The Portfolio Series addresses this powerful tool the same way it does other Creative Suite applications -- the way one has to in the real world of design and site management. Purely project-based, the book offers eight hands-on, step-by-step assignments exactly as they would be handed to someone in the field. Each assignment addresses workflow, task, and process requirements, finishing with a site that works the way it's supposed to. Tailored to users of either CS3, CS4, or the latest version of Dreamweaver, CS5, each chapter is comprised of three sections: new concepts; reinforcing your knowledge through projects and exercises; and a build your own website section designed to offer the reader the opportunity to build their own website using the concepts from each chapter. By the end of the book, the reader will have their very own website! The book starts with an introduction to the principles of design unique to the web, and then progresses to the incorporation of those principles into Adobe Dreamweaver for aesthetically pleasing web design.
