Indian Computer Science (CS) & Information Technology (IT) Academic Reform (Past) Activism Blog Book Ravi S. Iyer,2020-03-10 Main author Ravi S. Iyer created the eklavyasai.blogspot.com blog and used it from September 2011 to play a part-time, peaceful and amicable, Indian Computer Science (CS) and Information Technology (IT) academic reform, Internet-based activist role. His focus was on improving the practice of software development in Indian CS & IT academia. But he thought that it is such a vital part of the CS & IT field and that it is so poor in many parts of Indian CS & IT academia, that he referred to his efforts as Indian CS & IT academic reform activism. Other contributors to the blog have given their views on certain topics. Main work period has been from 2011 to 2014 with a little work later, off & on. The main author is no longer active in this area. This book is aimed at helping other activists involved in improving the practice of software development in Indian CS and IT academia to get the views of the blog in a convenient form. The book may also be of interest to similar activists in other countries. About the author: Main author Ravi S. Iyer is a Physics graduate from Ruia college, University of Bombay (Mumbai) who was industry trained and later self-taught in software development. He worked in the international software industry (US, Europe, Japan, South Korea, India etc.) developing systems as well as applications software (CS & IT) for over 18 years after which he

retired from commercial work. Later, mainly as a visiting faculty, he offered free service of teaching programming courses (lab. courses) and being a technical consultant for student projects in a Maths & Computer Science department of a deemed university in India for 9 years.

Four Short Novels August Franza,2013-01-28 THE NAVIGATORS is about the hardships and disappointments the Del Vecchio family encounter when they immigrate from Italy to New York City at the beginning of the 20th century. They encounter harsh conditions which they are not ready for. In PULLING A GAUGUIN, Caril Bridgewater abandons her husband and family to pursue her dream of becoming a painter. With Paul Gauguin as her model, she slips away, leaving no information about her

destination. When her husband Ben goes in pursuit of her, many conflicts and complications ensue. Caril accomplishes her goal, but pays a heavy price. *BIRDS OF A FEATHER* is about a violent student revolt in an isolated high school during a severe blizzard. This turbulent event cuts off students and teachers from their normal lives and routines. Smoldering conflicts then erupt between students and teachers which lead to the student revolt. *CONDOMANIA*, about snow birds on vacation in Florida, begins in a comic mode. But that atmosphere slowly deteriorates when pettiness, superficiality, and vicious infighting emerge. These events are mild compared to sweet, 93-year-old Dolly Flynn's slide into vengeance and retribution.

Virtual Presenting Jamie Cohen, Michael Sorrentino, 2023-03-24 Responding to the widespread and continued acceleration of virtual working practices in recent years, *Virtual Presenting* provides a clear guide to producing, presenting, and broadcasting in a remote context. Unlike traditional studio production where a presenter is surrounded by a crew and cameras, the virtual presenter is often isolated or connected to a remote crew. *Virtual Presenting* explains how to make an authentic connection across great spaces, linked only via the Internet. Topics covered include how to build a virtual setup; how to appear on camera; how to appear confident and comfortable; and how to optimize your presentation voice. The authors demonstrate how to tell effective stories across the entire new media landscape of webcasting, webinars, livestreams, and virtual events. Finally, success stories and case studies from teachers, students, and professionals are interwoven to show how these guidelines translate into best practices. *Virtual Presenting* will be a valuable resource for students of media production and remote broadcasting as well as professionals looking to become stronger communicators and visual presenters.
