Firewalls Don't Stop Dragons Carey Parker, 2018-08-24 Rely on this practical, end-to-end guide on cyber safety and online security written expressly for a non-technical audience. You will have just what you need to protect yourself—step by step, without judgment, and with as little jargon as possible. Just how secure is your computer right now? You probably don't really know. Computers and the Internet have revolutionized the modern world, but if you're like most people, you have no clue how these things work and don't know the real threats. Protecting your computer is like defending a medieval castle. While moats, walls, drawbridges, and castle guards can be effective, you'd go broke trying to build something dragon-proof. This book is not about protecting yourself from a targeted attack by the NSA; it's about armoring yourself against common hackers and mass surveillance. There are dozens of no-brainer things we all should be doing to protect our computers and safeguard our data—just like wearing a seat belt, installing smoke alarms, and putting on sunscreen. Author Carey Parker has structured this book to give you maximum benefit with minimum effort. If you just want to know what to do, every chapter has a complete checklist with step-by-step instructions and pictures. The book contains more than 150 tips to make you and your family safer. It includes: Added steps for Windows 10 (Spring 2018) and Mac OS X High Sierra Expanded coverage on mobile device safety Expanded coverage on safety for kids online More than 150 tips with complete step-by-step instructions and pictures What You'll Learn Solve your password problems once and for all Browse the web safely and with confidence Block online tracking and dangerous ads Choose the right antivirus software for you Send files and messages securely Set up secure home networking Conduct secure shopping and banking online Lock down social media accounts Create automated backups of all your devices Manage your home computers Use your smartphone and tablet safely Safeguard your kids online And more! Who This Book Is For Those who use computers and mobile devices, but don't really know (or frankly care) how they work. This book is for people who just want to know what they need to do to protect themselves—step by step, without judgment, and with as little jargon as possible.

Information Security Technology for Applications Tuomas Aura, Kimmo Järvinen, Kaisa Nyberg, 2012-04-25 This book constitutes the thoroughly refereed post-conference proceedings of the 15th Nordic Conference in Secure IT Systems, NordSec 2010, held at Aalto University in Espoo, Finland in October 2010. The volume also contains 1 full-paper length invited talk and 3 revised selected papers initially presented at the OWASP AppSec Research 2010 conference. The contributions cover the following topics: network security; monitoring and reputation; privacy; policy enforcement; cryptography and protocols.

SIMSARC 2018 Arti Chandani, Rajiv Divekar, Mita Mehta, 2019-02-09 4C's; Communication, Commerce, Connectivity and Culture are the building blocks of an economy. How well an economy will grow or perform will depend on how strong these four pillars are. Communication leads to sharing of information among individuals. It is important for any business to have the right kind of communication channel. Commerce, provides goods and services for the society and its people. Connectivity provides the right infrastructure and system for those goods and services to reach the market. Lastly, culture helps to retain the indigenous value in those. SIMSARC 2018, organised by Symbiosis Institute of Management Studies, focussed on the aforementioned idea and invited eminent speakers from academia and industry, all over the world, to share their views on the importance of the 4Cs; Communication, Commerce, Connectivity and Culture for businesses and society. The conference had 4 sub-themes viz. Communication, Commerce, Connectivity and Culture which were the plenary sessions for the conference. The highlight of the "communication: Role of AI, Big Data and IoT in Business" track was the papers which were from broad range of Internet of things (IoT), big data, role of technology, Artificial Intelligence among other aspects of communication. The panel speakers gave insight as to how communication is important for business not only for across boundaries but within a country as well. Another session was on "Culture: An indigenous way" where speakers deliberated on the cultures prevailing in different organisations, countries and societies. From a 'we together' attitude in some country to a 'me first' attitude in the other, cultural similarities and dissimilarities across nations were discussed in this track. The session witnessed some relevant questions from the audience on issues of language barriers and its effect on businesses. Language and cultural barriers are something which are inevitable but one needs to be adoptive and should learn languages to mitigate these barriers. "Connectivity: Backbone for development" was another plenary discussion where increase in connectivity through various social media platforms such as Facebook, Twitter, WhatsApp was discussed and deliberated where the focus was whether human beings are still emotionally connected or not. The critical role of technology was emphasized along with importance of human to human interaction. No matter how much technology comes in play, human connections will never die as this was concluded by speakers as Technology may not be able to take away the emotional connect. Another track, "Commerce: Fuel for economy" where the panellist spoke about growth, price discrimination, financial markets, inequality etc. Investor's education is one of the most important aspect to take the investors to level where they understand financial market and this will help in investment activity in the market. Sustainability was another concern highlighted by the speakers and they pointed that policies should work towards attaining sustainability in the market and try to bridge the gap between skills and jobs available in the country. Researchers from all over the country, belonging to academic institutes and industry, presented their research ideas on the 4C's. These research works ranged from digital transformation, IOT, team dynamics and organisation culture to infrastructural issues, e-commerce, banking and corporate governance, the research works presented covered a plethora of policy issues where each one of them is the need of the hour. The deliberations from renowned academicians who came from different parts of the world along with top industrialist, bureaucrats, entrepreneurs, NGOs immensely contributed to the existing bodies of work. They emphasized on the importance of right policies to promote communication, connectivity, facilitating commerce and preserving culture among societies. Overall, the conference witnessed a brainstorming session with scholars and experts and it surely did pave the way for future research.

