Social Smarts Strategies That Earn Free Book Publicity Anne Hart,2006-03-27 Empathy and social smarts help you earn free book publicity by connecting you with key people, media, schools, and the publications of nonprofit agencies. As a writer, you can promote your own book and earn free book publicity by connecting key people, media, and nonprofits' newsletters with schools. Social intelligence used in book promotion is like a three-ring circus. Use empathy, that is people smarts, as a catalyst to bring together schools, nonprofit agencies, and authors. Observe, simplify, and offer commitment as charisma. Query editors of nonprofit publications. These nonprofit agencies often publish high-circulation newsletters and sometimes also publish sizable, glossy magazines. Some produce videos or documentaries. To connect with the nonprofit agencies' editors, use your social intelligence skills to make connections in the nonprofit agencies' public relations and communications departments. Join public relations societies, national associations, and help out the nonprofit agencies or organizations of your choice focusing on what gets published in their magazines or newsletters. If you want to earn free publicity for your book, supply these editors with facts, findings, and trends. Bring the nonprofits in contact with schools. When you talk to school assemblies or classrooms, relate your book topic to any specific work or project done by a nonprofit association for whom you could write an article for that association's newsletter or glossy magazine. Use social intelligence to connect to people. What you need to earn free publicity is self-awareness and an understanding of how the main topic of your book influences your own behavior and how others perceive your behavior.

Consumer Behaviour. Online video services and perceived risk Christina Liessem,2014-11-13 Essay from the year 2011 in the subject Business economics - Marketing, Corporate Communication, CRM, Market Research, Social Media, grade: 70%, Queen Mary University of London (Business School), course: Understanding Consumer Behaviour, language: English, abstract: "Rollout of HD VOD and Internet movies on day-and-date of DVD release is a growth opportunity not only because consumers value them and will pay more, but also because this expanded availability will increase overall movie viewership. The Oliver Wyman study found that that these enhanced offers would lead U.S. consumers to watch and pay for an average of three more movies per year than they do today, creating a net annual increase in domestic consumer movie spending of more than $5 billion, from the current base of $50 billion." As this study of the management consultancy Oliver Wyman reveals, online video services such as VOD and PPV gain an increasing importance nowadays. These trends towards online video services (OVS) invite to a closer examination of the consumer behaviour regarding these services. This essay focuses on consumer behaviour of the consumption of OVS, such as iTunes Movies and CinemaNow. In particular the aspect of perceived risk will be examined, because these products can only be consumed online, an environment where the perceived risk is still high and a possible barrier for the usage of OVS.
