This book presents papers from CSHI 2023, the latest in the series of biennial conferences on Context Sensitive Health Informatics, held in Sydney, Australia, on 5 and 6 July 2023. The theme of CSHI 2023 was Context Sensitive Health Informatics and the Pandemic Boost, and the book includes 19 papers and 7 poster abstracts covering a variety of topics. These are divided into 5 sections: clinician perceptions and use of health technologies; workforce development in health informatics; aligning workflows and work systems to health technologies; co-design, equitable evaluation, and sustainable implementation of digital health tools; and big data and information management. The book provides an overview of the latest health information systems and of recent research in the area of context and health information technologies,
