The Afghanistan Poppy Eradication Campaign Harry Spiller, 2017-10-04 The 16-man Black Hawk Counter Narcotics Infantry Team served as an advisory and training unit for the Afghanistan National Army during a poppy eradication operation in Helmand province in 2008 and 2009. For 75 days, they fought extreme heat, sand storms and the Taliban to eradicate 11.2 tons of poppy seed and earn the respect of Afghan troops. Although the U.S. team they relieved had lost half its men during operations, the Black Hawks came through unscathed. The Translation of Realia and Irrealia in Game Localization Silvia Pettini, 2021-09-19 This book explores the impact of a video game's degree of realism or fictionality on its linguistic dimensions, investigating the challenges and strategies for translating realia and irrealia, the interface of the real world and the game world where culture-specificity manifests itself. The volume outlines the key elements in the translation of video games, such as textual non-linearity, multitextuality, and playability, and introduces the theoretical framework used to determine a game's respective degree of realism or fictionality. Pettini applies an interdisciplinary

approach drawing on video game research and Descriptive Translation Studies to the linguistic and translational analysis of in-game dialogs in English-Italian and English-Spanish language pairs from a corpus of three war video games. This approach allows for an in-depth look at the localization challenges posed by the varying degree of realism and fictionality across video games and the different strategies translators employ in response to these challenges. A final chapter offers a comparative analysis of the three games and subsequently avenues for further research on the role of culture-specificity in game localization. This book is key reading for students and scholars interested in game localization, audiovisual translation studies, and video game research.
