Catch a Glow Karl Michael Iglesias,2021-02-05 CATCH A GLOW, is both reverent and a reckoning. Iglesias moves through raw narratives with the strength, grace and focus of a dancer: combining moves, challenging rhythms, guiding each poem beyond routine and into the open bliss of abandon, the way truth-telling tends to feel. -Dasha Kelly, Wisconsin Poet Laureate Karl Michael Iglesias invents a new grammar in CATCH A GLOW. Finding the official language used to describe Hurricane Maria lacking, Iglesias has electrified the language in his book by stacking verbs, breaking lines in the middle of sentences, and using caesuras to alter logic. Iglesias has given us a book of poems up to the challenge of holding our grief and rage. -José Olivarez, CITIZEN ILLEGAL CATCH A GLOW is a beautiful collage of fragments that create a new Boricua diaspora, in a post-Hurricane Maria world. With his use of staccato phrases and rhythmic language, Iglesias reenacts on the page, both the splintering and mending of a people and nation. This is an important and much-needed collection. -Mayda Del Valle, A SOUTH SIDE GIRL'S GUIDE TO LOVE & SEX As if a storm blew through, the poems in CATCH A GLOW are left wind-sharpened and rain-beaten, fragments sometimes whittled into blades, other times the edges are smooth as music drifting from yard to window. These poems sing their jagged love songs for the people and land of Puerto Rico brilliantly, illuminating for me bright lessons on intimacy, justice, and survival. Karl Michael Iglesias takes up this book's broken, mosaic style and does his people right. Like money or parcel packed heavy with supplies to get the living done, these poems soar their way to the island and our hearts with their urgent, skillful care. -Danez Smith, HOMIE If hurricane poetry was a genre, Karl Michael Iglesias would be at the vanguard of its practice. CATCH A GLOW is a book that comes at you from the outset. The fragmented diaspora is alive in Iglesias's concision. His witness is biting in its undecorated minimalism. We are literally left to deal with the white spaces between the wreckage depicted in these poems. CATCH A GLOW is made of items, memories, and people who survived the longest blackout in history to take jibaro baths and who were left to count the names after the destruction. You can find that which is spoken, whispered, and buried in Iglesias' book. No need to answer when they ask Were you affected by Hurricane Maria? Just give them this book. -Willie Perdomo, THE CRAZY BUNCH

Glow Discharge Optical Emission Spectroscopy Richard Payling,Thomas Nelis,2007-10-31 Glow discharge optical emission spectroscopy (GDOES) is an essential technique for the direct analysis of bulk solids, for elemental surface analysis and for the depth profiling of thin films and industrial coatings. The technique has shown rapid growth in numbers of instruments, in breadth of applications, in improved quantification in recent years and is now a recognised technique within the ISO, with two international standards. Glow Discharge Optical Emission Spectroscopy: A Practical Guide takes the reader on a journey through instrument operation, sample preparation, analysis, and reporting results. It follows two sets of samples through the whole process of analysis, brass samples for bulk analysis, and zinc-coated steel for depth profiling. Procedures are consistent with recent ISO standards and each step is loaded with hands-on tips and theoretical insight. The book also includes unique data tables on spectral interferences, molecular bands, self-absorption and relative sputtering rates. This book is designed for those using or managing GDOES instruments and for students interested in learning the technique from a hands-on perspective. It is also an invaluable aid to those considering the purchase of a GDOES instrument, or those using GDOES results, to understand in detail how the technique works and what is involved in maintaining the instrument and achieving high quality results.
