CALL Environments Joy Egbert, Elizabeth Hanson-Smith, 2007 When the first edition of CALL Environments was published in 1999 (Alexandria, VA: TESOL), it filled a distinct need for a computer assisted language learning (CALL) text focused specifically on second language acquisition (SLA). Much has happened in the world of technology since then, but the need to maintain this connection between research on both CALL and SLA still exists. This second edition continues to meet that need by highlighting new tools, discussing new research, and proposing new practical applications. And many of the chapters, which discuss topics such as visual literacy, critical thinking, and creativity, address content from the revised National Education Technology Standards for Students. As Egbert and Hanson-Smith point out, although technology presents a whole new language, the language of technology is not the most crucial information that educators need in order to use computers and the Internet effectively in their language classrooms. More important is an understanding of good pedagogy and the relationships among teaching, learning, and technological environments. This volume builds on the structure of the first edition, based on the eight conditions for optimal learning environments, by adding suggestions for projects and questions for reflection at the end of each chapter, as well as an index of terms used throughout the book.

An Atlas of Dental Vascularity & Innervation Craig Barrington, 2021 This book documents the internal anatomy of teeth, with a special focus on the innervation and vascular structure and distribution within the dentin chamber. Instead of the common use of sectioning, the author uses a complex diaphanization method to make extracted teeth transparent before photographing the intact internal dental anatomy. Therefore, the images throughout the book display structures that have rarely been seen so clearly and in three dimensions, including clear photographs of the pulp chamber, apical anatomy, and tooth channels. The body of work represented in this book pushes our understanding of internal dental anatomy--

Fire in the Ashes Jonathan Kozol, 2013-09-03 In this powerful and culminating work about a group of inner-city children he has known for many years, Jonathan Kozol returns to the scene of his previous prize-winning books, and to the children he has vividly portrayed, to share with us their fascinating journeys and unexpected victories as they grow into adulthood. For nearly fifty years, Jonathan has pricked the conscience of his readers by laying bare the savage inequalities inflicted upon children for no reason but the accident of being born to poverty within a wealthy nation. But never has his intimate acquaintance with his subjects been more apparent, or more stirring, than in *Fire in the Ashes*, as Jonathan tells the stories of young men and women who have come of age in one of the most destitute communities of the United States. Some of them never do recover from the battering they undergo in their early years, but many more battle back with fierce and often jubilant determination to overcome the formidable obstacles they face. As we watch these glorious children grow into the fullness of a healthy and contributive maturity, they ignite a flame of hope, not only for themselves but also for our society.

The Hidden Lamp Zenshin Florence Caplow, Reigetsu Susan Moon, 2013-10-21 *The Hidden Lamp* is a collection of one hundred koans and stories of Buddhist women from the time of the Buddha to the present day. This revolutionary book brings together many teaching stories that were hidden for centuries, unknown until this volume. These stories are extraordinary expressions of freedom and fearlessness, relevant for men and women of any time or place. In these pages we meet nuns, laywomen practicing with their families, famous teachers honored by emperors, and old women selling tea on the side of the road. Each story is accompanied by a reflection by a contemporary woman teacher--personal responses that help bring the old stories alive for readers today--and concluded by a final meditation for the reader, a question from the editors meant to spark further rumination and inquiry. These are the voices of the women ancestors of every contemporary Buddhist.
