Moving Data Pelle Snickars,Patrick Vonderau,2012-07-10 The iPhone has revolutionized not only how people communicate but also how we consume and produce culture. Combining traditional and social media with mobile connectivity, smartphones have redefined and expanded the dimensions of everyday life, allowing individuals to personalize media as they move and process constant flows of data. Today, millions of consumers love and live by their iPhones, but what are the implications of its special technology on society, media, and culture? Featuring an eclectic mix of original essays, Moving Data explores the iPhone as technological prototype, lifestyle gadget, and platform for media creativity. Media experts, cultural critics, and scholars consider the device's newness and usability—even its lickability—and its biographical story. The book illuminates patterns of consumption; the fate of solitude against smartphone ubiquity; the economy of the App Store and its perceived crisis of choice; and the distance between the accessibility of digital information and the protocols governing its use. Alternating between critical and conceptual analyses, essays link the design of participatory media to the iPhone's technological features and sharing routines, and they follow the extent to which the pleasures of gesture-based interfaces are redefining media use and sensory experience. They also consider how user-led innovations, collaborative mapping, and creative empowerment are understood and reconciled through changes in mobile surveillance, personal rights, and prescriptive social software. Presenting a range of perspectives and arguments, this book reorients the practice and study of media critique.

Hidden Innovation Stuart Cunningham,2013-04-01 Because of the divergence in world views and methods between scientists and the creative sector, innovation systems and policies have focused for decades on science, engineering, technology, and medicine. The humanities, arts, and social sciences have had their contributions hidden from research agendas, policy and program initiatives, and the public mind. But structural changes to advanced economies and societies have brought service industries and the creative sector to greater prominence as key contributors to innovation. Hidden Innovation peels back the veil, tracing the way innovation occurs through new forms of screen production enabled by social media platforms as well as in public broadcasting. It shows that creative workers are contributing fresh ideas across the economy, and traces how policies are beginning to catch up with the changing social and economic realities, on a global level. Hidden Innovations argues that the innovation framework offers the best opportunity in decades to reassess the case for the public role of the humanities, particularly the media and cultural and communication studies.

Subotta,2015-05-07 Governments must work tirelessly to update their preparedness for dealing with natural and man-made disasters, as well as taking account of the increasingly present threat of terrorism. Efficient international cooperation is key to achieving safety and internationalizing security policy. This book presents the proceedings of the NATO Advanced Research Workshop (ARW) Engaging the Public to Fight the Consequences of Terrorism and Disasters, held in Tbilisi, Georgia, in June 2014. The purpose of the workshop was to analyze accumulated European theoretical knowledge and practical experience in the field of disaster prevention and the involvement of the public in preventing and fighting the consequences of terrorism, as well as natural and man-made disasters. There was a particular focus on the perspective of the region, especially with a view to meeting European Union standards and setting uniform and independent standards for hazard and risk assessment methods. The protection of economically critical infrastructure, such as dams, pipelines and transport and storage facilities, was addressed as were the issues of managing water and non-renewable resources, the disposal of dangerous chemicals and radioactive waste, and defensible methods of transport for fuel supplies and key personnel. Contributions reflected the extensive experience of the participating NATO and partner countries, including Armenia, Austria, Bulgaria,

Georgia, Germany, Italy, Moldova, the Netherlands, Romania, Turkey and Ukraine as well as international organizations such as UNECE and NATO.

Video Games Around the World Mark J. P. Wolf,2015-05-01 Thirty-nine essays explore the vast diversity of video game history and culture across all the world's continents. Video games have become a global industry, and their history spans dozens of national industries where foreign imports compete with domestic productions, legitimate industry contends with piracy, and national identity faces the global marketplace. This volume describes video game history and culture across every continent, with essays covering areas as disparate and far-flung as Argentina and Thailand, Hungary and Indonesia, Iran and Ireland. Most of the essays are written by natives of the countries they discuss, many of them game designers and founders of game companies, offering distinctively firsthand perspectives. Some of these national histories appear for the first time in English, and some for the first time in any language. Readers will learn, for example, about the rapid growth of mobile games in Africa; how a meat-packing company held the rights to import the Atari VCS 2600 into Mexico; and how the Indonesian MMORPG Nusantara Online reflects that country's cultural history and folklore. Every country or region's unique conditions provide the context that shapes its national industry; for example, the long history of computer science in the United Kingdom and Scandinavia, the problems of piracy in China, the PC Bangs of South Korea, or the Dutch industry's emphasis on serious games. As these essays demonstrate, local innovation and diversification thrive alongside productions and corporations with global aspirations. Africa • Arab World • Argentina • Australia • Austria • Brazil • Canada • China • Colombia • Czech Republic • Finland • France • Germany • Hong Kong • Hungary • India • Indonesia • Iran • Ireland • Italy • Japan • Mexico • The Netherlands • New Zealand • Peru • Poland • Portugal • Russia • Scandinavia • Singapore • South Korea • Spain • Switzerland • Thailand • Turkey • United Kingdom • United States of America • Uruguay • Venezuela
