Rise of the Human Androids Malcolm P. Chester, 2014-01-15 In this sequel to the *Rise of the Human Androids*, lizard like aliens called the Sharptors have perfected high-energy shields for hyperspace travel and begun exploring the galaxy. Meanwhile, James decides to not run for re-election for President of

Mars. He plans instead to search the galaxy for old ones technology in a heavy cruiser with a supergun named after his wife. His wife and two children will join him on this journey. Susan, Mars' Secretary of State and former President of the U.S. will run for James' spot and James' adopted human android daughter Martha will run for vice-president. James' actions are motivated by the re-emergence of Ergone as the Marshall of the powerful and independent Altararian military. James knows Ergone wants to avenge his loss to Mars and Earth in their last war. James fears the Altararians with their vastly superior forces will crush Mars if he can't find advanced technology to stop them. In a chance meeting, James encounters the Sharptors while looking at a promising planet for exploration. A fight breaks out. James wins the encounter but the Sharptor warship escapes. Still, a plan begins to emerge in James' mind of how to use the aggressive new aliens against the Altararians. Meanwhile James and his associates explore an old ones site on their promising new earth like world Sisney 1. They must battle a super aggressive mammal the Ratang and insect the Botos, which have stripped Sisney 1 of almost all of its land animal life as they explore the site. They find new technology at the site, which they plan to use against the Altararians. Meanwhile a secret organization called the Committee, which has controlled many economic events on Earth, finds it difficult to control Mars and its allied planets. As a result, to make themselves relevant in the changing world around them, they join with bigoted groups on Mars and Ganymede and in

a secret deal with the Altararians to sabotage Mars efforts to arm itself against the expected Altararian invasion. Many characters on Earth, Mars and Ganymede battle this super secret group in their efforts to prepare Mars for the Altararian invasion. All these forces clash as Mars struggles to survive its confrontation with the Altararians and preserve its Utopian World of human androids and human immigrants.

The remnants of the Kree are in utter disarray, their massive technologically advanced fleets totally susceptible to Phalanx control. Mars Born The future of the galaxy hangs in the balance as the Shadows continue their invasion. Jas Harrington has escaped to the starship Bricoleur. In the brief respite from battle, she must decide how best to fight the Shadows, who kill and replace their victims. Along with her companions, she travels to her birthplace, Mars, where she delves into her murky past and uncovers surprising secrets. In the midst of the declining colony world, Jas finds something that might be the key to everything. Her discovery could explain where the Shadows come from, how they operate, and

Shadow Battle Humanity is at war with invading aliens, and the battle's about to go galactic. Security chief Jas Harrington has exposed the secret invasion of Earth by hostile aliens called Shadows. When the Council members hear Jas' story, they realize that the stolen organisms may hold the secret to defeating the Shadows. Meanwhile, in the deepest regions of the galaxy, the Shadow battle has begun. Jas and her friends want to fight alongside their galactic allies, even if it means parting company. Jas enlists with the galactic fleet and is sent to serve aboard the space battleship Infineon. As the battle rages, it becomes clear that the allies face more threats than just the enemy's ships. Shadow War A galactic war. Star-crossed lovers. What could possibly go wrong? Jas Harrington has risen from a lowly ensign to the rank of commander in the Unity Alliance, which has been at war with the Shadows for the last five years. *The Saga of Harmin Race* Robert L. Lanese, 2011-08-29 One might think that a book titled *Invasion* would be a story of hundreds of war ships invading a Planet. In part this is true, there is a massive deployment of war ships on all the borders of their Galaxy staging the largest invasion known. But this is only a small part of this story. The boys do battle with Pirates, Drug Lords, and Slavers. There is also the largest Wedding ever held on Lantis 4, when our heros get married. But the most important two words in the entire book are spoken in the last paragraph of the book. These two words determine the future of *The Saga Of Harmin Race*. Stay on board and learn the future..

