This Chair Rocks Ashton Applewhite, 2019-03-05 "Wow. This book totally rocks. It arrived on a day when I was in deep confusion and sadness about my age. Everything about it, from my invisibility to my neck. Within four or five wise, passionate pages, I had found insight, illumination, and inspiration. I never use the word empower, but this book has empowered me." —Anne Lamott, New York Times bestselling author Author, activist, and TED speaker Ashton Applewhite has written a rousing manifesto calling for an end to discrimination and prejudice on the basis of age. In our youth obsessed culture, we're bombarded by media images and messages about the despairs and declines of our later years. Beauty and pharmaceutical companies work overtime to convince people to purchase products that will retain their youthful appearance and

vitality. Wrinkles are embarrassing. Gray hair should be colored and bald heads covered with implants. Older minds and bodies are too frail to keep up with the pace of the modern working world and elders should just step aside for the new generation. Ashton Applewhite once held these beliefs too until she realized where this prejudice comes from and the damage it does. Lively, funny, and deeply researched, *This Chair Rocks* traces her journey from apprehensive boomer to pro-aging radical, and in the process debunks myth after myth about late life.

Explaining the roots of ageism in history and how it divides and debases, Applewhite examines how ageist stereotypes cripple the way our brains and bodies function, looks at ageism in the workplace and the bedroom, exposes the cost of the all-American myth of independence, critiques the portrayal of elders as burdens to society, describes what an all-age-friendly world would look like, and offers a rousing call to action. It's time to create a world of age equality by making discrimination on the basis of age as unacceptable as any other kind of bias. Whether you're older or hoping to get there, this book will shake you by the shoulders, cheer you up, make you mad, and change the way you see the rest of your life. Age pride!

Online Dating is NOT for Losers! Social Natural, How To Quickly And Easily Meet 1,000 Women In A Week At Once? Are you too busy in your life to date women? Are you tired of the bar and nightclub scene, always spending huge amount of money on drinks only to go home with nothing but blue balls? Or you're just so caught up with work that meeting women normally just don't work out for you? STOP what you're doing now! Online Dating is your solution. You may have done it, and it didn't work out for you... Or you have thought about trying online dating but don't want to seem desperate, as all your guy friends might make fun of you, having this stigma that it's probably for losers and creepy guys, with their hairline nearly balding, with their waist pushing out right from under them and wearing their thick glasses, sitting behind the computer in a dark corner, watching porno all day. But, the fact is, statistically more single people are using online dating more than ever, and you are more likely to easily find that quality person in your life to settle down with faster through online dating, instead of hoping to randomly bump into her one day in the real world and that things will work out. Plus, let you in on a dark secret...just because a woman is online, she is only looking to settle down. Women are just like guys; they are horny and want to get laid! Simply put, online dating is NOT for losers! Those who say it is, just don't know how to do it and are just not getting any action, or never even done it and don't realize the full power of it. You can meet more women online in a lifetime than you do offline. That's the beauty and ease of online dating. However, don't think due to the convenience of online dating, that it's easy. You have to play your cards right. Here are some things you must know: * How to

approach online dating depending on what you want to get out of it, a relationship or just hooking up? * How to set up the perfect profile so women will automatically either fall in love or get wet? * How to prepare yourself in this virtual world to avoid some of the drawbacks associated with online dating, such as fakers, scammers, unmet expectations, etc.? * How to use social media for online dating and not be a creep, as the most common mistake guys do that ruin any chance whatsoever? * What are the BEST dating sites, FREE and PAID, for you, based on your end-goal so you don't waste time and valuable money on the wrong sites? ...and other stuffs. Learn how to do all those and much more within Online Dating is NOT for Losers! There is that one woman who want to spend her life with you, or women who want to hookup with you. Instead of waiting for them to drop into your lap, you're taking action of finding them online. Your woman is out there now. Find her before somebody else steals her away from you online.

Data, a Love Story Amy Webb, 2014-01-28 “Amy Webb found her true love after a search that's both charmingly romantic and relentlessly data-driven. Anyone who uses online dating sites must read her funny, fascinating book.”—Gretchen Rubin, #1 New York Times bestselling author of *The Happiness Project* After yet another disastrous date, Amy Webb was preparing to cancel her JDate membership when epiphany struck: her standards weren't too high, she just wasn't approaching the process the right way. Using her gift for data strategy, she found which keywords were digital-man magnets, analyzed photos, and then adjusted her (female) profile to make the most of that intel. Then began the deluge—dozens of men who actually met her own stringent requirements wanted to meet her. Among them: her future husband, now the father of her child.

Love in the Time of Algorithms Dan Slater, 2013-01-24 “If online dating can blunt the emotional pain of separation, if adults can afford to be increasingly demanding about what they want from a relationship, the effect of online dating seems positive. But what if it's also the case that the prospect of finding an ever more compatible mate with the click of a mouse means a future of relationship instability, a paradox of choice that keeps us chasing the illusive bunny around the dating track?” It's the mother of all search problems: how to find a spouse, a

