*Hallyu 2.0* Sangjoon Lee, Abé Markus Nornes, 2015-06-01 Collectively known as Hallyu, Korean music, television programs, films, online games, and comics enjoy global popularity, thanks to new communication technologies. In recent years, Korean popular culture has also become the subject of academic inquiry. Whereas the Hallyu's impact on Korea's national image and domestic economy, as well as on transnational cultural flows, have received much scholarly attention, there has been little discussion of the role of social media in Hallyu's propagation. Contributors to *Hallyu 2.0: The Korean Wave in the Age of Social Media* explore the ways in which Korean popular cultural products are shared by audiences around the globe; how they generate new fans, markets, and consumers through social media networks; and how scholars can analyze, interpret, and envision the future of this unprecedented cultural phenomenon.

Inter-Asia in Motion Emily Wilcox, Soo Ryon Yoon, 2023-10-03 This book explores dance and choreography as sites for the articulation of new theoretical and historical paradigms in inter-Asia cultural studies. The chapters in this volume cover a wide range of dance works, artists, genres, and media, from

Kathak to K-pop flash mob dance, from Cold War diplomacy to avant-garde dance collaborations, and from festival dance to dance on screen. Working against the Western-centric category of “Asian dance” and Western-centric theorizations of intercultural performance that foreground “East-West” relationships, each contribution shows how dances in Asia make one another as their key aesthetic references beyond Eurocentric influences, as well as how inter-Asia relations emerge from cultural, geographical, and aesthetic diversity within the region. This book is the first of its kind in both cultural studies and dance studies. It will contribute greatly to readers’ understanding of how performance shapes and transforms the cultural and political dynamics of inter-Asia, with a focus on dance circulations in and across East, South, and Southeast Asia. *Inter-Asia in Motion: Dance as Method* will be a key resource for academics, researchers, and advanced students of Dance Studies, Performance Studies, Cultural Studies, Asian Studies, International Relations and Politics, History, and Sociology. The chapters included in this book were originally published in *Inter-Asia Cultural Studies*.

Seoul, Korea's Global City Kyoung-Ho Shin, Michael Timberlake, 2020-05-27 Seoul, as one of Asia’s rising global cities, has been a place where enormous changes in politics, industry, and culture have taken place over the last five decades. This book explores the new urbanism in Seoul from the perspective of global political economy, focusing on the contexts in which the city has witnessed the transformation of its population structure, such as the rise of the global urban middle class and the city’s increased nodal function in commodity chains. The burgeoning signs of Seoul’s status as a global city are discussed in terms of transnational tourism and the frequency of study abroad, the immigrant community, and cross-border cultural flows. Examining the labour structures within the city, economic growth policy, the role of advanced information technology, and neoliberal urban development, the authors also examine the local response in the city to its emerging status. A study of the development of the Korean capital and its deep embeddedness in the world economy, *Seoul, Korea’s Global City* will appeal to scholars of sociology, geography and economics with interests in political economy, urban studies and Asian studies.

**Decentering Musical Modernity** Tobias Janz, Chien-Chang Yang, 2019-06-30 This collection investigates the concept of modernity in music and its multiple interpretations in Europe and East Asia. Through contributions by both European and East Asian musicologists it discusses how a decentered understanding of musical modernity could be matched on multiple historiographical perspectives while being attentive to the specificities of local music and their narratives in East Asia and Europe. The essays connect local, global and transnational history with sociological theories of modernity and modernization, making the volume an important contribution to overcoming the Eurocentric dichotomy between western music and world music within the field of historical musicology.

Even locals know little about the superb stream which is well-prepared at Gangnam District. It's a perfect park, you may say, to take a stroll on the long promenades beautifully prepared on both sides of the stream. are located near the stream. You will easily find the difference of air between downtown and the Yangjaecheon Stream. It would take around 2 hours for a round trip on foot between metro Hangnyeoul St. and Yeongdong Bridge 1, which is one of many bridges built on the stream. When you follow the itinerary introduced by this book, you will pass more than 7 bridges, which are prepared around 500 meters away each. If you have time, you can also pay a visit the Han River through Yangjaecheon Stream. Additional option for your visit the Han River is provided at the finish. Only take a subway and stop at Hangnyeoul Station. Then, you will shortly get the promenades by the stream. Yangjaecheon Stream welcomes you with 8 perspectives. After Yangjaecheon Stream, a summary on Seoul and the introduction about the public transportation of the mega city will follow at the finish. Keep this book in your pack and stop at metro Hangnyeoul Station. Then, this book will show you all the ways of the Yangjaecheon Stream for your fantastic experience of walking, jogging and cycling. You need neither to chase after a guide nor to ask passers-by for your destination. You can enjoy the wonderful stream by your own self.

