger,2018-05-15 A sequel to The Gentle Ruler, the story continues after Fred's devastating loss of his wife. As Fred puts his life back together, a woman approaches him about becoming the CEO of her company, a conglomerate of twenty plastic factories. But Fred slowly begins to

realize that this woman had a secondary reason to name him CEO—she also wants him as her husband. Fred sees her as an intelligent and good-looking woman, but will he be able to live with her knowing that they can't share his own faith commitment to the Lord? Through a long and challenging struggle, he comes to an unexpected solution.

The Hole William Meikle,2017-09-08 It starts with an odd hum that brings headaches and nosebleeds to the inhabitants of a remote, sleepy country town. Then a sinkhole begins to form...and out from that hole comes the townspeople's worst nightmares. Facing their fears and the growing madness, a group of survivors descend into the collapsed area in an attempt to save what is left of their town. Sacrifices will be required, but will they be enough? The hole is growing...spreading...and the horror within it is growing stronger...

Paint 'n Spurs Barbara Marriott,2017-03-07 Four men walked into a bar and over booze, beer and laughs they created a new art organization that represented America's historical heritage. They called this creation The Cowboy Artists of America. The year was 1965; the place was the Oak Creek Tavern in Sedona, Arizona. Fred Harman couldn't attend the Oak Creek Tavern meeting, but he was there at the organizational meeting in Charlie Dye's studio, three months later, with the other four founders. This is when the nitty-gritty of bylaws and rules were established. The creation of this organization was not a whimsical act, nor was it a delusionary one. These men were fine artists and perfected their skill over many years. What made them unique is that they were also cowboys. Men who had worked the range, branded cattle and rode the long trail. Now, over fifty years later, these cowboy artists, or artist cowboys, are together again in an informative and delightful biography of the founders of the Cowboy Artists of America called: Paint 'n Spurs.

Video Games Around the World Mark J. P. Wolf,2015-05-01 Thirty-nine essays explore the vast diversity of video game history and culture across all the world's continents. Video games have become a global industry, and their history spans dozens of national industries where foreign imports compete with domestic productions, legitimate industry contends with piracy, and national identity faces the global marketplace. This volume describes video game history and culture across every continent, with essays covering areas as disparate and far-flung as Argentina and Thailand,

Hungary and Indonesia, Iran and Ireland. Most of the essays are written by natives of the countries they discuss, many of them game designers and founders of game companies, offering distinctively firsthand perspectives. Some of these national histories appear for the first time in English, and some for the first time in any language. Readers will learn, for example, about the rapid growth of mobile games in Africa; how a meat-packing company held the rights to import the Atari VCS 2600 into Mexico; and how the Indonesian MMORPG Nusantara Online reflects that country's cultural history and folklore. Every country or region's unique conditions provide the context that shapes its national industry; for example, the long history of computer science in the United Kingdom and Scandinavia, the problems of piracy in China, the PC Bangs of South Korea, or the Dutch industry's emphasis on serious games. As these essays demonstrate, local innovation and diversification thrive alongside productions and corporations with global aspirations. Africa • Arab World • Argentina • Australia • Austria • Brazil • Canada • China • Colombia • Czech Republic • Finland • France • Germany • Hong Kong • Hungary • India • Indonesia • Iran • Ireland • Italy • Japan • Mexico • The Netherlands • New Zealand • Peru • Poland • Portugal • Russia • Scandinavia • Singapore • South Korea • Spain • Switzerland • Thailand • Turkey • United Kingdom • United States of America • Uruguay • Venezuela

Last Night When I Was Young Geoffrey Littlefield, 2021-11-18 Last Night When I Was Young saw me riding thoroughbred racehorses as if I were Doug Smith and Fred Winter. In the same vein, I played football as Jimmy Greaves did for Chelsea and I was a Test Match batsman emulating the great PBH May. I hit the biggest serve as Mike Sangster in the Davis Cup, as well as bobbing and weaving in the boxing ring exactly like my favourite Dick Tiger, the world middleweight champion. I was unstoppable behind the wheel of a racing car as Britain's first world champion Mike Hawthorn but on the speedway track I rode with stylish aplomb interpreting my hero, Ronnie Mirac Moore. Swinging a mashie niblick as Peter Alliss was no handicap. Rugby Union at Twickenham when my body swerve was very sharp - Richard Sharp. When the Olympics came around, I ran the race of my life both over long distances and over one lap hurdles respectively as Gordon Pirie and the great David Hemery. With eyes open, I loved watching the upright Dorothy Hyman dip and throw herself over the line whilst I fell in love with Mary Rand hitch-kicking her way into Olympic history. Fantasy is then mixed with fact. The jockeys' journeys from completing exacting apprenticeships to becoming champions on the Flat and the National Hunt. Smith riding two-year-olds on the edge in the One Thousand Guineas and the Two Thousand Guineas. Whereas Winter was jumping off the edge of the world in The Grand National. The trials and tribulations with the relative success of the 1960's Chelsea football team from Drake's ducklings morphing into Docherty's uncut diamonds. A fourteen-year-old boy from New Zealand leaves home to become the first speedway superstar. The fight of the week from the USA brings us a Nigerian boxer who confounds convention and fights his way to the top of two weight divisions. A classical English batsman, an amateur as such who set records as a captain and whose impact on Test cricket is second to none. Birdies and bogeys abound, yet our golfing hero is a true British legend. 152 miles per hour as a world record was a cannonball service that belonged to a British no.1 tennis star that left us far too early. The first British world motor racing champion whose play-boy antics on and off the track caused his untimely death. A brief yet scintillating career as England's fly-half sees a jaw-dropping piece of rugby played over and over - sixty years later. The hackles on the neck rise again through an Olympic television commentary that almost matches the magnitude of the performance and the world record that was set. All are sporting yesterday's, worthy of repeat,

a young boy's memory listing every feat.

Fred Clayton Frank Accettura, 2022-01-30 Fred Clayton is bullied his entire life. From grade school to high school and even at work, his quiet manner and somewhat obese physique make him an easy target. Friends that he has known for most of his life scorn him, as does his own mother. Brief periods of improvement, from weight loss to women showing interest, give way to rejection and the weight being put back on. Luckily, Fred has his father, who he counts on for emotional support, and his sister for money. The death of his father is a horrible shock, as is his sister announcing that she is leaving Chicago. Fred is left alone with the mother he always struggled to get along with. Further complicating matters is the job he is forced to take and the arrival of his long distance, socially challenged girlfriend. Fred faces circumstances he never expected to face, but at twenty-nine, it's time Fred stood up to his bullies, both inside and out.

Pa Pa Says W. Bill Smith, 2003-02-14 Pa Pa Says, is a non-fiction story chronicling the world (circa 1945-1960) as seen through the eyes of a developing mind. A romance with the U. S. Constitution and the Bill of Rights reflecting society's acknowledge and sometime unacknowledge threads that weave its fabric, including a strong male presence, family cohesiveness, patriotism, discrimination and plotting in the spirit of Catherine de Medici. From the age of four years the narrator grows grammatically, intelligently, independently and of course physically. Resulting in a complete person and citizen.
