*An Anthropology of Indirect Communication* Joy Hendry,C.W. Watson,2003-12-16 Sometimes we convey what we mean not by what we say but by what we do. This type of indirect communication is sometimes called 'indirection'. From patent miscommunication, through potent ambiguity to pregnant silence this incisive collection examines from a rare anthropological perspective the many aspects of indirect communication. From a Mormon Theme Park to carnival time on Montserrat the contributors analyse indirection by illustrating how food, silence, sunglasses, martial arts and rudeness call constitute powerful ways of conveying meaning. *An Anthropology of Indirect Communication* is an engaging text which provides a challenging introduction to this subject.

Socialism C. M. Hann, 2003-09-02 Socialism as a political system may be on the wane, yet no one can doubt that its cultural legacies will make themselves felt for years to come, and on a worldwide scale. The contributors to this volume adopt a variety of anthropological approaches to illuminate changes which have removed socialists from power in many countries. Presenting detailed ethnographic accounts across a wide range of countries, they bring out the factors which have given socialism such a profound worldwide impact, including a substantial impact upon the discipline of anthropology itself. The first sustained and wide-ranging investigation of socialism by social anthropologists, this volume will enable readers to understand better how socialism has been experienced by millions of people and thereby to now better understand how they may cope with post-socialist dilemmas.

**Anthropology and Autobiography** Judith Okely, Helen Callaway, 1992-07-02 Anthropological writings by anthropologists in the field have long been a valuable tool to the profession. But until now, the theoretical implications of its use have not been fully explored. *Anthropology and Autobiography* provides unique insights into the fieldwork, autobiographical materials and/or textual critiques of

anthropologists, many of whose ethnographies are already familiar. It considers the role of the anthropologist as fieldworker and writer, examining the ways in which nationality, age, gender, and personal history influence the anthropologist's behavior towards the individuals he is observing. This volume also contributes to debates about reflexivity and the political responsibility of the anthropologist, who, as a participant, has traditionally made only stylized appearances in the academic text. The contributors examine their work among peoples in Africa, Japan, the Caribbean, Greece, Shetland, England, indigenous Australia, Indonesia, and Sri Lanka. Autobiography is developed alongside political, intellectual, and historical changes. The anthropologists confront and examine issues of racism, reciprocity and friendships. Anthropology and Autobiography will appeal to anthropologists and social scientists interested in ethnographic approaches, the self, reflexivity, qualitative methodology, and the production of texts.

**Environmentalism** Kay Milton, 2003-12-16 Located in a wide spectrum of current research and practice, from analyses of green ideology and imagery, environmental law and policy, and local environmental activism in the West to ethnographic studies of relationships between humans and their environments in hunter/gatherer societies, *Environmentalism: The View from Anthropology* offers an original perspective on what is probably the best-known issue of the late twentieth century. It will be particularly useful to all social scientists interested in environmentalism and human ecology, to environmental policy-makers and to undergraduates, lecturers and researchers in social anthropology, development studies and sociology.

A Search in Secret Egypt Paul Brunton, 2015-11-24 In this book, philosopher Paul Brunton (1898-1981) encounters the mysteries and magic of Egypt in the 1930s, including an eerie yet illuminating night spent alone inside the Great Pyramid. Alongside his explorations of ancient Egypt's

monuments and gods, Brunton encounters a variety of occultists, fakirs, and dervishes, and even manages to become initiated into the deadly art of snake charming. His frank interviews with Muslim leaders remain relevant today, and his description of the Hajj reflects the beauty and inspiring faith of Mohammad's true followers. Brunton's journey to discover the furthest reaches of what the mind and body are capable of--and to distinguish various forms of yoga and magic from true spirituality--lead him to the myth of Osiris and to the mystery that is the Sphinx itself. In the end, Brunton turns his attention to his own spiritual path, connecting all of his experiences into a single discovery: that we are more than the body and that the freedom of our spirit can be experienced here and now. This new edition has been updated to incorporate Brunton's final revisions and includes an introduction by the Paul Brunton Philosophic Foundation. Paul Brunton was a great original and got to a place of personal evolution that illumines the pathways of a future humanity. --Jean Houston, author of *A Passion for the Possible* and *A Mythic Life* Any serious man or woman in search of spiritual ideas will find a surprising challenge and an authentic source of inspiration and intellectual nourishment in the writings of Paul Brunton.--Jacob Needleman, author of *What is God?*

It takes material from the Middle East, Canada, Columbia, Australasia and various parts of Europe and Africa. It looks particularly at the extent to which traditionally disempowered groups gain influence in postcolonial or multicultural settings, and at how power relates to economic development, gender and environmentalism.
