Ghost Hunting Andrew Green,Professor of International Health Planning and Head of Nuffield Centre for International Health and Development Andrew Green,2016-06-28 *Ghost Hunting - A Practical Guide* is the book which every ghost hunter should read. First published in 1973, it was the first book in the world to explain how to go about ghost hunting. It has now been updated for the 21st century by Alan Murdie, Chairman of the Ghost Club. Explaining the background to serious paranormal research, it covers equipment for the ghost hunter; how to examine a haunted house; investigating the surroundings and history of a site; how to interview people who have experienced ghosts; and how to eliminate the many natural causes - some of them highly unexpected - which can lead people to believe they are being haunted. Importantly, this book does not just emphasise the role of equipment, but also the appropriate mental attitude needed by the serious investigator. Complete with an extensive reading list and guidance on temperature readings, both the newcomer and the experienced ghost hunter will benefit from the advice and information contained in this classic book. Andrew Green began hunting ghosts in war-time London in 1944. From the 1970s to until his death in 2004, he actively promoted the scientific investigation of haunted properties and people, publicising many of the techniques routinely used by ghost hunters today. A respected lecturer, he published 17 books on hauntings and saw at least two ghosts himself. Alan Murdie is a lawyer and psychical researcher. He has investigated numerous cases of ghosts and hauntings in Britain and abroad. He is Chairman of the Ghost Club (founded 1862) and a council member of the

Society for Psychical Research.
