Inked: Tattoos and Body Art around the World [2 volumes] Margo DeMello, 2014-05-30 In recent decades, tattoos have gone from being a subculture curiosity in Western culture to mainstream and commonplace. This two-volume set provides broad coverage of tattooing and body art in the United States today as well as around the world and throughout human history. In the 1960s, tattooing was illegal in many parts of the United States. Today, tattooing is fully ingrained in mainstream culture and is estimated to be a multi-billion-dollar industry. This exhaustive work contains approximately 400 entries on tattooing, providing historical information that enables readers to fully understand the methods employed, the meanings of, and the motivations behind tattooing—one of the most ancient ways humans mark themselves. The encyclopedia covers all important aspects of the topic of tattooing: the major types of tattooing, the cultural groups associated with tattooing, the regions of the world where tattooing has been performed, the

origins of modern tattooing in prehistory, and the meaning of each society's use of tattoos. Major historical and contemporary figures associated with tattooing—including tattooists, tattooed people, and tattoo promoters—receive due attention for their contributions. The entries and sidebars also address the sociological movements involved with tattooing; the organizations; the media dedicated to tattooing, such as television shows, movies, magazines, websites, and books; and the popular conventions, carnivals, and fairs that have showcased tattooing.

Diasporic Media beyond the Diaspora Sherry S. Yu, 2018-04-23 Media for diasporic communities have emerged in major cities and reflect a multicultural, multiethnic, and multilingual reality. But do these media serve their respective communities exclusively, or are they available and accessible to members of greater society at large? *Diasporic Media beyond the Diaspora* explores structural and institutional challenges and opportunities for these media and suggests policy directions with the aim of fostering broader intercultural dialogue. Using case studies of Korean media in Vancouver and Los Angeles, Sherry Yu examines the potential of an intercultural media system for culturally, ethnically, and linguistically diverse societies.

Haunted Colleges & Universities of Massachusetts Renee Mallett, 2013-08-20 Get an education in ghostly history—and meet the spirits that haunt schools

in Boston and beyond. Includes photos! Among the throngs of students attending colleges and universities across the state of Massachusetts linger the apparitions of those who met their untimely ends on campus grounds. In 1953, Eugene O'Neill, an Irish American playwright, died in room 401 of the Sheraton Hotel—today a Boston University dormitory. Named Writer's Corridor in O'Neill's honor, the fourth floor draws students in search of creative inspiration and a sighting of the ghostly writer. A grief-stricken widow roams the halls of Winthrop Hall at Endicott College in her pink wedding gown. She threw herself from her widow's walk after receiving news of her husband's death at sea, and is known to students today as the "pink lady." Author Renee Mallett reveals the stories behind these "school spirits"—and offers eerie stories from over two dozen colleges and universities throughout the Bay State.

Inter-Asia in Motion Emily Wilcox, Soo Ryon Yoon, 2023-10-03 This book explores dance and choreography as sites for the articulation of new theoretical and historical paradigms in inter-Asia cultural studies. The chapters in this volume cover a wide range of dance works, artists, genres, and media, from Kathak to K-pop flash mob dance, from Cold War diplomacy to avant-garde dance collaborations, and from festival dance to dance on screen. Working against the Western-centric category of “Asian dance” and Western-centric theorizations of intercultural performance that foreground “East-West” relationships, each contribution shows how dances in Asia make one another as their key aesthetic references beyond Eurocentric influences, as well as how inter-Asia relations emerge from cultural, geographical, and aesthetic diversity within the region. This book is the first of its kind in both cultural studies and dance studies. It will contribute greatly to readers’ understanding of how performance shapes and transforms the cultural and political dynamics of inter-Asia, with a focus on dance circulations in and across East, South, and Southeast Asia. *Inter-Asia in Motion: Dance as Method* will be a key resource for academics, researchers, and advanced students of Dance Studies, Performance Studies, Cultural Studies, Asian Studies, International Relations and Politics, History, and Sociology. The chapters included in this book were originally published in *Inter-Asia Cultural Studies*.

Three Tigers, One Mountain Michael Booth, 2020-04-14 From the author of *The Almost Nearly Perfect People*, a lively tour through Japan, Korea, and China, exploring the intertwined cultures and often fraught history of these neighboring countries. There is an ancient Chinese proverb that states, “Two

tigers cannot share the same mountain.” However, in East Asia, there are three tigers on that mountain: China, Japan, and Korea, and they have a long history of turmoil and tension with each other. In his latest entertaining and thought provoking narrative travelogue, Michael Booth sets out to discover how deep, really, is the enmity between these three “tiger” nations, and what prevents them from making peace. Currently China’s economic power continues to grow, Japan is becoming more militaristic, and Korea struggles to reconcile its westernized south with the dictatorial Communist north. Booth, long fascinated with the region, travels by car, ferry, train, and foot, experiencing the people and culture of these nations up close. No matter where he goes, the burden of history, and the memory of past atrocities, continues to overshadow present relationships. Ultimately, Booth seeks a way forward for these closely intertwined, neighboring nations. An enlightening, entertaining and sometimes sobering journey through China, Japan, and Korea, *Three Tigers, One Mountain* is an intimate and in-depth look at some of the world’s most powerful and important countries.

