Forex Signal Trader X, 2012-08-26 Ever felt like knocking your boss the eff out? Even if you're your own boss? I have. I remember the day I decided to punch my boss in the face. One of the best decisions I ever made by far. It was glorious. A V day of sorts. I just walked in his office, looked him straight in the eyes, and did a spinning back fist. Yeah, that's right ... a spinning back fist. Bruce Lee style, baby. I missed of course. And fell. But nevertheless ... my point had been made. I picked myself back up off the floor, slotted back to my cubic-hell, and resumed my daily torchores like a good little drone. And then I woke up. Literally. Like ... in a bed. I was just a stupid dream. Man, I thought. If I can't even punch my boss the right way in my dreams, how the heck am I ever gonna do it in real life? So I decided to do what every sensible human being does in his mid-thirties ... give up on my dreams. Luckily for me I had two dreams. One was to punch my boss in the face. The other was to quit my job and get filthy rich doing stuff that made me happy. Swing-and-a-miss on the first dream (pun intended). Home run on the second one. Like ... grand slam home run. I wanna tell you both how I did it and how you can be one of my RBIs. I've done all the hard work for you. All you have to do is quit your job and come on home. Here's my point ... You can have and do whatever the heck you want. You can, to a certain degree, create your own reality. But it's not easy. Which is why I've decided to create your reality for you. Wanna see it? Step into it even? You would if you knew what was on the other side. All ya gotta do is punch a few buttons and get this book. But you're going to have to take a click of faith.

Trading and Investing in the Forex Markets Using Chart Techniques Gareth A. Burgess,2010-02-09 The financial markets are made up of people from very diverse backgrounds but whether by long or short term investment these market participants all have a desire to win by varying degrees. Many market participants, especially short term traders are often too interested in the release of some fundamental statement or some rumor or the latest bank recommendations than in the trading price of the asset which leads them to trade and fail because of emotions based trading. The daily price movements, the patterns, the volatility that appear on charts, are for whatever reason, the results of the actions of the crowd. To avoid making decisions based on heightened emotions, it is necessary to create your own plan based on your own analysis. This book has been developed to demonstrate how a few relatively straight forward techniques can create a plan that does not rely on outside investment recommendations and therefore takes the emotions out of trading. The book demonstrates how to interpret the market price action in the shape of forms or patterns and Japanese candlesticks to help you: Find markets that are changing from bullish to bearish and from bearish to bullish Locate entry and exit points Monitor the position for signs of change. The book provides a series of charting techniques involving the use of candlesticks as graphical representations of market price actions in the Foreign Exchange markets. It presents methods of chart technical analysis for medium to long-term investing, in a market where despite strong returns when compared with other asset types, it is difficult to realize a profitable return. The title does not dwell on already-known 'signals' represented by candlestick formations, but concentrates instead on how to confirm these signals by applying a variety of confirmation techniques which form a step-by-step process through the chapters of the book to finish by 'Putting It All Together'.

MY PERSONAL FOREX EXPERIENCE D. (D.S.H),2014-09-11 This book is based on personal experience, sleepless nights, frustration and information I wish someone had told me when I first started trading forex. I was the most naive Forex Trader ever. I listened to everything my Forex Broker said. I attended every training session, I learned everything about Candle Sticks, RSI Lines, Parabolic, Ichimoku etc, if they said it would help I was there. My broker said trading forex is an easy transaction where if the Market goes Up you Buy and if it goes Down you Sell (Theoretically it does, as long as you know what you doing). He also said the market is always right. Not true. In every Financial transaction there is always a Winner and a Loser. People are mis-informed about the realities of the Financial Market. When I first started trading forex I always ended up being the loser. This book will help you improve your trading exeprience , you will have more winning results, teach you about indicators not signals that are on your MT4 platform which no-one tells you about but are really helpful. This book will also assist you in turning a losing trade into a winning one or at least break-even. Hope you find this book informative and it helps you avoid the costly mistakes I have made.
