**Financial Freedom** Grant Sabatier, 2020-04-07 The International Bestseller New York Public Library's Top 10 Think Thrifty Reads of 2023 This book blew my mind. More importantly, it made financial independence seem achievable. I read Financial Freedom three times, cover-to-cover. –Lifhacker Money is unlimited. Time is not. Become financially independent as fast as possible. In 2010, 24-year old Grant Sabatier woke up to find he had \$2.26 in his bank account. Five years later, he had a net worth of over \$1.25 million, and CNBC began calling him the Millennial Millionaire. By age 30, he had reached financial independence. Along the way he uncovered that most of the accepted wisdom about money, work, and retirement is either incorrect, incomplete, or so old-school it's obsolete. Financial Freedom is a step-by-step path to make more money in less time, so you have more time for the things you love. It challenges the accepted narrative of spending decades working a traditional 9 to 5 job, pinching pennies, and finally earning the right to retirement at age 65, and instead offers readers an alternative: forget everything you've ever learned about money so that you can actually live the life you want. Sabatier offers surprising, counter-intuitive advice on topics such as how to: \* Create profitable side hustles that you can turn into passive income streams or full-time businesses \* Save money without giving up what makes you happy \* Negotiate more out of your employer than you thought possible \* Travel the world for less \* Live for free--or better yet, make money on your living situation \* Create a simple, money-making portfolio that only needs minor adjustments \* Think creatively--there are so many ways to make money, but we don't see them. But most importantly, Sabatier highlights that, while one's ability to make money is limitless, one's time is not. There's also a limit to how much you can save, but not to how much money you can make. No one should spend precious years working at a job they dislike or worrying about how to make ends meet. Perhaps the biggest surprise: You need less money to retire at age 30 than you do at age 65. Financial Freedom is not merely a laundry list of advice to follow to get rich quick--it's a practical roadmap to living life on one's own terms, as soon as possible.

**The Side Hustle** Nick Loper, 2019-04-22 Make Money and Live Better The Side Hustle is for people who want or need to earn some extra money outside of their day jobs. Maybe you need a few extra dollars to make ends meet. Maybe you want to pay off debt. Maybe you want to save for a rainy day or for your children's education. Maybe you just want to treat yourself to a nice vacation or a new car without feeling guilty about it. Maybe you're looking for a way out of the corporate world, an escape plan. That's the ultimate financial freedom, right? That's how I got started down this entrepreneurial path, and it's the best choice I ever made. You're willing to work for it because your future is worth working for. But your time is limited, and you may not know where to start. There are a million and one ways to make money online and everyone wants to sell you their proven system for Internet riches. It's hard to tell what's a scam and what's legit. Real-World Examples This book offers real-world examples of how regular people just like you and me are earning side hustle income outside of traditional employment. Many have even turned these part-time ventures into full-time businesses, throwing off the shackles of their corporate overlords for good. And the cool thing is, there are no special technical skills or prerequisites to get started with any of the ideas presented. Most don't require any big scary upfront investment. (If you're a fan of Chris Guillebeau, Pat Flynn, or Tim Ferriss, you'll love this!) Why Side Hustle? > Build Skills Build Security Build Income Build Freedom My Story After college, I did what you're supposed to do: I got a job. The problem was almost immediately I found myself looking for a way out. It wasn't that I hated the work or my coworkers, but it just wasn't what I wanted to do with my life. The thought of spending my next 30 years there was terrifying. So evenings and weekends I turned my attention online. I'd been dabbling with building rudimentary websites, learning online advertising channels, and even running my own small marketing campaigns for other companies' products to test the waters. And that's what The Side Hustle is about--finding a low-risk way to make more money. Most entrepreneurship books assume you have limitless time and limitless startup capital, but I know from talking to thousands of side hustlers, that's simply not the reality. I started small and lean, but steadily built up my side hustle until I could say good-bye to corporate work. You can do it, too. I'll show you how. What's Inside? If you're looking for a get-rich-quick-scheme or the secret to overnight success, you won't find it here. But what you will find are the Big 3 side hustle business models you can take action on right away. I've interviewed hundreds of profitable side hustlers on The Side Hustle Show to figure out how their businesses work, how they make money, and most importantly, how you can replicate their success. In this book, you'll meet these real-world side hustlers who built and sustained businesses they care about. They faced the same fears and uncertainties you're wrestling with, but made something happen. Now it's your turn. What are you waiting for? The timing will never be perfect. *Principles for Dealing with the Changing World Order* Ray Dalio, 2021-11-30 NEW YORK TIMES BESTSELLER \* MORE THAN ONE MILLION COPIES SOLD "A provocative read...There are few tomes that coherently map such broad economic histories as well as Mr. Dalio's. Perhaps more unusually, Mr. Dalio has managed to identify metrics from that history that can be applied to understand today." –Andrew Ross Sorkin, The New York Times From legendary investor Ray Dalio, author of the #1 New York Times bestseller *Principles*, who has spent half a century studying global economies and markets, *Principles for Dealing with the Changing World Order* examines history's most turbulent economic and political periods to reveal why the times ahead will likely be radically different from those we've experienced in our lifetimes—and to offer practical advice on how to navigate them well. A few years ago, Ray Dalio noticed a confluence of political and economic conditions he hadn't encountered before. They included huge debts and zero or near-zero interest rates that led to massive printing of money in the world's three major reserve currencies; big political and social conflicts within countries, especially the US, due to the largest wealth, political, and values disparities in more than 100 years; and the rising of a world power (China) to challenge the existing world power (US) and the existing world order. The last time that this confluence occurred was between 1930 and 1945. This realization sent Dalio on a search for the repeating patterns and cause/effect relationships underlying all major changes in wealth and power over the last 500 years. In this remarkable and timely addition to his *Principles* series, Dalio brings readers along for his study of the major empires—including the Dutch, the British, and the American—putting into perspective the "Big Cycle" that has driven the successes and failures of all the world's major countries throughout history. He reveals the timeless and universal forces behind these shifts and uses them to look into the future, offering practical principles for positioning oneself for what's ahead.

How to Make \$2,000 a Month Online McVal Osborne, 2018-08-10 Imagine waking up every day with the freedom to decide where you want to travel to, and how much you want to work the next week. Imagine making six-figures a MONTH, rather than a YEAR. Well, what if I told you you could be making \$2,000 extra each month within 30 days? You'd think I was some kind of scam artist, right? I've read over 100 books on online money making and freelancing in the last two years alone. I've also interviewed dozens of experts who agreed to speak to me about the topic and how they got to where they are today. Don't get me wrong, it's not like I have some magic ability for getting people to make money online and start working remotely. It's just that I know one thing lots of other people don't: It's all about mindset. Top freelancers, remote workers and location independent entrepreneurs are willing to take risks, learn new skills, and sell solutions that customers really want. They don't care if they have credentials. They don't care if they've done this before. They don't even care if they have the necessary skills (yet). The bottom line? They shift their frame of mind away from the self and concentrate on what people out in the market are saying they want.
