Mustang and the Pony Car Revolution Michael W. R. Davis, 2014-04-07 Introduced at the opening of the New York World's Fair in April 1964, the Ford Mustang was based on mechanicals from the earlier Ford Falcon compact car. It quickly established a new motorcar category—the “pony car”—which was widely copied by domestic and overseas competitors. From the outset, the Mustang represented inspired product planning and design, followed by brilliantly executed marketing. Ford's Mustang team effort used every tool in the vehicle-marketing toolbox: clever teasers long before the new product went on sale, unprecedented publicity, simple but effective advertising, the stage at the World's Fair, movie placement, distribution of toy plastic models, and even a replica pedal car for the young drivers of the future. With a measure of luck, it became a classic case of releasing the right product at the right time, and Ford sold one million units in less than two years.

Selling the Amish Susan L. Trollinger, 2012-03-15 More than 19 million tourists flock to Amish Country each year, drawn by the opportunity to glimpse a better time and the quaint beauty of picturesque farmland and handcrafted quilts. What they may find, however, are elaborately themed town centers, outlet malls, or even a water park. Susan L. Trollinger explores this puzzling incongruity, showing that Amish tourism is anything but plain and simple. *Selling the Amish* takes readers on a virtual tour of three such tourist destinations in Ohio's Amish Country, the world's largest Amish settlement. Trollinger examines the visual rhetoric of these uniquely themed

places—their architecture, interior decor, even their merchandise and souvenirs—and explains how these features create a setting and a story that brings tourists back year after year. This compelling story is, Trollinger argues, in part legitimized by the Amish themselves. To Americans faced with anxieties about modern life, being near the Amish way of life is comforting. The Amish seem to have escaped the rush of contemporary life, the confusion of gender relations, and the loss of ethnic heritage. While the Amish way supports the idealized experience of these tourist destinations, it also raises powerful questions. Tourists may want a life uncomplicated by technology, but would they be willing to drive around in horse-drawn buggies in order to achieve it? Trollinger's answers to important questions in her fascinating study of Amish Country tourism are sure to challenge readers' understanding of this surprising cultural phenomenon.

Communication Ethics, Media & Popular Culture Phyllis M. Japp, Mark Meister, Debra K. Japp, 2005 Popular culture provides a daily catalog of cultural attitudes, values, and practices. From television sitcoms to the daily news, from the theater to the sports stadium, we observe embodiments and enactments of character, virtue, honesty, and integrity (or lack thereof) in situations we find understandable, if not familiar. The essays in this volume address popular mediated constructions of ethical and unethical communication in news, sports, advertising, film, television, and the internet. Emphasis is on the consumption of popular culture messages, as well as how audiences make moral sense out of what they read, hear, and observe.

The Complete Book of American Muscle Supercars Tom Glatch, 2016-09-01 Uncover the captivating history of the highest-performance cars in America, illustrated with beautiful photography. The American muscle car began not in the factories of the big three automakers, but in the garages and dealerships of a hot-rod subculture bent on making the hottest, highest-performance cars on the street. The Complete Book of American Muscle Supercars catalogs these amazing cars, along with the builders who unleashed them on the American scene. From Michigan's Royal Pontiac dealership and the souped-up Royal Pontiac Bobcats they built and sold, to the new cars from such famed names as Carroll Shelby, Mr. Norm's Grand Spaulding Dodge, Nickey Chevrolet, Don Yenko, George Hurst, Baldwin-Motion, Calloway, SLP, and Steve Saleen. This gorgeously illustrated book chronicles the outstanding contribution of the tuner/builder to American automotive history through the amazing machines they created. From the oldest of these muscle tuners commanding top dollar at today's classic-car auctions, to the latest vehicles by Ford and Chrysler, with their SVT and SRT divisions, this book gives readers a full and fascinating look at American high-performance in its purest form.

Race and Contention in Twenty-First Century U.S. Media Jason A. Smith, Bhoomi K. Thakore, 2016-04-20 This volume explores and clarifies the complex intersection of race and media in the contemporary United States. Due to the changing dynamics of how racial politics are played out in the contemporary US (as seen with debates of the post-racial society), as well as the changing dynamics of the media itself (new vs. old media debates), an interrogation of the role of the media and its various institutions within this area of social inquiry is necessary. Contributors contend that race in the United States is dynamic, connected to social, economic, and political structures which are continually altering themselves. The book seeks to highlight the contested space that the media provides for changing dimensions of race, examining the ways that various representations can both hinder or promote positive racial views, considering media in relation to other institutions, and moving beyond thinking of media as a passive and singular institution.

Mustang by Design James Dinsmore, James Halderman, 2018-09-14 p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial} Without question, the 1964-1/2 Mustang is one of the most important and influential cars in automotive history. When Ford launched the Mustang, it created an automotive revolution.

Award-winning designer and stylist Gale Halderman was at the epicenter of the action at Ford, and, in fact, his initial design sketch formed the basis of the new Mustang. He reveals his involvement in the project as well as telling the entire story of the design and development of the Mustang. Authors and Mustang enthusiasts James Dinsmore and James Halderman go beyond the front doors at Ford into the design center, testing grounds, and Ford facilities to get the real, unvarnished story. Gale Halderman offers a unique behind-the-scenes perspective and firsthand account of the inception, design, development, and production of the original Mustang. With stinging losses from the Edsel fresh in minds at Ford, the Mustang project was an uphill battle from day one. Lee Iacocca and his assembled team had a herculean task to convince Henry Ford II to take a risk on a new concept of automobile, but with the help of Hal Sperlich's detailed market research, the project received the green light. Henry Ford II made it clear that jobs were on the line, including Iacocca's, if it failed. The process of taking a car from sketch to clay model to prototype to preproduction and finally finished model is retraced in insightful detail. During the process, many fascinating experimental cars, such as the Mustang I two-seater, Mustang II prototype, Mustang Allegro, and Shorty, were built. But eventually the Mustang, based on the existing Ford Falcon, received the nod for final production. In a gala event, it was unveiled at the 1964 World's Fair in New York. The Mustang received public accolades and critical acclaim, and soon it became a runaway hit. After the initial success, Ford designers and Gale Halderman designed and developed the first fastback Mustangs to compliment the coupes. The classic Mustang muscle cars to follow, including the GT, Mach 1, and others, are profiled as well. The Mustang changed automotive history and ushered in the pony car era as a nimble, powerful, and elegantly styled sports coupe. But it could so easily have stumbled and wound up on the scrap pile of failed new projects. This is the remarkable and dramatic story of how the Mustang came to life, the demanding design and development process, and, ultimately, the triumph of the iconic American car.

Ford Mustang Elsie Olson, 2020-12-15 This title introduces the classic American muscle car, the Ford Mustang. Automobile Quarterly:Vol-10 #4 ,

Shelby and AC Cobra Brian Laban, 2015-08-31 In the new edition of this classic text, Brian Laban brings the story of the AC Cobra up to date. In the early 1960s, a flamboyant Texan, Carroll Shelby, dreamed of a special kind of sports car, a marriage of European style with lusty, affordable American V8 power. He took his dream forward and he persuaded British sports car specialist AC Cars to build his car, and US industry giant the Ford Motor Co to fund it. Its name also came to him in a dream - Cobra. The original production of the Cobra lasted just five years and encompassed barely a thousand cars built within the original framework. But it was only the beginning of a story that is still very much alive, encompassing 'continuations', spin-offs, and a massive worldwide replica industry. Shelby and AC Cobra details the man behind the cars, the story of their development and engineering, racing pedigree and owning and driving these powerful, iconic cars today. Fully illustrated with 250 archive colour photographs.
