Hawaii End of the Rainbow Kazuo Miyamoto, 2011-12-20 This is the story of the Japanese who immigrated to Hawaii around the turn of the present century, worked as forced laborers on the sugar plantations, and afterwards remained in Hawaii to work as free men and to raise families. It is the story also of their children, born and raised in Hawaii, and who, during World War II, won fame and glory for themselves and their country on the bloody battlefields of Italy and southern Europe. But more than all of this, it is the story of the fate of the original immigrants during World War II. Rounded up by a panic-stricken American Government after the Japanese attack on Pearl Harbor, these people were sent to the mainland to spend the war years being confined in one refugee camp after another, all while their sons were winning fame as American combat troops. And finally, it is the story of these elderly people who, at the end of the war, became free men once again and were allowed to return to their beloved Hawaii to live out their lives in peace.

Nonsense Susan A. Stewart, 1989-12-01 From a comic strip papyrus dating from Egypt's New Kingdom to the works of Stein, Joyce, and Barth, nonsense texts reveal a set of possibilities as rich and complex as the more conventional system of making sense from which they are derived. Examining palindromes, children's rhymes, puns, anagrams, code languages, and other texts, Susan Stewart explores the labyrinthine relationships between common sense and nonsense—and presents an original contribution to the fields of folklore, literary theory, anthropology, and sociology by analyzing nonsense within an expansive context of the social manufacture of order and disorder.

The Old Woman, the Wife and the Archer Donald Keene, 1961 Three short novels by contemporary authors whose themes stem from the days before the westernization of Japan. Ohan: A psychological study of a marriage and in particular of the submissive, inarticulate, self-sacrificing wife who was the ideal. It is the first extensive piece of fiction by a modern Japanese woman writer to be published in this country. Asters: Set in the thirteenth century, it introduces the reader to a world of magic and to a hero fascinated with cruelty and death.

Japanese Folk Plays: The Ink Smeared Lady and Other Kyogen, 2012-09-11 This collection of Japanese folk plays reveals a previously unknown and decidedly unaristocratic element to Japanese theater. Interspersed between the stately, slower paced dramas of Japan's Noh theater are the delightful comic plays or interludes known as Kyogen. These brief plays evolved from the bawdy skits that were rousingly enjoyed by the plebeian populace of the cities in feudal Japan some hundreds of years ago when Noh itself was a pastime and entertainment exclusively reserved for the aristocracy. Today they still provide delightful relief from the sustained and concentrated action of the Noh play that has changed very little throughout the centuries. Among the various forms of classical Japanese drama, the flamboyant action and brilliant coloring Kabuki has perhaps enabled it to be the most easily understood; and the Noh, in a number of excellent translations, has become widely known for its poetic beauty. But the Kyogen, equally deserving of attention, have remained relatively unknown. Only now, with this new edition of Miss Sakanishi's excellent translations, are they at last readily available to the Western reader.

Writing to Survive Johannes Alexander van Waarden, 2010 Volume 2: Asceticism, and the antidote it offers to contemporary secular disappointments in fifth-century Gaul, is the central theme in the second part of Book 7 of Sidonius Apollinaris' correspondence. Addressing a state of ferment in which the closely-knit Gallo-Roman elite is shifting its moral and religious parameters along with its political certainties, these letters only reveal their full significance - this commentary claims - when read as ascetic documents mirroring the mentality of the monks of Lérins. This second volume of Writing to Survive follows the first (LAHR 2) in scope and method, providing detailed philological underpinning as well as a wealth of thematic research. Together, these two volumes constitute an important contribution towards the comprehensive range of commentaries on Sidonius' work planned by the 'Sidonius Apollinaris for the Twenty-First Century' project for publication in the LAHR series. Like its companion volume, this work will be of interest to classicists and medievalists, to literary scholars and church historians, to those concerned with philological and historical intricacies and those interested in the broader development of literature and mentalities in Late Antiquity.--
