Joe Westwood

Ultra Wild West Joe Westwood,2018-10 Classic Italian film poster art is renowned as being among the most accomplished, creative and dynamic of its kind. From the post-war period through to the 1980s, Italian artists consistently produced posters with sumptuously stunning designs and imagery - not least in the Western genre, where the invention of the Spaghetti Western gave abrasive new life to a dying form of cinematic narrative. ULTRA WILD WEST collects more than 85 film poster designs by a wide range of acclaimed Italian artists, in full-color, full-page reproductions showcasing some of the world's most innovative and eye-blasting graphic artwork, enhanced by rare production photographs which bring the book's total images to over 100.

Beyond the Algorithm Deepa Das Acevedo,2020-11-05 In Beyond the Algorithm: Qualitative Insights for Gig Work Regulation, Deepa Das Acevedo and a collection of scholars and experts show why government actors must go beyond mass surveys and data-scrubbing in order to truly understand the realities of gig work. The contributors draw on qualitative empirical research to reveal the narratives and real-life experiences that define gig work, and they connect these insights to policy debates being fought out in courts, town halls, and even in Congress itself. The book also bridges academic and non-academic worlds by drawing on the experiences of drivers, journalists, and workers' advocates who were among the first people to study gig work from the bottom up. This book is a must-read for anyone interested in gig work, the legal infrastructure surrounding it, and how that infrastructure can and must be improved.

Native on the Net Kyra Landzelius,2004-11 Exploring the influence of the Internet on the lives of indigenous and diasporic peoples, Kyra Landzelius leads a team of expert anthropologists and ethnographers who go on-site and on-line to explore how a diverse range of indigenous and transnational diasporic communities actually use the Internet. From the Taino Indians of the Caribbean, the U'wa of the Amazon rainforest, and the Tunomans and Assyrians of Iraq, to the Tingas and Zapatistas, Native on the Net is a lively and intriguing exploration of how new technologies have enabled these previously isolated peoples to reach new levels of communication and community: creating new communities online, confronting global corporations, or even challenging their own native traditions. Featuring case studies ranging from the Arctic to the Australian outback, this book addresses important recurrent themes, such as the relationship between identity and place, community, traditional cultures and the nature of the 'indigenous'. Native on the Net is a unique contribution to our knowledge of the impact of new global communication technologies on those who have traditionally been geographically, politically and economically marginalised.

Student's Guide to Writing Dissertations and Theses in Tourism Studies and Related Disciplines Tim Coles, David Timothy Duval, Gareth Shaw, 2013-05-02 Around the world every year very many students have to complete dissertations or theses as part of their undergraduate or masters studies in tourism and related subjects. Often this substantial piece of self-directed work is the culmination of their programmes. More than just a means to consolidate their final grades, it is also an exciting chance to research a topic of their choosing and a potential gateway to more advanced study as well as job offers and future career paths. Yet for all these reasons, many students view the dissertation as a tricky challenge. This comprehensive book intends to take the stress and anxiety out of doing a dissertation in tourism studies and related disciplines. The process is examined from the germination of an idea to the submission and assessment of the final document. Written primarily for students conducting independent research for the first time, this book offers simple advice and a clear framework which students can adopt even in more advanced studies at masters and doctoral level. This book debunks popular myths, and aims to overcome common pitfalls. It focuses on the aims and objectives as the DNA of every dissertation. Rather than view it as a single, overwhelming project, the dissertation is presented as a series of more modest, manageable yet crucially inter-linked tasks that all students can successfully complete through careful preparation and effective time management. Dissertations are not to be underestimated and they demand great care and attention, but they can also be immensely rewarding and enriching experiences academically and personally. This 'jargon free' book is also written with overseas students specifically in mind, drawing directly on our overseas students' experiences. This valuable resource contains start of chapter learning objectives and end of chapter checklists, as well as numerous boxed case studies, to further help assist students through their dissertation.

