Risk and Health Communication in an Evolving Media Environment H Dan O'Hair, 2018-01-12 Broadcast media has a particular fascination with stories that involve risk and health crisis events-disease outbreaks, terrorist acts, and natural disasters-contexts where risk and health communication play a critical role. An evolving media landscape introduces both challenges and opportunities for using communication to manage extreme events and hazardous contexts. Risk and Health Communication in an Evolving Media Environment addresses issues of risk and health communication with a collection of chapters that reflect state-of-the-art discussion by top scholars in the field. The authors in this volume develop unique and insightful perspectives by employing the best available research on topics such as brand awareness in healthcare communication, occupational safety, climate change communication, local broadcasts of weather

emergencies, terrorism, and the Ebola outbreak, among many other areas. It features analysis of new and traditional media that connects disasters, crises, risks, and public policy issues into a coherent fabric. This book bridges a substantial, but sometimes disconnected body of literature, and by doing so asks how contexts related to risk and health communication are best approached, how researchers balance scientific findings with cultural issues, and how scholars study an increasingly media-savvy society with traditional research methods.

Television Weathercasting Robert Henson, 1990
Will it rain tomorrow? That perennial question has made weather the most popular segment of local television news for years. Yet weathercasters do far more than simply convey the latest outlook. Depending on the circumstances, they may inject humor into the forecast (having a Lhasa apso pant and wag its tail during the forecast, for instance), warn of a life-threatening tornado or hurricane, or instruct viewers on the science behind weather. This book, the first critically to examine weathercasters and their craft, is based on years of research and covers both the lighthearted and serious aspects of television weather. Chapters include pioneer weathercasters of the 1940s and 1950s, technical advances, interaction with the National Weather Service, severe weather coverage, celebrities who began with television weather, and the status of women and minorities in weathercasting.

Terror in Ypsilanti Gregory A. Fournier,2016

Between the summers of 1967 through 1969, a predatory killer stalked the campuses of Eastern Michigan University and the University of Michigan seeking prey until he made the mistake of killing his last victim in the basement of his uncle's home. All-American boy John Norman Collins was arrested, tried, and convicted of the strangulation murder of Karen Sue Beineman. The other murders never went to trial, with one exception, and soon became cold cases. With the benefit of fifty years of hindsight, hundreds of vintage newspaper articles, thousand of police reports, and countless interviews, Fournier tells the stories of the other victims, recreates the infamous trial that took Collins off the streets, and details Collins's time spent in prison.

Freedom's Sons H. A. Covington,2013-09-24

Freedom's Sons is the fifth and last in underground cult novelist H.A. Covington's series of Northwest Independence novels. In the first four novels--A Distant Thunder, A Mighty Fortress, The Hill Of The Ravens, and The Brigade--we followed the path of the War of Independence when in the not-so-distant future, the people of the

Pacific Northwest fought a five-year guerrilla war against the overbearing tyranny of Washington, D.C., and finally established the Northwest American Republic as an independent nation. Freedom's Sons chronicles the first fifty years of the NAR's existence as a country and a new society, including the struggle against crushing economic sanctions imposed by the outside world, as well as an attempt by the enraged Americans to reconquer the Northwest with a military invasion. The novel follows the fortune of three families, one of former rebel guerrilla fighters from the Northwest Volunteer Army, one Unionist, and one refugee family who flees to the Republic from the collapsing U.S.A. Freedom's Sons is a story of redemption and the triumph of the human spirit over the darkness now engulfing the world.

The Tattooed Lady Amelia Klem Osterud, 2014-11-06
Living in a time when it was scandalous even to show a bit of ankle, a small number of courageous women covered their bodies in tattoos and traveled the country, performing nearly nude on carnival stages. These gutsy women spun amazing stories for captivated audiences about abductions and forced tattooing at the hands of savages, but little has been shared of their real lives. Though they spawned a cultural movement—almost a quarter of Americans now have tattoos—these women have largely faded into history. The Tattooed Lady uncovers the true stories behind these women, bringing them out of the sideshow realm and into their working class realities. Combining thorough research with more than a hundred historical photos, this updated second edition explores

tattoo origins, women's history, circus lore, and includes even more personal and professional details from modern tattooed ladies. A fascinating read, *The Tattooed Lady* pays tribute to a group of unique and amazing women whose legacy lives on.

