**India's Futuristic Democracy - Threats of Constitutional Gaps and Digital Era** PRAHALAD RAO,2022-12-12 India is moving towards becoming an intelligent and industrious nation in the world but unmoving in its installing pillars, political stability and communal conflagration. Every citizen's welfare is the only way to make the nation great. A nation is built not by one Faith but by all the Faiths together as an integral part of the Nation. On 15th August 2022, we celebrated 75th Year of our Independence that looked decorative than democratic. Former is showmanship and latter is workmanship. Nation's wealth should make all the sectors healthy. The Constitution defines Constituents or Organs but not the Pillars or the making up the Gaps. The Gaps which our Constitution makers left open was to test the sensibility, prudence and wisdom of the generations to come. The Gaps have the strength to generate orderliness in the democracy. Their ignorance or indifference masked the working of democracy.

In *Sharing News Online*, Tim Dwyer and Fiona Martin analyse the growth of commendary culture and the business of social news, critique the rise of news analytics and dissect virality online. **Regulating Free Speech in a Digital Age** David Bromell,2022-02-11 Hateful thoughts and words can lead to harmful actions like the March 2019 terrorist attack on mosques in Christchurch, New Zealand. In free, open and democratic societies, governments cannot justifiably regulate what citizens think, feel, believe or value, but do have a duty to protect citizens from harmful communication that incites discrimination, active hostility and violence. Written by a public policy

advisor for fellow practitioners in politics and public life, this book discusses significant practical and moral challenges regarding internet governance and freedom of speech, particularly when responding to content that is legal but harmful. Policy makers and professionals working for governmental institutions need to strike a fair balance between protecting from harm and preserving the right to freedom of expression. And because merely passing laws does not solve complex social problems, governments need to invest, not just regulate. Governments, big tech and the private sector, civil society, individual citizens and the fourth estate all have roles to play, and counter-speech is everyone's responsibility. This book tackles hard questions about internet governance, hate speech, cancel culture and the loss of civility, and illustrates principled pragmatism applied to perplexing policy problems. Furthermore, it presents counter-speech strategies as alternatives and complements to censorship and criminalisation.
