📖 **BOOSTING** Robert E. Schapire, Yoav Freund, 2012-05-18 An accessible introduction and essential reference for an approach to machine learning that creates highly accurate prediction rules by combining many weak and inaccurate ones. Boosting is an approach to machine learning based on the idea of creating a highly accurate predictor by combining many weak and inaccurate "rules of thumb." A remarkably rich theory has evolved around boosting, with connections to a range of topics, including statistics, game theory, convex optimization, and information geometry. Boosting algorithms have also enjoyed practical success in such fields as biology, vision, and speech processing. At various times in its history, boosting has been perceived as mysterious, controversial, even paradoxical. This book, written by the inventors of the method, brings together, organizes, simplifies, and substantially extends two decades of research on boosting, presenting both theory and applications in a way that is accessible to readers from diverse backgrounds while also providing an authoritative reference for advanced researchers. With its introductory treatment of all material and its inclusion of exercises in every chapter, the book is appropriate for course use as well. The book begins with a general introduction to machine learning algorithms and their analysis; then explores the core theory of boosting, especially its ability to generalize; examines some of the myriad other theoretical viewpoints that help to explain and understand boosting; provides practical extensions of boosting for more complex learning problems; and finally presents a number of advanced theoretical topics. Numerous applications and practical illustrations are offered throughout.

📖 **THE NORWICH FREE ACADEMY V. NEW LONDON FOOTBALL RIVALRY** Brian Girasoli, 2012-07-17 Since 1875, southeastern Connecticut has played host to the oldest high school football rivalry in the nation: the Norwich Free Academy Wildcats versus the New London Whalers. This complex and competitive rivalry has inspired mayhem and merriment, from biased officials, cheating faculty and vandalism among students to disco-dancing coaches and marching band rallies. Learn how a fight during the 1951 meeting stopped the game for two years, how the Bulkeley Tigers (who became New London High School in 1951) finished their regular season in 1941 without a loss or tie and how the 1997 game ended a fourteen-game losing streak for the Norwich Free Academy. Join sportswriter Brian Girasoli as he recounts a spirit that transcends the ages and chronicles the evolution of this 135-year-old rivalry.