Handbook of Research on Securing Cloud-Based Databases with Biometric Applications Deka, Ganesh Chandra, 2014-10-31 Cloud technologies have revolutionized the way we store information and perform various computing tasks. With the rise of this new technology, the ability to secure information stored on the cloud becomes a concern. The Handbook of Research on Securing Cloud-Based Databases with Biometric Applications explores the latest innovations in promoting cloud security through human authentication techniques. Exploring methods of access by identification, including the analysis of facial features, fingerprints, DNA, dental characteristics, and

voice patterns, this publication is designed especially for IT professionals, academicians, and upper-level students seeking current research surrounding cloud security.

Reducing Gun Deaths and Injuries Nancy Lee, 2023-08-16 This book highlights Social Marketing strategies that have been successful in reducing gun deaths and injuries. Readers will be able to advocate for, develop, and/or implement similar strategies in their communities. Each case story includes a summary of successfully applied behavioral change theories and practices. The cases are supported by literature reviews, prior research studies, and interviews with professionals working in agencies including sheriff's departments, public health, and county and city governments. The book shows how voluntary behavior change strategies addressed towards this "wicked problem", need to be influenced by several critical components including priority audience segment profiles, a clear and specific desired behavior, barriers to change, desired benefits for change, and key motivators, including perceived social norms. Case selection will be inspired by those that have used a Social Marketing approach, which applies proven marketing principles and techniques to create, communicate, and deliver value to influence priority audience behaviors that benefit society, as well as the individual. Key audiences are those working in governmental agencies in positions such as communications and program management. It is also a valuable text for college and university researchers and students, on degree programs including public health, public administration, marketing, social science, psychology, and communications.

Introduction to Business and Industrial Security and Loss Control Raymond P. Siljander, 2008 This book presents a treatise on the topic of business and industrial security and loss control as it applies to the protection of assets and personnel. The material in this thoroughly revised and updated second edition will enable law enforcement officers, security/loss control personnel and business managers to view security/loss control needs from a broad perspective and thus devise security measures that will reflect a well-thought-out systems approach. The book contains a wide range of information, and is presented in terms that will be meaningful to readers that do not have formal training or experience in the field of security and loss control. The information is of a practical nature which, if applied in a variation that is consistent with specific needs, will tailor a program that will result in a well-understood balanced systems approach. Through further understanding, the effectiveness of police and security personnel is enhanced as they perform crime prevention duties and assist local businesses in upgrading security measures. Replete with numerous illustrations and tables, the author provides a security/loss control survey for businesses, plus an overview of security for both businesses and industries. Specialized chapters on executive protection, fire dynamics and hazardous materials, security cameras, loss control surveys, loss control manager participation, and managerial leadership are included. This book will help the officer fine-tune investigative techniques when a crime, such as a burglary, has been committed at a business.
