*Grabbed* Richard Blanco, Caridad Moro, Nikki Moustaki, Elisa Albo, 2020-10-06 A gender-inclusive anthology of poetry and prose that addresses the physical and psychological act of being “grabbed,” or in any way assaulted. The #MeToo movement, the infamous Access Hollywood tape, and the depraved and hypocritical actions of celebrities, politicians, CEOs, and other powerful people have caused people all over the nation to speak out in outrage, to express allegiance for the victims of these assaults, and to raise their voices against a culture that has allowed this behavior to continue for too long. The editors asked writers and poets to add to the conversation about what being “grabbed” means to them in their own experience or in whatever way the word “grabbed” inspired them. What they received are often searing, heart-rending works, ranging in topic from sexual misconduct to racial injustice, from an unwanted caress to rape, expressed in powerful, beautifully crafted prose and poetry. The writers represented here, some very well known, such as Rita Dove, Jericho Brown, Eileen Miles, Ana Menendez and Sapphire, as well as some newer voices not yet fully discovered, have mined their collective experiences to reveal their most vulnerable moments, and in some cases, to narrate moments that they have had previously been unwilling or unable to speak of. What results is a collection of emotional, hard-hitting pieces that speak to the aftermath of violation—whether mental, emotional, or physical.

**Evaluating User Experience in Games** Regina Bernhaupt, 2010-04-12 It was a pleasure to provide an introduction to a new volume on user experience evaluation in games. The scope, depth, and diversity of the work here is amazing. It attests to the growing popularity of games and the increasing importance developing a range of theories, methods, and scales to evaluate them. This evolution is driven by the cost and complexity of games being developed today. It is also driven by the need to broaden the appeal of games. Many of the approaches described here are enabled by new tools and techniques. This book (along with a few others) represents a watershed in game evaluation and understanding. The eld of game evaluation has truly “come of age”. The broader eld of HCI can begin to look toward game evaluation for fresh, critical, and sophisticated thi- ing about design evaluation and product development. They can also look to games for groundbreaking case studies of evaluation of products. I’ll brie y summarize each chapter below and provide some commentary. In conclusion, I will mention a few common themes and offer some challenges. Discussion In Chapter 1, User Experience Evaluation in Entertainment, Bernhaupt gives an overview and presents a general framework on methods currently used for user experience evaluation. The methods presented in the following chapters are s- marized and thus allow the reader to quickly assess the right set of methods that will help to evaluate the game under development.

Environment, Trade and Society in Southeast Asia ,2015-03-20 In *Environment, Trade and Society in Southeast Asia: A Longue Durée* Perspective, eleven historians bring their knowledge and insights to bear on the long Braudelian sweep of Southeast Asian history. In doing so they seek both to debunk simplistic assumptions about fragile traditions and transformational modernities, and to identify real repeating patterns in Southeast Asia's past: clientelistic political structures, periodic tectonic and climatic disasters, ethnic occupational specializations, long cycles of economic globalization and deglobalization. Their contributions range across many centuries: from the Austronesian expansion to the Aceh tsunami, and from the Sanskrit cosmopolis to the Asian financial crisis. The book is inspired by, and dedicated to, Peter Boomgaard, a scholar whose work has embodied the Braudelian spirit in Southeast Asian historiography. This title is available online in its entirety in Open Access.