mate, a date. The escalating marriage age and declining marriage rate mean we're spending a greater portion of our lives unattached, searching for love well into our thirties and forties. It's no wonder that a third of America's 90 million singles are turning to dating Web sites. Once considered the realm of the lonely and desperate, sites like eHarmony, Match, OkCupid, and Plenty of Fish have been embraced by pretty much every demographic. Thanks to the increasingly efficient algorithms that power these sites, dating has been transformed from a daunting transaction based on scarcity to one in which the possibilities are almost endless. Now anyone—young, old, straight, gay, and even married—can search for exactly what they want, connect with more people, and get more information about those people than ever before. As journalist Dan Slater shows, online dating is changing society in more profound ways than we imagine. He explores how these new technologies, by altering our perception of what's possible, are reconditioning our feelings about commitment and challenging the traditional paradigm of adult life. Like the sexual revolution of the 1960s and '70s, the digital revolution is forcing us to ask new questions about what constitutes "normal": Why should we settle for someone who falls short of our expectations if there are thousands of other options just a click away? Can commitment thrive in a world of unlimited choice? Can chemistry really be quantified by math geeks? As one of Slater's subjects wonders, "What's the etiquette here?" Blending history, psychology, and interviews with site creators and users, Slater takes readers behind the scenes of a fascinating business. Dating sites capitalize on our quest for love, but how do their creators' ideas about profits, morality, and the nature of desire shape the virtual worlds they've created for us? Should we trust an industry whose revenue

model benefits from our avoiding monogamy? Documenting the untold story of the online-dating industry's rise from ignominy to ubiquity—beginning with its early days as “computer dating” at Harvard in 1965—Slater offers a lively, entertaining, and thought provoking account of how we have, for better and worse, embraced technology in the most intimate aspect of our lives.

Social Media Strategies for Dynamic Library Service Development Tella, Adeyinka, 2014-12-31 As social technologies continue to evolve, it is apparent that librarians and their clientele would benefit through participation in the digital social world. While there are benefits to implementing these technologies, many libraries also face challenges in the integration and usage of social media. *Social Media Strategies for Dynamic Library Service Development* discusses the integration of digital social networking into library practices. Highlighting the advantages and challenges faced by libraries in the application of social media, this publication is a critical reference source for professionals and researchers working within the fields of library and information science, as well as practitioners and executives interested in the utilization of social technologies in relation to knowledge management and organizational development.

The Social Media Age Zoetanya Sujon, 2021-04-07 Exploring power and participation in a connected world. Social media are all around us. For many, they are the first things to look at upon waking and the last thing to do before sleeping. Integrated seamlessly into our private and public lives, they entertain, inform, connect (and sometimes disconnect) us. They're more than just social though. In addition to our experiences as everyday users,

understanding social media also means asking questions about our society, our culture and our economy. What we find is dense connections between platform infrastructures and our experience of the social, shaped by power, shifting patterns of participation, and a widening ideology of connection. This book introduces and examines the full scope of social media. From the social to the technological, from the everyday to platform industries, from the personal to the political. It brings together the key concepts, theories and research necessary for making sense of the meanings and consequences of social media, both hopefully and critically. Dr Zoetanya Sujon is a Senior Lecturer and Programme Director for Communications and Media at London College of Communication, University of the Arts London.

Internet Dating Chris Beasley, Mary

Holmes, 2021-05-16 Internet Dating deals primarily with the experiences of UK and Australian daters, examining their online accounts to see what kinds of narratives, norms, emotions and 'chemistry' shape their dating. Has the emergence and growth of internet dating changed the dating landscape for the better? Most commentators, popular and academic, ask whether online dating is more efficient for individuals than offline dating. We prefer a socio-political perspective. In particular, the book illustrates the extent to which internet dating can advance gender and sexual equality. Drawing on the voices of internet daters themselves, we show that internet dating reveals how social change often arises in the unassuming, everyday and familiar. We also pay attention to often ignored older daters and include consideration of daters in Africa, Scandinavia, South America, Asia and the Middle East. Throughout, we explore the pitfalls and pleasures of men and women daters navigating unconventional

directions towards more equitable social relations.

Social Network Based Big Data Analysis and Applications Mehmet Kaya, Jalal Kawash, Suheil Khoury, Min-Yuh Day, 2018-05-10 This book is a timely collection of chapters that present the state of the art within the analysis and application of big data. Working within the broader context of big data, this text focuses on the hot topics of social network modelling and analysis such as online dating recommendations, hiring practices, and subscription-type prediction in mobile phone services. Manuscripts are expanded versions of the best papers presented at the IEEE/ACM International Conference on Advances in Social Networks Analysis and Mining (ASONAM'2016), which was held in August 2016. The papers were among the best featured at the meeting and were then improved and extended substantially. Social Network Based Big Data Analysis and Applications will appeal to students and researchers in the field.

Consumer Behaviour and Social Network Sites

Sarah Zaraket, 2020-12-23 This book provides a solid understanding of electronic word of mouth (eWOM) by taking the reader through the process of information diffusion from rumour generation in times of traditional word of mouth (WOM) to negative social eWOM and examining how consumers process it. Consumer Behaviour and Social Network Sites tackles different themes relating to negative eWOM. Drawing on both intensive scientific research and professional examples, it bridges the gap between the academic and professional worlds. The book contrasts negative social eWOM to traditional WOM while discussing the specificities of different social networking sites in diffusing such information. It looks at why and how consumers decide to create, share and react to negative social eWOM, suggesting that there are more reasons than are commonly presumed for consumers to articulate themselves on these platforms. It also provides an appreciation of web users' behaviours with regards to negative social eWOM and how it can alter their decision-making journey. The book concludes with several strategies and key takeaways to deal with and prevent negative social eWOM. Most books on WOM are purely professional and lack the theoretical contextualization of the issue. Moreover, they often provide insights on brand-to-consumer conversation but not consumer-to-consumer (C2C) communication. This short book provides marketing academics, students and practitioners with an important insight into these C2C communications that can potentially

be harmful to brands.
