Publisher: The Publisher book is a quick-and-dirty introduction into desktop publishing, helping you to design a publication using built-in color schemes, templates, fonts, and finishing touches like borders and backgrounds. The last three books cover material that applies to all the applications. Book 8 shows you how to create charts, handle graphics and photos, and draw lines and shapes. Book 9 provides a quick primer on customizing the Ribbon, the Quick Access toolbar, and the Status bar, and guidance on distributing your work (via printing, emailing, converting to PDF, and more). *TACCLE* Graham Attwell, 2009 This book is written for classroom teachers who want to know more about e-learning and who would like to experiment with designing e-learning material to use in their own classrooms. It is primarily targeted at secondary teachers but there is no reason why primary school teachers and adult education teachers should not find it useful too. The other group we had in mind were those of you still undertaking initial teacher training. Although there are some exemplary courses, a depressing number of trainee teachers continue to arrive in the classroom having barely heard the words 'e-learning', still less have hands on experience of it.