Localizing the Internet John Postill, 2011-08-30 Internet activism is playing a crucial role in the democratic reform happening across many parts of Southeast Asia. Focusing on Subang Jaya, a suburb of Kuala Lumpur, this study offers an in-depth examination of the workings of the Internet at the local level. In fact, Subang Jaya is regarded as Malaysia's electronic governance laboratory. The author explores its field of residential affairs, a digitally mediated social field in which residents, civil servants, politicians, online journalists and other social agents struggle over how the locality is to be governed at the dawn of the 'Information Era'. Drawing on the field theories of both Pierre Bourdieu and the Manchester School of political anthropology, this study challenges the unquestioned predominance of 'network' and 'community' as the two key sociation concepts in contemporary Internet studies. The analysis extends field theory in four new directions, namely the complex articulations between personal networking and social fields, the uneven diffusion and circulation of new field technologies and contents, intra- and inter-field political crises, and the emergence of new forms of residential sociality.

EMO Time CMK Publisher,2019-07-20 If you've been on the internet for more than a few hours, you've likely seen at least one advertisement teaching you how to make thousands of dollars a minute, working from your underwear, in the comfort of your own home. These ads are so ridiculously popular that if you're like most people, you start doubting whether it really IS possible to make money online. The truth is, it IS possible. It might be hard to make thousands of dollars a minute from the get-go (or at all), but there are certainly ways you can make an extra \$100 a day working from home with ease. In this report, I am going to share 87 different ways in which you can create more income. I have tried to cover all types of methods for all different personality and skill types, and I am confident that you'll be able to find at least a few that sound good to you.

Thinking Globally, Composing Locally Rich Rice,Kirk St.Amant,2018-05-01 Thinking Globally, Composing Locally explores how writing and its pedagogy should adapt to the ever-expanding environment of international online communication. Communication to a global audience presents a number of new challenges; writers seeking to connect with individuals from many different cultures must rethink their concept of audience. They must also prepare to address friction that may arise from cross-cultural rhetorical situations, variation in available technology and in access between interlocutors, and disparate legal environments. The volume offers a pedagogical framework that addresses three interconnected and overarching objectives: using online media to contact audiences from other cultures to share ideas; presenting ideas in a manner that invites audiences from other cultures to recognize, understand, and convey or act upon them; and composing ideas to connect with global audiences to engage in ongoing and meaningful exchanges via online media. Chapters explore a diverse range of pedagogical techniques, including digital notebooks designed to create a space for active dialogic and multicultural inquiry, experience mapping to identify communication disruption points in international customer service, and online forums used in global distance education. Thinking Globally, Composing Locally will prove an invaluable resource for instructors seeking to address the many exigencies of online writing situations in global environments. Islam Dot Com M. el-Nawawy,Sahar M. Khamis,2009-06-22 This book analyzes the discourses and deliberations in the discussion forums of three of the most visited Islamic websites and investigates the extent to which they have provided a venue for Muslims to freely engage in discussion among themselves and with non-Muslims about political, economic, religious and social issues.

Feminist Manifestos Penny A. Weiss,Megan Brueske,2018-04-03 A wide-reaching collection of groundbreaking feminist documents from around the world Feminist Manifestos is an unprecedented collection of 150 documents from feminist organizations and gatherings in over 50 countries over the course of three centuries. In the first book of its kind, the manifestos are shown to contain feminist theory and recommend actions for change, and also to expand our very conceptions of feminist thought and activism. Covering issues from political participation, education, religion and work to reproduction, violence, racism, and environmentalism, the manifestos together challenge simplistic definitions of gender and feminist movements in exciting ways. In a wide-ranging introduction, Penny Weiss explores the value of these documents, especially how they speak with and to each other. In addition, an introduction to each individual document contextualizes and enhances our understanding of it. Weiss is particularly invested in how

communities work together toward social change, which is demonstrated through her choice to include only collectively authored texts. By assembling these documents into an accessible volume, Weiss reveals new possibilities for social justice and ways to advocate for equality. A unique and inspirational collection, *Feminist Manifestos* expands and evolves our understanding of feminism through the self-described agendas of women from every ethnic group, religion, and region in the world.

