**Cerebus the Barbarian Messiah** Eric Hoffman,2014-01-10 In December 1977, struggling Canadian comic book artist Dave Sim self-published the first issue of Cerebus the Aardvark, a Conan the Barbarian satire featuring a foul-tempered, sword-wielding creature trapped in a human world. Over the next 26 years, Sim, and later collaborator Gerhard, produced an epic 6,000-page graphic novel, the longest-running English language comic series by a single creative team. They revolutionized the comics medium by showing other artists that they too could forgo major publishers, paving the way for such successes as Teenage Mutant Ninja Turtles and Bone. This work, the first collection of critical essays on Cerebus, provides a multifaceted approach to Sim and Gerhard's complex and entertaining oeuvre, including their innovative use of the comic medium, storytelling and satiric techniques, technical and visual sophistication, and Sim's use of the comic as commentary on gender and religion.

*Self-Reference in the Media* Winfried Nöth,Nina Bishara,2008-09-25 This book investigates how the media have become self-referential or self-reflexive instead of mediating between the real or fictional worlds about which their messages pretend to be and between the audience that they wish to inform, counsel, or entertain. The concept of self-reference is viewed very broadly. Self-reflexivity, metatexts, metapictures, metamusic, metacommunication, as well as intertextual, and intermedial references are all conceived of as forms of self-reference, although to

different degrees and levels. The contributions focus on the semiotic foundations of reference and self-reference, discuss the transdisciplinary context of self-reference in postmodern culture, and examine original studies from the worlds of print advertising, photography, film, television, computer games, media art, web art, and music. A wide range of different media products and topics are discussed including self-promotion on TV, the TV show Big Brother, the TV format historytainment, media nostalgia, the documentation of documentation in documentary films, Marilyn Monroe in photographs, humor and paradox in animated films, metacommunication in computer games, metapictures, metafiction, metamusic, body art, and net art.

*Barbarians at the Gates of Hollywood* P J Thorndyke,2020-08-25 Journey into the realm of VHS tapes and midnight showings where brawny barbarians rescue nubile virgins from evil wizards, giant snakes, and armies of the undead! Although originating in the era of the pulp magazines, sword and sorcery fiction enjoyed a cinematic boom in the 1980s; a decade that gave us Conan the Barbarian and The Beastmaster as well as more low-budget offerings like the Roger Corman-produced Deathstalker series and the Italian entries like Conquest and the Ator saga. Some of these movies are fondly remembered as cult classics today but many were released directly to VHS and lurked on the shelves of video rental stores before vanishing into obscurity. While some have long since lost their lustre, there are plenty of diamonds in the rough to be found. This book takes a comprehensive look at over 40 sword and sorcery movies from the 1980s, from the towering titans to the bargain basement sleaze-fests, unearthing them from their tombs and dusting them off so that they may shine once more.