**America's Galactic Foreign Legion - Book 3** Walter Knight, 2016-05-26 Decorated war hero Captain Joey R. Czerinski of the United States Galactic Foreign Legion faces even more challenges as the Arthropodan Empire ramps up its plans to take control of the prized planet, New Colorado. Double-crossing friends and adversaries on both sides, out to make a buck, put the Legion at the mercy of spider forces whose careful planning and military strategies seem to ensure Arthropoda will gain control over more territory in a campaign of silent invasion. As the situation deteriorates for the human occupation, Czerinski realizes he can't trust anyone, not even his past business partner and constant cohort in mischief, Lieutenant Manny Lopez. The wolves are literally at the door, and Czerinski finds himself backed into a corner,

wondering what he can possibly do to save the day and restore the Legion's control of planet New Colorado. With the odds against him, maybe the only thing Czerinski can do is take a dive and throw the fight - literally. Nothing's a sure thing, especially in war - except that through all the ups and downs and continual serendipitous surprises, this ongoing satirical, politically incorrect, sweeping military space opera is sure to entertain.

**The Valkyrie Genesis** David Pauw, 2021-06-29 Peace was short-lived after the long and bloody War of Ascension: the victors once again ravaged the galaxy as the patriarch of the Condor legions sought power for himself, threatening the galactic systems with civil war and a new dictatorship, as the systems loyal to his control rose up to expand their territory. Now, the Galactic Terran Space Command (GTSC) has risen up to defend their way of life and restore order to the colonies - but the GTSC is at breaking point after a decade of fighting. When a returning long-range Special Operations cruiser accidentally identifies a major security threat, a fleet is hastily assembled to launch a covert operation. Control of the newfound system could mean the turning point of the war as it swings in the balance of victory and defeat. In this monumental campaign, legends are forged through desperate deeds when those who are destined to die, refuse to. A small band of pilots hold the skies above the blood bath below: the Valkyries rise from the ashes! *Valkyrie Genesis: Face of Invasion*, the first book in the *Valkyrie Chronicles* series, introduces the band of pilots who form the core of a new elite squadron

defending the skies against enemy forces. Through the trials of combat, they become a family. Valkyrie faces emerge through the fog of war as blood becomes thicker than water.

**Galaxy at War: Mystery of the Relics** Trey Deibel, 2019-05-17 Two new warlords step out of the shadows! With their sights set on obtaining ancient relics of mysterious origin, they'll surely tip the scales of galactic war in their favor! With James Stone up for trial for desertion, who or what can face this new threat? And even if he's cleared of the charges, how can one man take on two of the most powerful foes in the galaxy? But this isn't the only new threat in the galaxy. There's but one more: the Brotherhood of Relics. Finally, the members of this cult, shrouded in myth and legend, show themselves, and one knight in particular - Ghost - has James Stone in his crosshairs, ready to kill him at the most opportune moment.

**Relic Tech** Terry W. Ervin II, 2018-07-11 The Silicate War has been over for fifteen years, and the tension among the dominant galactic races is growing. Many fear that the Umblegarri, the ancient alien race that ushered humanity into the interstellar galactic community during the Silicate War, have been targeted for conquest by the Crax and their allies. It's no longer speculation. The invasion is underway and Kra finds himself strapped to a hospital bed, critically injured and surrounded by hostile corporate lawyers, high ranking military and intelligence officials, ambitious members of the criminal justice apparatus, and an Umbelgarri diplomat. All are demanding

answers or their pound of flesh. Krakista Keesay, a Class 4 Security Specialist, doesn't have the answers they demand. Why did he sabotage a top secret research facility? What was he doing on a quarantined planet? Why did he set up the civil transport Kalavar for destruction? Is that all? Not even close. Kra turns to his only option: Allow his brain to be hooked up to an experimental device so that he might prove his innocence. Or lose his mind.

But what if one nation embarks on a campaign of total conquest for good reasons and with the best of intentions?
