**Fish Farts** Joanne Settel,2024-07-14 From popping off a tail to rolling around in dung to farting to send a message, this funny and informative nonfiction picture book shows the many unusual ways animals adapt to their surroundings. Animals survive and thrive in astounding ways: they trick, trap, and fry predators; feed on other animals' poop and skin; and use electric zaps, slime, and other unexpected methods to communicate. Featuring animals like Komodo dragons, bombardier beetles, and capuchin monkeys, this fact-filled book explores the surprising, exciting, and sometimes hilarious ways that animals adapt.

**Plant-Strong** Rip Esselstyn,2013-05-14 For the millions who are following a plant-based diet, as well as those meat-eaters who are considering it, *My Beef With Meat* is the definitive guide to convincing all that it's truly the best way to eat! New York Times Bestselling author of *The Engine 2 Diet* and nutrition lecturer Rip Esselstyn, is back and ready to arm readers with the knowledge they need to win any argument with those who doubt the health benefits of a plant-based diet--and convince curious carnivores to change their diets once and for all. Esselstyn reveals information on the foods that most people believe are healthy, yet that scientific research shows are not. Some foods, in fact, he deems so destructive they deserve a warning label. Want to prevent heart attacks, stroke, cancer and Alzheimer's? Then learn the facts and gain the knowledge to convince those skeptics that they are misinformed about plant-based diets, for instance: You don't need meat and dairy to have strong bones or get enough protein. You get enough calcium and iron in plants. The myth of the Mediterranean diet. There is a serious problem with the Paleo diet. If you eat plants, you lose weight and feel great. *My Beef With Meat* proves the Engine 2 way of eating can optimize health and ultimately save lives and includes more than 145 delicious recipes to help readers reach that goal.

**Kid vs. Squid** Greg van Eekhout,2011-04-10 Thatcher Hill is bored stiff of his summer job dusting the fake mermaids and shrunken heads at his uncle's seaside Museum of Curiosities. But when a mysterious girl steals an artifact from the museum, Thatcher's summer becomes an adventure that takes him from the top of the ferris wheel to the depths of the sea. Following the thief, he learns that she is a princess of the lost Atlantis. Her people have been cursed by an evil witch to drift at sea all winter and wash up on shore each summer to an even more terrible fate-working the midway games and food stands on the boardwalk. Can Thatcher help save them before he, too, succumbs to the witch's curse? With sharp, witty writing that reads like a middle-grade Douglas Adams' *Hitchhiker's Guide to the Galaxy*, Greg van Eekhout's first book for young readers is a wild ride packed with as many laughs as it has thrills.

**A Millenium Primer For Elected Municipal Officials** Matthew Bonnet,2001-06-19 The Millenium Primer for Elected

Municipal Officials is the natural product of twenty years of public service and living and working in the political maelstrom called small town politics. Matthew Bonnet takes each of the normal operational divisions of the typical municipality and explores its deepest recesses. He searches for the humor and irony found in each area, but at the same time he exposes its weaknesses and strengths. Bonnet exaggerates and overstates, but he does not lie. As ridiculous as some of his examples and anecdotes may seem, they are true. Sad. But true. Many good men and women serve their communities as elected officials for several years without having a clue as to some of the things Bonnet exposes in this Primer. There are no sacred cows left standing when Bonnet leaves the room. Civil Service, City Attorneys, Fire Departments, State regulators and inspectors, Congressmen, and even the Great Generation, all fall prey to his pen. Those who know Bonnet understand that his sarcasm and honesty is tempered with love and respect for those with whom he has spent most of his life working. But that does not buy them a free pass from the scrutiny of the dreaded Primer.

**The Diviners** Jim Leonard Jr.,1983 This marvelously theatrical play is the story of a disturbed young man and his friendship with a disenchanted preacher in southern Indiana in the early 1930s. When the boy was young he almost drowned. This trauma, and the loss of his mother in the same accident, has left him deathly afraid of water. The preacher, set on breaking away from a long line of Kentucky family preachers, is determined not to do what he does best. He works as a mechanic for the boy’s father. The town doesn’t have a preacher and the women try to persuade him to preach – while he tries to persuade the child to wash. When the preacher finally gets the boy in the river and is washing him, the townspeople mistake the scene for a baptism. They descend on the event and, in the confusion, the boy drowns.

*Giraffes don't sink* Kim Verhaeghe,2023-12-06 Often the most ridiculous scientific facts lead to the most surprising insights. Journalist Kim Verhaeghe collects approx. 137 examples, in his hilarious and accessible science columns. For YA and adults. Not sure if you’d buy this book? Then drink a big glass of water and wait until nature calls. Scientific research shows that with a full bladder you are more likely to make the best choice! Often the most ridiculous scientific facts lead to the most surprising insights. Giraffes don’t sink collects approx. 137 examples of this. Like, the swimming patterns of ducklings teach us how ships can save fuel. The buoyancy of our turds may give us valuable health information. Other surprising insights include: men who are told that they have a small penis suddenly feel a greater urge to buy an expensive car, there is a reason why waiters spill more coffee than beer, and yawning is contagious for us but not for turtles. Giraffes don’t sink is science at its most flamboyant.

**Blame It on the Dog** Jim Dawson,2011-03-30 Did you know that James Joyce liked to smell his wife's farts? That some fish communicate by expelling gas? Or that the Pentagon is developing weapons of mass olfactory destruction (WMOD)? That's just a whiff of what's in store in this breathtaking follow-up to the best-selling fart history, WHO CUT THE CHEESE? In BLAME IT ON THE DOG, eminent fartologist Jim Dawson sniffs out the latest and greatest new items of the past century, from flatulent robot dogs and fart fetishists to poot-proof underwear and anti-stink pills. In fifty breezy chapters, he spills the beans about scientific (wind)breakthroughs, celebrity butt rumblings, and real-life fartistes like Flatulina Fontanelle Boutier, cyberspace entertainer the Queen of Farts, and Mr. Methane, England's Prince of Poots. Plumbing the nether regions of politics, pop culture, and the (f)arts, this stinker of a bathroom book will leave you gasping for air.