How to Apologize David LaRoche, 2021-05-11
From the Theodor Seuss Geisel Award-winning creators of *See the Cat: Three Stories About a Dog* comes a funny and handy guide that explains just how (and how not!) to say "I'm sorry." Wouldn't the world be a better place if everyone knew how to apologize? Luckily, this humorous guidebook is full of practical tips about when, why, and how to say you're sorry. From a porcupine who accidentally popped his friend's balloon to a snail who was running so fast he stepped on a sloth's toes, hilarious examples and sweet illustrations abound. For both listeners who are just learning and older readers who need a refresher, this book will come as a welcome reminder that even though apologizing can be hard, it doesn't have to be complicated.

The Lifespan of a Fact John D'Agata, Jim Fingal, 2019-08-22
NOW A BROADWAY PLAY STARRING DANIEL RADCLIFFE 'Provocative, maddening and compulsively readable' Maggie Nelson
In 2003, American essayist John D'Agata wrote a piece for Harper's about Las Vegas's alarmingly high suicide rate, after a sixteen-year-old boy had thrown himself from the top of the Stratosphere Tower. The article he delivered, 'What Happens There', was rejected by the magazine for inaccuracies. But it was soon picked up by another, who assigned it a fact checker: their fresh-faced intern, and

recent Harvard graduate, Jim Fingal. What resulted from that assignment, and beyond the essay's eventual publication in the magazine, was seven years of arguments, negotiations, and revisions as D'Agata and Fingal struggled to navigate the boundaries of literary nonfiction. This book includes an early draft of D'Agata's essay, along with D'Agata and Fingal's extensive discussion around the text. The Lifespan of a Fact is a brilliant and eye-opening meditation on the relationship between 'truth' and 'accuracy', and a penetrating conversation about whether it is appropriate for a writer to substitute one for the other. 'A fascinating and dramatic power struggle over the intriguing question of what nonfiction should, or can, be' Lydia Davis

Reparations Duke L. Kwon, Gregory
Thompson, 2021-04-06 Kwon and Thompson's eloquent

reasoning will help Christians broaden their understanding of the contemporary conversation over reparations.--Publishers Weekly A thoughtful approach to a vital topic.--Library Journal Christians are awakening to the legacy of racism in America like never before. While public conversations regarding the realities of racial division and inequalities have surged in recent years, so has the public outcry to work toward the long-awaited healing of these wounds. But American Christianity, with its tendency to view the ministry of reconciliation as its sole response to racial injustice, and its isolation from those who labor most diligently to address these things, is underequipped to offer solutions. Because of this, the church needs a new perspective on its responsibility for the deep racial brokenness at the heart of American culture and on what it can do to repair that brokenness. This book makes a compelling historical and theological case for the church's obligation to provide reparations for the oppression of African Americans. Duke Kwon and Gregory Thompson articulate the church's responsibility for its promotion and preservation of white supremacy throughout history, investigate the Bible's call to repair our racial brokenness, and offer a vision for the work of reparation at the local level. They lead readers toward a moral imagination that views reparations as a long-overdue and necessary step in our collective journey toward healing and wholeness.

Murder in Wauwatosa Paul Hoffman, 2012-06 IN 1925, the peaceful Milwaukee suburb of Wauwatosa found itself involved in mystery and horror.

Eight-year-old Arthur Buddy Schumacher Jr. was last seen by three of his friends after they hopped off a freight train they'd jumped to get a ride to a nearby swimming hole. For seven weeks, the community and state searched desperately to find the boy until his body was found just a mile from his house with his clothing torn and a handkerchief shoved down his throat. The police pursued several promising leads, but to no avail.
