There Is No Good Card for This Kelsey Crowe,Emily McDowell,2017-01-17 The creator of the viral hit Empathy Cards teams up with a compassion expert to produce a visually stunning and groundbreaking illustrated guide to help you increase your emotional intelligence and learn how to offer comfort and support when someone you know is in pain. When someone you know is hurting, you want to let her know that you care. But many people don't know what words to use—or are afraid of saying or doing the wrong thing. This thoughtful, instructive guide, from empathy expert Dr. Kelsey Crowe and greeting card maverick Emily McDowell, blends well-researched, actionable advice with the no-nonsense humor and the signature illustration style of McDowell's immensely popular Empathy Cards, to help you feel confident in connecting with anyone experiencing grief, loss, illness, or any other difficult situation. Written in a how-to, relatable, we've-all-been-that-deer-in-the-headlights kind of way, *There Is No Good Card for This* isn't a spiritual treatise on how to make you a better person or a scientific argument about why compassion matters. It is a helpful illustrated guide to effective compassion that takes you, step by step by step, past the paralysis of thinking about someone in a difficult time to actually doing something (or nothing) with good judgment instead of fear. *There Is No Good Card for This* features workbook exercises, sample dialogs, and real-life examples from Dr. Crowe's research, including her popular Empathy Bootcamps that give people tools for building relationships when it really counts. Whether it's a coworker whose mother has died, a neighbor whose husband has been in a car accident, or a friend who is seriously ill, *There Is No Good Card for This* teaches you how to be the best friend you can be to someone in need.

Welcome to the Grief Club Janine Kwoh,2022-02 Welcome to the Grief Club - a place where one human who experienced a terrible loss, Janine Kwoh, is at the door to welcome other humans who are grieving. It is not an instruction manual, or a step-by-step playbook, or a memoir. It is, rather, a fresh, empathetic approach to all of the surprising, confusing, brutal, funny, and downright bizarre parts of grief. Combining her own experiences with grief - the author's partner died when both were in their late 20s - with what she learned from others in her 'grief club', Kwoh uses brief writings and observations, hand-drawn illustrations, and diagrams to explore all the different ways grief happens. Plus, wisdom and understanding in every line - there is no right or wrong way to grieve - and permission to grieve in whichever ways you need, for however long you need to. What to do when the world is your grief trigger. Signs you have grief brain. And gentle assurances: Grief isn't linear, but it does change and will soften over time. It is a book to put into the hands of anyone who is grieving, because from its very first page, that person will know they are no longer alone.

Cyberpl@y Brenda Danet,2020-05-28 The Internet is changing the way we communicate. As a cross between letter-writing and conversation, email has altered traditional letter-writing conventions. Websites and chat rooms have made visual aspects of written communication of greater importance, arguably, than ever before. New communication codes continue to evolve with unprecedented speed. This book explores playfulness and artfulness in digital writing and communication and answers penetrating questions about this new medium. Under what conditions do old letter-writing norms continue to be important, even in email? Digital greetings are changing the way we celebrate special occasions and public holidays, but will they take the place of paper postcards and greeting cards? The author also looks at how new art forms, such as virtual theatre, ASCII art, and digital folk art on IRC, are flourishing, and how many people collect and display digital fonts on handsome Websites, or even design their own. Intended as a time capsule documenting developments online in the mid- to late 1990s, when the Internet became a mass medium, this book treats the computer as an expressive instrument fostering new forms of creativity and popular culture.
