The World's Major Languages Bernard Comrie,2018-04-17 The World's Major Languages features over 50 of the world's languages and language families. This revised edition includes updated bibliographies for each chapter and up-to-date census figures. The featured languages have been chosen based on the number of speakers, their role as official languages and their cultural and historical importance. Each language is looked at in depth, and the chapters provide information on both grammatical features and on salient features of the language's history and cultural role. The World's Major Languages is an accessible and essential reference work for linguists.

The Romance Languages Martin Harris,Nigel Vincent,2003-12-16 Available again, this book discusses nine Romance languages in context of their common Latin origins and then in individual studies. The final chapter is devoted to Romance-based Creole languages; a genuine innovation in a work of this kind.

História de uma galinha Rafael Estrada,2018-11-23 Esta história que você vai ler me contou uma galinha que eu conheci em uma chocadeira. A pobre franguinha estava trancada em uma gaiola com as luzes acesas 24 horas por dia. Isso era feito com a intenção de enganá-la, para que não dormisse e pusesse ovos e mais ovos sem parar. Aquele frango não estava sozinho: centenas

deles colocavam um ovo após o outro, gargalhando com histórias extraordinárias que só as galinhas conheciam.

Identities in Flux Niyi Afolabi, 2021-02-01

Drawing on historical and cultural approaches to race relations, *Identities in Flux* examines iconic Afro-Brazilian figures and theorizes how they have been appropriated to either support or contest a utopian vision of multiculturalism. Zumbi dos Palmares, the leader of a runaway slave community in the seventeenth century, is shown not as an anti-Brazilian rebel but as a symbol of Black consciousness and anti-colonial resistance. Xica da Silva, an eighteenth-century mixed-race enslaved woman who married her master and has been seen as a licentious mulatta, questions gendered stereotypes of so-called racial democracy. Manuel Querino, whose ethnographic studies have been ignored and virtually unknown for much of the twentieth century, is put on par with more widely known African American trailblazers such as W. E. B. Du Bois. Niyi Afolabi draws out the intermingling influences of Yoruba and Classical Greek mythologies in Brazilian representations of the carnivalesque Black Orpheus, while his analysis of *City of God* focuses on the growing centrality of the ghetto, or favela, as a theme and producer of culture in the early twenty-first-century Brazilian urban scene. Ultimately, Afolabi argues, the identities of these figures are not fixed, but rather inhabit a fluid terrain of ideological and political struggle, challenging the idealistic notion that racial hybridity has eliminated racial discrimination in Brazil.

The Essential Goa Cookbook Maria Teresa

Menezes, 2000 The spicy, succulent seafood of Goa is as famous as the golden beaches and lush landscape of this premier tourist destination of India. Traditionally, the Goan staple was fish

curry and rice, but under Portuguese influence there developed a distinctive cuisine that combined the flavours of Indian and European cooking with local ingredients being used to approximate the authentic Portuguese taste. So fish and meat pies were baked with slit green chillies, assado or roast was cooked with cinnamon and peppercorns, pao or bread was fermented with toddy, and the famous baked bol was made with coconut and semolina. This innovated, largely non-vegetarian cuisine, was offset by the traditional and no less sumptuous vegetarian creations from the Konkan coastland, rich with coconut and spice. This cookbook showcases an entire range of Goan food, with special attention to fish, prawn, pork and chicken.
