Dot's efforts quickly draw the support of disparate members of the community, including newcomer Beth Donnelly, married to a local pastor; Elaine Giovanni, the stylish wife of a local surgeon; and an ailing Aunt Teza. But as the four different generations work the squares of the quilt, they are also confronted with ragged pieces of their own lives. Though the women could not be more different on the surface, they hold in common quiet suffering triggered by painful circumstances: the death of children, the abandonment of husbands, the loneliness of depression. Yet their struggles will bring them closer together than they ever could have anticipated, and their lives will be dramatically changed, as together they experience the curative powers of *The Healing Quilt*.

*Pink Floyd All the Songs* Jean-Michel Guesdon, Philippe Margotin, 2017-10-24 The newest addition to the best-selling *All the Songs* series details the unique recording history of Pink Floyd, one of the world's most commercially successful and influential rock bands. Since 1965, Pink Floyd have been recording sonically experimental and philosophical music, selling more than 250 million records worldwide, including two of the best-selling albums of all time *Dark Side of the Moon* and *The Wall*. While much is known about this iconic group, few books provide a comprehensive history of their time in the studio. In *Pink Floyd All the Songs*, authors Margotin and Guesdon describe the origin of their nearly 200 released songs, details from the recording studio, what instruments were used, and behind-the-scenes stories of the tensions that helped drive the band. Organized chronologically by album, this massive, 544-page hardcover begins with their 1967 debut album *The Piper at the Gates of Dawn*, the only one recorded under founding member Syd Barrett's leadership; through the loss of Barrett and the addition of David Gilmour; to Richard Wright leaving the band in 1979 but returning; to Roger Waters leaving in 1985 and the albums recorded since his departure, including their 2014 farewell album, *The Endless River*, which was downloaded 12 million times on Spotify the week it was released. Packed with more than 500 photos, *All the Songs* is also filled with stories fans treasure, such as Waters working with engineer Alan Parsons to employ revolutionary recording techniques for *The Dark Side of the Moon* at Abbey Road Studios in 1972 or producer Bob Ezrin's contribution in refining Waters' original sprawling vision for *The Wall*.

**Politics and the Pink Tide** Kathleen Bruhn, 2024-04-15 *Politics and the Pink Tide* investigates the ways in which protest varied across five Latin American countries that elected leftist presidents during the Pink Tide. Kathleen Bruhn compares the differences in protest that occurred under the new leftist governments to their conservative, neoliberal predecessors, offering a wide-angle view into the complex relationships between neoliberalism, political party structures, and protest. Using individual and event-level data from Bolivia, Brazil, Chile, Venezuela, and Ecuador, *Politics and the Pink Tide* shows how economic policy choices and the links between leftist parties and social movements affect patterns of protest. For example, although more orthodox neoliberal approaches did motivate more economic protest, the book demonstrates that neither more radical nor more socially linked leftist governments were better able to contain protest—or to do so without resorting to police violence. *Politics and the Pink Tide* proposes a sweeping exploration of protest, one that is controlled by economic policy and grievances, the social embeddedness of political parties, and the norms surrounding protest tactics within public life.

*Networking* Tatiana Bazzichelli, 2009-02 Networking means to create nets of relations, where the publisher and the reader, the artist and the audience, act on the same level. The book is a first tentative reconstruction of the history of artistic networking in Italy, through an analysis of media and art projects which during the past twenty years have given way to a creative, shared and aware use of technologies, from video to computers, contributing to the creation of Italian hacker communities. The Italian network proposes a form of critical information, disseminated through independent and collective projects where the idea of freedom of expression is a central theme. In Italy, thanks to the alternative use of Internet, during the past twenty years a vast national network of people who share political, cultural and artistic views has been formed. The book describes the evolution of the Italian hacktivism and net culture from the 1980s till today. It builds a reflection on the new role of the artist and author who becomes a networker, operating in collective nets, reconnecting to Neoavant-garde practices of the 1960s (first and foremost Fluxus), but also Mail Art, Neoism and Luther Blissett. A path which began in BBSes, alternative web platforms spread in Italy through the 1980s even before the Internet even existed, and then moved on to Hackmeetings, to Telestreet and networking art by different artists such as 0100101110101101.ORG, [epidemiC], Jaromil, Giacomo Verde, Giovanotti Mondani Meccanici, Correnti Magnetiche, Candida TV, Tommaso Tozzi, Federico Bucalossi, Massimo Contrasto, Mariano Equizzi, Pigreca, Molleindustria, Guerriglia Marketing, Sexyshock, Phag Off and many others.