Complex Identities in a Shifting World Pamela Couture, Robert Mager, Pamela McCarroll, Natalie Wigg-Stevenson, 2015 Clear and well-defined identities are hard to sustain in a rapidly shifting world. Peoples, goods, and cultures are on the move. The internet and other technologies increase the amount, the speed, and the intensity of cultural exchanges. Individuals, organizations, and nations develop complex identities out of many traditions, different ideals, various ways of life, and many models of organization. Religious traditions both collide and interact, with spiritual journeys crossing religious boundaries. In this book, more than 20 contributors from different backgrounds and academic disciplines offer an array of practical theological perspectives to help understand these complex identities and negotiate this shifting world. (Series: International Practical Theology - Vol. 17) [Subject: Religious Studies, Cultural Studies]

**Globalization and Popular Music in South Korea** Michael Fuhr, 2015-06-12 This book offers an in-depth study of the globalization of contemporary South Korean idol pop music, or K-Pop, visiting K-Pop and its multiple intersections with political, economic, and cultural formations and transformations. It provides detailed insights into the transformative process in and around the field of Korean pop music since the 1990s, which paved the way for the recent international rise of K-Pop and the Korean Wave. Fuhr examines the conditions and effects of transnational flows, asymmetrical power relations, and the role of the imaginary other in K-Pop production and consumption, relating them to the specific aesthetic dimensions and material conditions of K-Pop stars, songs, and videos. Further, the book reveals how K-Pop is deployed for strategies of national identity construction in connection with Korean cultural politics, with transnational music production circuits, and with the transnational mobility of immigrant pop idols. The volume argues that K-Pop is a highly productive cultural arena in which South Korea's globalizing and nationalizing forces and imaginations coincide, intermingle, and counteract with each other and in which the tension between both of these poles is played out musically, visually, and discursively. This book examines a vibrant example of contemporary popular music from the non-Anglophone world and provides deeper insight into the structure of popular music and the dynamics of cultural globalization through a combined set of ethnographic, musicological, and cultural analysis. Widening the regional scope of Western-dominated popular music studies and enhancing new areas of ethnomusicology, anthropology, and

cultural studies, this book will also be of interest to those studying East Asian popular culture, music globalization, and popular music.

Over sixty case studies are included to illustrate the magnitude and complexity of global business involving different stakeholders. **Korean Wave in South Asia** Ratan Kumar Roy, Biswajit Das, 2022-06-28 This book is a systematic investigation of Korean cultural wave in South Asia, discovering and analysing the dynamics of fandom, mechanism of media industry and growing phenomena of Korean culture in this part of the world. This is one of the very first academic volumes in South Asia that examines cultural politics, language and literatures of Korea in a regional location when there might be some on examining the political and diplomatic relations divorced from socio-cultural interactions. It focuses on three major aspects: identity formation in the age of digital culture, fandom and aspiration in the wake of subculture, and transcultural flow in South Asia. Through these thematic indicators and empirical instances the volume explores the modes of transcultural flow vis a vis the global cultural flow. The patterns and processes of identity construction transformed among the teenagers and youths in the realm of digital media and embodying the Korean cultural elements. The book will contribute in the area of media and cultural studies, global culture and politics, arts and humanities, social sciences and area studies. **Censored 2014** Mickey Huff, Andy Lee Roth, Project Censored, 2013-10-08 Truthout's Progressive Pick of the Week Ralph Nader's 10 Books to Provoke Conversation in 2014 Every year since 1976, Project Censored, our nation's oldest news-monitoring group--a university-wide project at Sonoma State University founded by Carl Jensen, directed for many years by Peter Phillips, and now under the leadership of Mickey Huff--has produced a Top-25 list of underreported news stories and a book, *Censored*, dedicated to the stories that ought to be top features on the nightly news, but that are missing because of media bias and self-censorship. Seven Stories Press has been publishing this yearbook since 1994, featuring the top stories listed democratically in order of importance according to an international panel of judges. Beyond the Top-25 stories, additional chapters delve further into timely media topics: The Censored News and Media Analysis section provides annual updates on Junk Food News and News Abuse, Censored Deja Vu, signs of hope in the alternative and news media, and the state of media bias and alternative coverage around the world. In the Truth Emergency section, scholars and journalists take a critical look at the US/NATO military-industrial-media empire. And in the Project Censored International section, the meaning of media democracy worldwide is explored in close association with Project Censored affiliates in universities and at media organizations all over the world. A perennial favorite of booksellers, teachers, and readers everywhere, *Censored* is one of the strongest lifesigns of our current collective desire to get the news we citizens need--despite what Big Media tells us.

**The Korean Wave** Y. Kuwahara, 2014-02-20 The rise in popularity of South Korean entertainment and

**Copyright and Fan Productivity in China** Tianxiang He, 2017-10-13 This book takes a unique approach to mitigate the problem of massive online copyright infringement and justify fan activities. It argues for a cooperative approach that encourages copyright owners to exert a degree of control over their fan creators. In contrast to the current approach, which treats fan utilizations as theft, this book suggests that the copyright owners and the lawmakers should instead distinguish between fan creators and commercial pirates, allowing them to unleash their potential. This book offers a clear and comprehensive account of the fascinating aspects of legal problems created by fan activities in China, Japan and the United States, offering a valuable guide for students, practitioners, academics and entrepreneurs whose work involves or who are interested in cutting-edge legal issues in the creative industry. Tianxiang He introduces us to the world of fandom inhabited by 'fan-subbers', fan-dubbers', 'mash-uppers', and 'fan-fictionists' against the backdrop of copyright law and policy in China. His work is engaging in that it not merely describes the law, but also the political dimension where copyright and state media control converge into a reality where being an artist or a fan is not that straightforward. -- Prof. Anselm Kamperman Sanders, Institute for Globalization and International Regulation (IGIR), Faculty of Law, Maastricht University The tension between copyright holders and fan communities has been increasingly salient yet underexplored. This timely, insightful and deeply engaging book not only fills a niche, but also covers a country that has been rarely examined in this context. The book advances a promising model for the two groups to cooperate. It also explores complex issues concerning political culture, media regulation and civic engagement in China. A must read for anybody interested in copyright law, cultural production, digital technology or Chinese information policy. -- Prof. Peter K. Yu, Professor of Law and Director, Center for Law and Intellectual Property, Texas A&M University School of Law
