Go Diaper Free Andrea Olson, 2021-02-17 Stop changing diapers? start potting your baby. Over half the world's children are potty trained by one year old, yet the average potty training age in the United States is currently three years old. This leaves parents wondering: What did people do before diapers? and How do I help my own baby out of diapers sooner? Elimination Communication, also known as EC, is the natural alternative to full-time diapers and conventional toilet training. Although human babies have been pottied from birth for all human history, we've modernized the technique to work in today's busy world. Go Diaper Free shows parents of 0-18 month babies, step-by-step, how to do EC with confidence, whether full time or part time, with diapers or without. Diaper-free doesn't mean a naked baby making a mess everywhere - it actually means free from dependence upon diapers. With this book, new parents can avoid years of messy diapers, potty training struggles, diaper rash, and unexplained fussiness. Also helpful for those considering EC, in the middle of a potty pause, or confused about how to begin. This 6th edition includes a new section on The Dream Pee, a full text and graphic revision, more photos of EC in action, and a complete list of further resources. MULTIMEDIA EDITION: includes the book and access to private video library, helpful downloads, additional troubleshooting, and our private online support group run by our Certified Coaches. For less than the cost of a case of diapers, you can learn EC hands-on, the way it's meant to be learned.
