Corpus Linguistics for Translation and Contrastive Studies Mikhail Mikhailov, Robert Cooper, 2016-05-20 Corpus Linguistics for Translation and Contrastive Studies provides a clear and practical introduction to using corpora in these fields. Giving special attention to parallel corpora, which are collections of texts in two or more languages, and demonstrating the potential benefits for multilingual corpus linguistics research to both translators and researchers, this book: explores the different types of parallel corpora available, and shows how to use basic and advanced search procedures to analyse them; explains how to compile a parallel corpus, and discusses their uses for translation purposes and to research linguistic phenomena across languages; demonstrates the use of corpus extracts across a wide range of texts, including dictionaries, novels by authors including Jane Austen and Mikhail Bulgakov, and newspapers such as The Sunday Times; is illustrated with case studies from a range of languages including Finnish, Russian, English and French. Written by two experienced researchers and practitioners, Corpus Linguistics for Translation and Contrastive Studies is essential reading for postgraduate students and researchers working within the area of translation and contrastive studies.

Teaching Online Susan Ko, Steve Rossen, 2017-02-24 Teaching Online: A Practical Guide is an accessible, introductory, and comprehensive guide for anyone who teaches online. The fourth edition of this bestselling resource has been fully revised, maintains its reader-friendly tone, and offers exceptional practical advice, new teaching examples, faculty interviews, and an updated resource section. New to this edition: entire new chapter on MOOCs (massive open online courses); expanded information on teaching with mobile devices, using open educational resources, and learning analytics; additional interviews with faculty, case studies, and examples; spotlight on new tools and categories of tools, especially multimedia. Focusing on the hows and whys of implementation rather than theory, the fourth edition of Teaching Online is a must-have resource for anyone teaching online or thinking about teaching online.

Statement of Treaties and International Agreements United Nations Office of Legal Affairs, 2005-11-18 This monthly publication contains the statement of treaties and international agreements registered in accordance with Article 102 of the United Nations Charter. For each treaty or international agreement listed, the following information is given: registration or recording number, title, date of conclusion, date and method of entry into force, languages in which it was concluded, name of the authority which initiated the formality of registration, and the filing and recording date of that formality. The annex contains ratifications, accessions, supplementary agreements and other subsequent actions concerning the treaties and international agreements. This is a bilingual publication in English and French.

Open and Distance Non-formal Education in Developing Countries Colin Latchem, 2018-01-29 This book is the first

comprehensive account of developments in open and distance non-formal education in developing countries for over more than 20 years. It includes many instructive and inspiring examples of how international agencies such as UNESCO, FAO, WHO, UNICEF, USAID and the Commonwealth of Learning and national providers are using radio, TV, online and mobile learning, telecentres and other means to achieve the Education for All, Millennium Development and Sustainable Development Goals. It describes the educational needs of the world's most disadvantaged, vulnerable and least formally educated children, youth and adult populations, including the disabled, refugees and prisoners. It also reports on the successes, outcomes, constraints and shortcomings of using open and distance methods and technology to deliver literacy and numeracy programmes, equivalency, 'second chance' or alternative schooling, life skills and rural community development programmes and income generation and vocational training outside the framework of the formal education system. It concludes with suggestions for the extension and improvement of such lifelong learning. Designed to encourage further research and development in these capacity-building practices outside the established formal system, this is a must-read for all policy-makers, managers, educators, students and researchers interested in non-formal education for individuals, families and communities in the developing world.

Northwest Journal of Education ,1898

Using Microsoft Dynamics AX 2012 Andreas Luszczak,2013-08-13 Precise descriptions and instructions enable users, students and consultants to easily understand Microsoft Dynamics AX 2012. Microsoft offers Dynamics AX as its premium ERP solution to support large and mid-sized organizations with a complete business management solution which is easy to use. Going through a simple but comprehensive case study - the sample company 'Anso Technologies Inc.' - this book provides the required knowledge to handle all basic business processes in Dynamics AX. Exercises are there to train the processes and functionality, also making this book a good choice for self-study.

Public Relations Planning Edward T. Vieira, Jr.,2018-10-03 Public Relations Planning provides students with an in-depth understanding of the steps involved in planning and executing a successful PR campaign. Taking a strategic approach to the subject, the author brings years of practical experience to the project, helping students see how it all fits together in reality. The book goes beyond an introductory discussion of the theory of PR planning, incorporating material from cutting-edge research in the field. A discussion of the psychological aspects of communication, material on in-house/employee communication, as well as a chapter dedicated to discussing how social media strategies fit into a PR campaign, give students a real edge when it comes to executing an effective campaign. Plenty of global examples and a companion website featuring PowerPoint slides, a test bank, and answer key for end-of-chapter questions round out this excellent resource for students of public relations and corporate communication.

Procedures for the implementation of the Indian Ocean Tuna Commission Port State Measures Indian Ocean Tuna Commission,2021-11-04 The objective of this manual is to provide a working document for port State authorities to use in the implementation of the IOTC Port State Measures Resolution (PSMR), which entered into force on 1 March 2011 and was amended in 2016 to include a provision on the electronic port State measures application (e-PSM). The content is divided into three chapters. The first chapter describes the functions and operations of IOTC and the Indian Ocean tuna fishery, and summarises the development of port State measures by the international community and the development by IOTC Contracting Parties and Cooperating Non-Contracting Parties (CPCs) of conservation and management measures that both reflect and complement the internationally agreed measures. The second chapter

addresses operational and technical matters, key elements for the training of managers and inspectors, to provide them with the knowledge to implement the port State measures practically and effectively. The third chapter provides guides to and checklists for standard operating procedures to implement the measures for vessels from the main fishing sectors likely to be encountered in the Indian Ocean region. This manual should be viewed as a living document that can be revised and improved by all parties as experience is expanded in the implementation of the IOTC PSMR.
