The Bullet Journal Method Ryder Carroll, 2021-12 THE NEW YORK TIMES BESTSELLER Transform your life using the Bullet Journal Method, the revolutionary organisational system and worldwide phenomenon. The Bullet Journal Method will undoubtedly transform your life, in more ways than you can imagine' Hal Elrod, author of The Miracle Morning In his long-awaited first book, Ryder Carroll, the creator of the enormously popular Bullet Journal organisational system, explains how to use his method to: * TRACK YOUR PAST: using nothing more than a pen and paper, create a clear, comprehensive, and organised record of your thoughts and goals. * ORDER YOUR PRESENT: find daily calm by prioritising and minimising your workload and tackling your to-do list in a more mindful and productive way. * PLAN YOUR FUTURE: establish and appraise your short-term and long-term goals, plan more complex projects simply and effectively, and live your life with meaning and purpose. Like many of us, Ryder Carroll tried everything to get organised - countless apps, systems, planners, you name it. Nothing really worked. Then he invented his own simple system that required only pen and paper, which he found both effective and calming. He shared his method with a few friends, and before long he had a worldwide viral movement. The system combines elements of a wishlist, a to-do list, and a diary. It helps you identify what matters and set goals accordingly. By breaking long-term goals into small actionable steps, users map out an approachable path towards continual

improvement, allowing them to stay focused despite the crush of incoming demands. But this is much more than a time management book. It's also a manifesto for what Ryder calls intentional living: making sure that your beliefs and actions align. Even if you already use a Bullet Journal, this book gives you new exercises to become more calm and focused, new insights on how to prioritise well, and a new awareness of the power of analogue tools in a digital world. *** This book has been printed with three different colour designs, black, Nordic blue and emerald. We are unable to accept requests for a specific cover. The different covers will be assigned to orders at random. ***

How Not to Die Michael Greger, M.D., FACLM, Gene Stone, 2015-12-08 From the physician behind the wildly popular NutritionFacts website, How Not to Die reveals the groundbreaking scientific evidence behind the only diet that can prevent and reverse many of the causes of disease-related death. The vast majority of premature deaths can be prevented through simple changes in diet and lifestyle. In How Not to Die, Dr. Michael Greger, the internationally-renowned nutrition expert, physician, and founder of NutritionFacts.org, examines the fifteen top causes of premature death in America—heart disease, various cancers, diabetes, Parkinson's, high blood pressure, and more—and explains how nutritional and lifestyle interventions can sometimes trump prescription pills and other pharmaceutical and surgical approaches, freeing us to live healthier lives. The simple truth is that most doctors are good at treating acute illnesses but bad at preventing chronic disease. The fifteen leading causes of death claim the lives of 1.6 million Americans annually. This doesn't have to be the case. By following Dr. Greger's advice, all of it backed up by strong scientific evidence, you will learn

which foods to eat and which lifestyle changes to make to live longer. History of prostate cancer in your family? Put down that glass of milk and add flaxseed to your diet whenever you can. Have high blood pressure? Hibiscus tea can work better than a leading hypertensive drug-and without the side effects. Fighting off liver disease? Drinking coffee can reduce liver inflammation. Battling breast cancer? Consuming soy is associated with prolonged survival. Worried about heart disease (the number 1 killer in the United States)? Switch to a whole-food, plant-based diet, which has been repeatedly shown not just to prevent the disease but often stop it in its tracks. In addition to showing what to eat to help treat the top fifteen causes of death, *How Not to Die* includes Dr. Greger's Daily Dozen -a checklist of the twelve foods we should consume every day. Full of practical, actionable advice and surprising, cutting edge nutritional science, these doctor's orders are just what we need to live longer, healthier lives.

Mindful Self-Discipline Giovanni Dienstmann, 2021-05-14 If you want to live a life of purpose, build good habits and achieve your goals, there is one skill that is more important than anything else: Self-Discipline. Self-discipline is not about punishment, it's about self-respect. It is not about being inflexible, but about living your best life. It is the superpower of focus in a world of distractions — allowing you to overcome procrastination, excuses, bad habits, low motivation, failures, and self-doubt. With it, you can stay on track with your values and goals even through the times when you are least inspired. Self-discipline allows you to choose who you want to be and live by design rather than by default. As a meditation teacher and self-discipline coach, Giovanni Dienstmann has helped hedge fund managers, CEOs, entrepreneurs, ambitious professionals, artists and pro athletes to live a more

focused and disciplined life. Since 2014 he has been successfully coaching people to overcome distractions, procrastination, self-doubt, fear, and other forms of self-sabotage. Whatever self-discipline challenge you face, whatever excuse you are telling yourself — Mindful Self-Discipline is a collection of all these years of experience, converted into a tool for you to use. This revolutionary book is a comprehensive and practical guide for you to develop self-discipline in a balanced way — without beating yourself up. It emphasizes the use of mindfulness and awareness as key components for building habits, rather than forcefulness and willpower. If you have tried other methodologies and failed, then this is for you. This manual for living your life purposefully contains: — Over 50 step-by-step exercises — Over 100 illustrations and diagrams — Links to the scientific studies about each topic Many, many examples — all to make it as easy as possible for you to actually apply all this knowledge and transform your daily life. If you have tried other approaches (Miracle Morning, Atomic Habits, Willpower Instinct, Tiny Habits, Discipline is Freedom, Hooked, Can't Hurt Me) and didn't get the results you were after, then this is for you. Mindful Self-Discipline goes much beyond building habits, time management, and forcing yourself. It is gentler, more achievable, and rooted in living a life of purpose. Think you are not made to be self-disciplined? Think again.