Beijing's Global Media Offensive Joshua Kurlantzick, 2022-12 A major

analysis of how China is attempting to become a media and information superpower around the world, seeking to shape the politics, local media, and information environments of both East Asia and the World. Since China's ascendancy toward major-power status began in the 1990s, many observers have focused on its economic growth and expanding military. China's ability was limited in projecting power over information and media and the infrastructure through which information flows. That has begun to change. Beijing's state-backed media, which once seemed incapable having a significant effect globally, has been overhauled and expanded. At a time when many democracies' media outlets are consolidating due to financial pressures, China's biggest state media outlets, like the newswire Xinhua, are modernizing, professionalizing, and expanding in attempt to reach an international audience. Overseas, Beijing also attempts to impact local media, civil society, and politics by having Chinese firms or individuals with close links buy up local media outlets, by signing content-sharing deals with local media, by expanding China's social media giants, and by controlling the wireless and wired technology through which information now flows, among other efforts. In Beijing's Global Media Offensive - a major analysis of how China is attempting to build a media and information superpower around the world, and how this media power integrates with other forms of Chinese influence - Joshua Kurlantzick focuses on how all of this is playing out in both China's immediate neighborhood - Southeast Asia, Taiwan, Australia, and New Zealand - and also in the United States and many other parts of the world. He traces the ways in which China is trying to build an information and influence superpower, but also critically examines the new conventional wisdom that Beijing has enjoyed great success with these efforts. While China

has worked hard to build a global media and information superpower, it often has failed to reap gains from its efforts, and has undermined itself with overly assertive, alienating diplomacy. Still, Kurlantzick contends, China's media, information and political influence campaigns will continue to expand and adapt, helping Beijing exports its political model and protect the ruling Party, and potentially damaging press freedoms, human rights, and democracy abroad. An authoritative account of how this sophisticated and multi-pronged campaign is unfolding, Beijing's Global Media Offensive provides a new window into China's attempts to make itself an information superpower.

Global Asian American Popular Cultures Shilpa Dave, LeiLani Nishime, Tasha Oren, 2016-05-16 Asian Americans have long been the subject and object of popular culture in the U.S. The rapid circulation of cultural flashpoints—such as the American obsession with K-pop sensations, Bollywood dance moves, and sriracha hot sauce—have opened up new ways of understanding how the categories of “Asian” and “Asian American” are counterbalanced within global popular culture. Located at the crossroads of these global and national expressions, Global Asian American Popular Cultures highlights new approaches to modern culture, with essays that explore everything from music, film, and television to comics, fashion, food, and sports. As new digital technologies and cross-media convergence have expanded exchanges of transnational culture, Asian American popular culture emerges as a crucial site for understanding how communities share information and how the meanings of mainstream culture shift with technologies and newly mobile sensibilities. Asian American popular culture is also at the crux of global and national trends in media studies, collapsing boundaries and acting as a lens to view the ebbs and flows of transnational influences on global and American cultures. Offering new and critical analyses of popular cultures that account for emerging textual fields, global producers, technologies of distribution, and trans-medial circulation, this ground-breaking collection explores the

mainstream and the margins of popular culture.

Consumer Culture Theory Eric J. Arnould, Craig J Thompson, 2018-06-21
Outlining the key themes, concepts and theoretical areas in the field, this book draws on contributions from prominent researchers to unravel the complexities of consumer culture by looking at how it affects personal identity, social interactions and the consuming human being. A field which is characterised as being theoretically challenging is made accessible through learning features that include case study material, critical reflection, research directions, further reading and a broad mix of the types of consumers and consumption contexts including emerging markets and economies. The structure of the book is designed to help students map the field in the way it is interpreted by researchers and follows the conceptual mapping in the classic Arnould & Thompson 2005 journal article. The book is organised into three parts - the Consumption Identity, Marketplace Cultures and the Socio-Historic Patterning of Consumption. Insight is offered into both the historical roots of consumer culture and the everyday experiences of navigating the contemporary marketplace. The book is supported by a collection of international case studies and real world scenarios, including: How Fashion Bloggers Rule the Fashion World; the Kendall Jenner Pepsi Commercial; Professional Beer Pong, Military Recruiting Campaigns, The World Health Organization and the Corporatization of Education. The go-to text for anyone new to CCT or postgraduate students writing a CCT-related thesis.

What's in a Name Nazir Razak, 2022-01-01 What's in a Name takes readers to the often troubled centre of Malaysian politics and business over the last fifty years. Nazir Razak built CIMB Group into one of the most successful banks in ASEAN. In a career spanning three decades, he has been at the centre

of the action. And when he was not, he had a ringside seat for all the biggest deals and power struggles, victories and defeats involving some of the most colourful characters of recent times. In this revealing memoir, Nazir recounts what it was like growing up in Malaysia's most prominent political family, honouring the legacy of his late father, Abdul Razak, Malaysia's revered second prime minister, while also being the brother of Najib Razak, whose term as prime minister ended with the ignominious 1MDB scandal – the fallout of which continues today. This is not just the story of Nazir's life as one of Malaysia's most successful businessmen; it is also a drama of family loyalty and what happens when that loyalty comes into conflict with deeply held principles. Nazir concludes with an analysis of the Malaysian political economy from his unique vantage point, and makes a compelling case for reforms and how they can be made.
