Scott, New York Times Book Review, cover review Following on the heels of his New York Times bestselling novel *Telegraph Avenue*, Pulitzer Prize-winning author Michael Chabon delivers another literary masterpiece: a novel of truth and lies, family legends, and existential adventure—and the forces that work to destroy us. In 1989, fresh from the publication of his first novel, *The Mysteries of Pittsburgh*, Michael Chabon traveled to his mother's home in Oakland, California, to visit his terminally ill grandfather. Tongue loosened by powerful painkillers, memory stirred by the imminence of death, Chabon's grandfather shared recollections and told stories the younger man had never heard before, uncovering bits and

pieces of a history long buried and forgotten. That dreamlike week of revelations forms the basis for the novel *Moonglow*, the latest feat of legerdemain from Pulitzer Prize-winning author Michael Chabon. *Moonglow* unfolds as the deathbed confession of a man the narrator refers to only as “my grandfather.” It is a tale of madness, of war and adventure, of sex and marriage and desire, of existential doubt and model rocketry, of the shining aspirations and demonic underpinnings of American technological accomplishment at midcentury, and, above all, of the destructive impact—and the creative power—of keeping secrets and telling lies. It is a portrait of the difficult but passionate love between the narrator’s grandfather and his grandmother, an enigmatic woman broken by her experience growing up in war-torn France. It is also a tour de force of speculative autobiography in which Chabon devises and reveals a secret history of his own imagination. From the Jewish slums of prewar South Philadelphia to the invasion of Germany, from a Florida retirement village to the penal utopia of New York’s Wallkill prison, from the heyday of the space program to the twilight of the “American Century,” the novel revisits an entire era through a single life and collapses a lifetime into a single week. A lie that tells the truth, a work of fictional nonfiction, an autobiography wrapped in a novel disguised as a memoir, *Moonglow* is Chabon at his most moving and inventive.

Fever Dream Samanta Schweblin, 2017-01-10 “A wonderful nightmare of a book: tender and frightening, disturbing but compassionate. *Fever Dream* is a triumph of Schweblin’s outlandish imagination.” –Juan Gabriel Vasquez, author of *The Sound of Things Falling* and *Reputations* A young woman named Amanda lies dying in a rural hospital clinic. A boy named David sits beside her. She’s not his mother. He’s not her child. How Stella Learned to Talk Christina Hunger,2021-05-04 INSTANT NEW YORK TIMES BESTSELLER An incredible, revolutionary true story and surprisingly simple guide to teaching your dog to talk from speech-language pathologist Christina Hunger, who has taught her dog, Stella, to communicate using simple paw-sized buttons associated with different words. When speech-language pathologist Christina Hunger first came home with her puppy, Stella, it didn't take long for her to start drawing connections between her job and her new pet. During the day, she worked with

toddlers with significant delays in language development and used Augmentative and Alternative Communication (AAC) devices to help them communicate. At night, she wondered: If dogs can understand words we say to them, shouldn't they be able to say words to us? Can dogs use AAC to communicate with humans? Christina decided to put her theory to the test with Stella and started using a paw-sized button programmed with her voice to say the word "outside" when clicked, whenever she took Stella out of the house. A few years later, Stella now has a bank of more than thirty word buttons, and uses them daily either individually or together to create near-complete sentences. How Stella Learned to Talk is part memoir and part how-to guide. It chronicles the journey Christina and Stella have taken together, from the day they met, to the day Stella "spoke" her first word, and the other breakthroughs they've had since. It also reveals the techniques Christina used to teach Stella, broken down into simple stages and actionable steps any dog owner can use to start communicating with their pets. Filled with conversations that Stella and Christina have had, as well as the attention to developmental detail that only a speech-language pathologist could know, How Stella Learned to Talk will be the indispensable dog book for the new decade.