Revolution Stalled Sarah Oates, 2013-04-05 Can the internet fundamentally challenge non-free regimes? The role that social networking has played in promoting political change in the Middle East and beyond raises important questions about the ability of authoritarian leaders to control the information sphere and their subjects. *Revolution Stalled* goes beyond the idea of virtual politics to study five key components in the relationship between the online sphere and society: content, community, catalysts, control, and co-optation. This analysis of the contemporary Russian internet, written by a scholar with in-depth knowledge of both the post-Soviet media and media theory, illuminates key components to how and when the internet can spark political action. With its analysis of current internet-linked protests in Russia, this book posits that there are critical pre-conditions that must exist for the internet to be used successfully to challenge non-free states. In particular, Russian leaders have made themselves vulnerable to online protest movements and online social entrepreneurs through their failure to control the internet as effectively as they have controlled traditional media. At the same time, Russia has experienced explosive growth in the online audience, tipping the balance of control away from state-run television and toward the more open online sphere. Oates incorporates studies of small-scale protests involving health issues and children with disabilities to demonstrate that Russians have started to translate individual grievances into rising political awareness and efficacy via the online sphere. Her cases show that the Russian state has struggled to change its information and control strategy in the face of new types of information dissemination, networking, and protest. This new environment has transformed a state strategy of co-opted elections into a powerful catalyst for protests and demands for rights. While the revolution remains stalled, this book provides compelling evidence that a new and changing generation of internet users is beginning to alter the balance of power in the public sphere in Russia.

Thematising Multilingualism in the Media Helen Kelly-Holmes, Tommaso M. Milani, 2013-06-12 This volume analyses the complex relations between multilingualism and the media: how the media manage multilingualism; how multilingualism is presented and used as media content; and how the media are discursive sites where debates about multilingualism and other language-related issues unfold. It is precisely this inter-relatedness that we want to flag up when we talk about “thematising” multilingualism in the media. More specifically, the focus of this volume is on the empirical and theoretical opportunities and challenges posed by the thematisation of multilingualism in the media. The volume, originally published as a special issue of the *Journal of Language and Politics* 10:4 (2011), presents a number of case studies from a variety of linguistic, media, political, social, and economic contexts: from print-media debates on trilingual policies in Luxembourg to “new media” discussions about the “sexiness” of Irish or the “national” value of Welsh; from issues of linguistic “authority” and “authenticity” in an American television programme to Wikipedia’s multilingual policy and practice.

A Dash of Death Michelle Hillen Klump, 2022-02-08 A Houston reporter-turned-mixologist mixes it up with murder in this “clever, page-turning mystery” series debut—for fans of Diane Mott Davidson and Lee Hollis (Darci Hannah, author of *Murder at the Beacon Bakeshop*). Bad news for Samantha Warren: The plucky Houston, Texas, reporter lost her job and her fiancé in rapid succession. But Sam has a way of making lemonade out of the bitterest of lemons. At a meeting of the local historical-homes council, she serves up the homemade bitters that she made as gifts for her wedding party. She intends to use that as her “in” to become an in-demand party mixologist. But the party’s over for one of the council members, who keels over dead soon after he sips the bereft bride’s bitter brew. It turns out that the victim, Mark, was poisoned—his drink spiked with oleander. Since

Sam mixed the drink that Mark imbibed right before his demise, she finds herself at the front of the suspect line. Now, she'll have to use all of her reporter's wisdom and wiles to clear her name. Who could have wanted Mark dead? His wife, Gabby? His girlfriend, Darcy? Someone who wanted his seat on the council? Or another citizen of this sweet Texas town that holds some seedy secrets? Job hunting, building her mixology business, and fending off late-night phone calls from her nearly betrothed don't leave much time for sleuthing. But if Sam can't "pour" over the clues to find the killer, it may soon be last call for her.

Screening Twilight Wickham Clayton, Sarah Harman, 2014-06-19 The Twilight saga, a series of five films adapted from Stephanie Meyer's four vampire novels, has been a sensation, both at the box office and through the attention it has won from its predominantly teenaged fans. This series has also been the subject of criticism and sometimes derision - often from critics and on occasion even from fans. However, it also offers rich opportunities for analytic and critical attention, which the contributors to Screening Twilight demonstrate with energy and style. Through examining Twilight, the book unpacks how this popular group of films work as cinematic texts, what they have to say about cinema and culture today, and how fans may seek to re-read or subvert these messages. The chapters address Twilight in the context of the vampire and myth, in terms of genre and reception, identity, gender and sexuality, and through re-viewing the series fandom. Screening Twilight is also a revelation of how a popular cinematic phenomenon like Twilight rewards close attention from contemporary critical scholars of cinema and culture.
