**Earth Force** Shemer Kuznits,2019-04-30 On the first day, a mist descended from the heavens blanketing Earth.On the second day, a cryptic message, 'Infusion commencing', appeared in the corner of everyone's eyes. On the third day, the sick were healed and the crippled walked again. On the fourth day, celebration and joy spread across the globe. And on the fifth day, the warping began...There was no warning. A mist descended from the sky, disabling all technology and causing a weird message to appear at the corner of everyone's eye. The situation grew even worse as animals and people started to warp, transforming into terrible monsters that prey on the livings. Within months, human civilization had crumbled. Unable to fight the seemingly-indestructible beasts, the survivors are reduced to cowering in reinforced shelters. Waiting for the end to come. Helpless. All seemed lost until a few brave souls discovered the secret of their new reality: the Tec and how to use it to level up. Together they represent humanity's last best hope for salvation. But they first must find the answers to the mystery of their new existence. Their journey will require them to quickly adapt to alien technology, operate strange spaceships, and even befriend an extra-terrestrial merchant with an Inferiority Complex.

**10% Happier** Dan Harris,2014-03-11 #1 New York Times Bestseller REVISED WITH NEW MATERIAL Winner of the 2014 Living Now Book Award for Inspirational Memoir An enormously smart, clear-eyed, brave-hearted, and quite personal look at the benefits of meditation. —Elizabeth Gilbert Nightline anchor Dan Harrisembarks on an unexpected, hilarious, and deeply skeptical odyssey through the strange worlds of spirituality and self-help, and discovers a way to get happier that is truly achievable. After having a nationally televised panic attack, Dan Harris knew he had to make some changes. A lifelong nonbeliever, he found himself on a bizarre adventure involving a disgraced pastor, a mysterious self-help guru, and a gaggle of brain scientists. Eventually, Harris realized that the source of his problems was the very thing he always thought was his greatest asset: the incessant, insatiable voice in his head, which had propelled him through the ranks of a hypercompetitive business, but had also led him to make the profoundly stupid decisions that provoked his on-air freak-out. Finally, Harris stumbled upon an effective way to rein in that voice, something he always assumed to be either impossible or useless: meditation, a tool that research suggests can do everything from lower your blood pressure to essentially rewire your brain. 10%

Happier takes readers on a ride from the outer reaches of neuroscience to the inner sanctum of network news to the bizarre fringes of America's spiritual scene, and leaves them with a takeaway that could actually change their lives.

*The Online Safety Playbook* Arun Soni, 2022-03-01 Children must learn several fundamental skills early in life to protect their safety. Before crossing the street, look both ways. Seatbelts must be worn

at all times. Do not talk to strangers. Another item to add to the list is to be wary of hackers and cyber predators. Teachers and parents may teach students of all ages fundamental cybersecurity skills and encourage them to use digital hygiene daily. They can achieve it by including more online educational resources into their curricula and at the same time educating and updating themselves with cybersecurity skills. Children can be taught to automatically protect themselves against cyber threats, just as they do while crossing the street. Just ask yourself- Are we preparing our children for life in the digital age? Are we providing them with the required training and resources to deal with never-before-seen cyber threats? Is our educational system able to keep up with the rapid changes in our society, including technological advancements? The only problem with teaching Cybersecurity in schools and homes is that educators/parents may not be entirely updated on the subject. Or may not feel confident enough to teach it due to a lack of knowledge. That is why there is assistance for students of all age groups, educators and parents.
