The BIG Book of Reading, Rhyming, and Resources Beth Christina Maddigan, Stefanie Drennan, Roberta E. Thompson, 2005-10-30 Promote reading and literacy with this wonderful assortment of lively, fast-paced, fun-filled children's programs specifically designed for children aged 4 through 8. You and the children will delight in such program themes as Creepy Crawlies, Forest Friends, Frosty Frolics, and After School Adventures. The book presents an entertaining mix of multisensory activities that appeal to a variety of literacy levels and learning styles—rhymes and songs, awesome activities, crafty crafts, and great games. Unlike other programming guides, this one uses a developmental approach with literature-based activities fitted to specific learning needs. More than an idea book, it includes all the nuts and bolts for initiating children's programs—from foundations and guidelines for understanding various stages of learning to everything you need to get started: book lists, step-by-step instructions, reproducible patterns and illustrations, even tips on publicity and public relations. Whether you're a novice or a seasoned children's programmer, this

book gives you fresh programming ideas that foster lifelong literacy and love of reading. Grades PreK-3.

Critical Perspectives on Esports Annette R. Hofmann,Pascal Mamudou Camara,2024-04-17
This book offers new, multidisciplinary perspectives on esports, one of the most rapidly growing sectors in the sports and leisure industries. Drawing on sociology, philosophy, education, business, economics, and sports science, this book considers the rise of esports, its impact on sports and society more widely, and the direction of travel for esports in the future. Featuring cutting-edge work from researchers in Europe, North America, and Asia, this book explores definitions of “esport” and “virtual sport,” and the philosophical basis by which we understand movement and embodiment in the context of digital gaming. It considers the health and well-being needs of esports athletes, across physical, mental, and social dimensions, as well as how nutrition and training relate to performance and injury prevention. This book also considers the economics of the esports industry and how the concept of sportification can be used to describe esports’ development, as well as the challenges and debates surrounding gender and representation in esports. A final section of this book looks at esports in education, in schools and universities, and considers the future of esports for a generation of digital natives. This book makes a useful contribution to the growing body of knowledge on esports and should be a thought-provoking read for anybody with an interest in sports studies, gaming, or the impact of technology on wider society.

A Night at the Gardens Russell Field,2023-04-28 When Toronto’s Maple Leaf Gardens opened in 1931, manager Conn Smythe envisioned an arena that would project an aura of middle-class respectability. In *A Night at the Gardens*, Russell Field shares how this new arena anticipated spectators by examining varying spectator behaviours, who the spectators were, and what the

experience of spectating was like. Drawing on archival records, the book explores the neighbourhood in which Maple Leaf Gardens was situated, the design of the arena's interior spaces, and the ways in which the venue was operated in order to appeal to respectable spectators at a particular intersection of class and gender. Oral history interviews with former spectators at Maple Leaf Gardens detail the experience of watching the spectacle that unfolded on the ice during each hockey game. *A Night at the Gardens* tells the fascinating story of how one prominent public building became such an important part of Toronto society.

War of the Spark: Ravnica (Magic: The Gathering) Greg Weisman, 2019-04-23 NEW YORK TIMES BESTSELLER • Experience the first official adventure in Magic: The Gathering's multiverse in nearly a decade as the ultimate battle begins on Ravnica. Teyo Verada wants nothing more than to be a shieldmage, wielding arcane energies to protect his people from his world's vicious diamondstorms. When he's buried alive in the aftermath of his first real tempest, the young mage's life is about to end before it can truly begin—until it doesn't. In a flash, a power he didn't know he had whisks him away from his home, to a world of stone, glass, and wonder: Ravnica. Teyo is a Planeswalker, one of many to be called to the world-spanning city—all lured by Nicol Bolas, the Elder Dragon. Bolas lays siege to the city of Ravnica, hungry for the ultimate prize: godhood itself. His unparalleled magic and unstoppable army appear poised to bring the city to utter ruin. Among those who stand in the way of Bolas's terrifying machinations are the Gatewatch, Planeswalkers sworn to defeat evil, no matter where it's found. But as they work to unite the other mages and mount a defense of the city and its people, the terrifying truth of Bolas's plan becomes clear. The Elder Dragon has prepared a trap to ensnare the most powerful mages from across the Multiverse—and it's too late to escape. As forces great and small converge on the city and the battle rages, the stakes could not be higher. If the

Gatewatch falters and the Planeswalkers fail, the curtain will fall on the age of heroes—and rise on the infinite reign of Nicol Bolas.

Charitable Giving and Tax Policy Gabrielle Fack, Camille Landais, 2016 Over the past couple of decades, differentials in the level of private contributions to charitable organizations have become a central matter of public policy. Because private charitable contributions finance many socially

valuable activities (for example, education and the arts), many governments have tried to boost private philanthropy through various active policy interventions. Furthermore, the temptation to rely on private contributions to finance the provision of public goods has increased substantially in recent years as fiscal constraints have become tighter. Yet there is little robust quantitative evidence regarding the differentials in private charitable giving across countries, and more importantly very little consensus on why these differentials may exist. This volume provides an original, comparative, and historical analysis of charitable giving and of tax policies towards private philanthropy across different countries. It sheds new light on the determinants of private philanthropy and offers interesting practical insights for improving tax policies towards charitable giving.
