The Mom Test Rob Fitzpatrick,2013-10-09 The Mom Test is a quick, practical guide that will save you time, money, and heartbreak. They say you shouldn't ask your mom

whether your business is a good idea, because she loves you and will lie to you. This is technically true, but it misses the point. You shouldn't ask anyone if your business is a good idea. It's a bad question and everyone will lie to you at least a little. As a matter of fact, it's not their responsibility to tell you the truth. It's your responsibility to find it and it's worth doing right. Talking to customers is one of the foundational skills of both Customer Development and Lean Startup. We all know we're supposed to do it, but nobody seems willing to admit that it's easy to screw up and hard to do right. This book is going to show you how customer conversations go wrong and how you can do better.

Southern Discomfort Tena Clark, 2019-09-10 For fans of beloved memoirs like *Educated* and *The Glass Castle*, a "raw and deeply honest" (Publishers Weekly, starred review) true story set in rural Mississippi during the Civil Rights era about a white girl coming of age in a repressive society and the woman who gave her the strength to forge her own path—the black nanny who cared for her. In her memoir that is a "story of love and fury" (Jackson Clarion-Ledger), Grammy Award-winning songwriter and producer Tena Clark recounts her chaotic childhood in a time fraught with racial and social tension. Tena was born in 1953 in a tiny Mississippi town close to the Alabama border, where the legacy of slavery and racial injustice still permeated every aspect of life. On the outside, Tena's childhood looked like a fairytale. Her father was one of the richest men in the state; her mother was a regal beauty. The family lived on a sprawling farm and had the only swimming pool in town; Tena was given her first car—a royal blue Camaro—at twelve. But behind closed doors, Tena's family life was deeply lonely and dysfunctional. By the time she was three, her parents' marriage had dissolved into a swamp of alcohol, rampant infidelity, and guns. Adding to the turmoil, Tena understood from a very young age that she was different from her three older sisters, all of whom had been beauty queens and majorettes. Tena knew she didn't want to be a majorette—she wanted to marry one. On Tena's tenth birthday, her mother, emboldened by alcoholism and enraged by her husband's incessant cheating, walked out for good, instantly becoming an outcast in their society. Tena was left in the care of her nanny, Virgie, even though she was raising nine of her own children and was not allowed to eat from the family's plates or use their bathroom. It was Virgie's acceptance and unconditional love that gave Tena the courage to stand up to her domineering father, the faith to believe in her mother's love, and the strength to be her true self. Combining the spirit of brave coming-of-age memoirs such as *The Glass Castle* and vivid,

evocative Southern fiction like *To Kill a Mockingbird*, *Southern Discomfort* is “an unforgettable southern story... [that] sings brightly to the incredible strength of family ties and the great power of love” (The Atlanta Journal-Constitution) and is destined to become a new classic.

Tomorrowing Terry Bisson, 2024-04-12 For twenty years, Terry Bisson published a regular “This Month in History” column in the science fiction magazine *Locus*. From the first AI president to the first dog on Mars to the funeral of Earth’s last glacier, these stories are speculative SF at its most (and least) serious. Collected as a series for the first time, Tomorrowing will amuse, alarm, intrigue, entertain, and like all good science fiction, make readers think. Bisson’s short stories have won every major award in science fiction, including the Hugo and the Nebula, but never, ever anything for this series.

Political Branding Christopher Pich, Bruce I. Newman, 2020-12-17 This book demonstrates the progress that has been made on political branding research across international contexts. It focuses on the critical application of new concepts and frameworks, generating a deeper understanding of unexplored settings and positioning research from multiple perspectives. It is important to consider different typologies of international political brands particularly as we have witnessed huge changes across political landscapes from Brexit, the rise of President Trump, the surge in populism and the development of sustainable-climate change movements. Given that there are many potential typologies and non-traditional political brands, this volume investigates different typologies and alternative political brands with the support of new and under-developed theoretical lens from multiple perspectives and contexts. These include Canada, Iceland, India, Indonesia and the United States of America. This book provides areas of reflection and explicit calls for further research, which in turn will advance insight into political brands and enhance our understanding of political marketing in action. This is a must-read guide for setting out the implications of theory and practice for multiple stakeholders including political marketers, political scientists, politicians, political party organizers, brand managers and scholars across a wide range of social science disciplines. The chapters in this book were originally published as a special issue of the *Journal of Political Marketing*.
