Radical Theory of Rings J.W. Gardner,R. Wiegandt,2003-11-19 Radical Theory of

Rings distills the most noteworthy present-day theoretical topics, gives a unified account of the classical structure theorems for rings, and deepens understanding of key aspects of ring theory via ring and radical constructions. Assimilating radical theory's evolution in the decades since the last major work on rings and radicals was published, the authors deal with some distinctive features of the radical theory of nonassociative rings, associative rings with involution, and near-rings. Written in clear algebraic terms by globally acknowledged authorities, the presentation includes more than 500 landmark and up-to-date references providing direction for further research.

Benefit Transfer of Environmental and Resource Values Robert J. Johnston,John

Rolfe,Randall S. Rosenberger,Roy Brouwer,2015-06-02 This book provides a comprehensive review of environmental benefit transfer methods, issues and challenges, covering topics relevant to researchers and practitioners. Early chapters provide accessible introductory materials suitable for non-economists. These chapters also detail how benefit transfer is used within the policy process. Later chapters cover more advanced topics suited to valuation researchers, graduate students and those with similar knowledge of economic and statistical theory and methods. This book provides the most complete coverage of environmental benefit transfer methods available in a single location. The book targets a wide audience, including undergraduate and graduate students, practitioners in economics and other disciplines looking for a one-stop handbook covering benefit transfer topics and those who wish to apply or evaluate benefit transfer methods. It is designed for those both with and without training in economics

Theory and Practice of Pile Foundations Wei Dong Guo,2012-11-14 Pile

Foundations are an essential basis for many structures. It is vital that they be designed with the utmost reliability, because the cost of failure is potentially huge. Covering a whole range of design issues relating to pile design, this book presents economical and efficient design solutions and demonstrates them using real world examples. Coverage includes nonlinear response of single piles to vertical or torsional loading and to cyclic lateral loading, as well as prediction of nonlinear response of lateral pile groups, vertically loaded pile groups and the design of slope stabilising piles. Most solutions are provided as closed-form expressions. Theory and Practice of Pile Foundations is: illustrated with case studies accompanied by practical applications in Excel and MathCad the first book to incorporate nonlinear interaction into pile design. A valuable resource for students of geotechnical engineering taking courses in foundations and a vital tool for engineers designing pile foundations.

Na Linha de Meus Ancestrais Darlan Alberto Padilha,2023-10-13 É bem verdade que

um trabalho como esse de composição genealógica é interminável e se dermos sorte, algum ascendente poderá vir se interessar e dar seguimento a este trabalho no futuro, com suas características e preferências, entretanto não poderia chegar ao fim deste meu trabalho sem tentar descrever o quanto tudo isso significou para mim; pouco a pouco fui me apropriando das lembranças que me foram contadas e junto a elas flashes de tantos momentos bons foram pululando de minhas verdadeiras memórias, por vezes me emocionei com as emoções descritas por meus primos, e me entristeci ao ver que alguns familiares, já tão enedoados por suas vidas, mostraram-se aquém preferindo esquivassem de qualquer colaboração. A percepção de quanto nós somos retalhos uns dos outros, e quanta gente precisou fazer suas escolhas, certas ou erradas, a verdade é que buscavam suas próprias felicidades e estas buscas traçariam de alguma forma a essência de nossos DNA's. Quantas memórias foram revolvidas para que este trabalho visse a termo, rosto a rosto, nomes e retratos tomavam forma e ganhavam suas histórias, muitas delas inéditas

para mim. Relevar as cartas de papai ao vovô, em busca de seu primeiro emprego; descobrir que mamãe é adotada aos seis anos de idade; ser apresentado a tantos tios e tias esquecidos completamente em páginas esmaecidas da vida. Me bateu uma saudade deste povo todo, dos momentos que passamos juntos na antiga pensão dos tios Arantes / Padilha. As visitas dos tios maternos Ivaldo e Manuel, as poucas memórias que carrego de minha avó materna, carregadas em minha memória de um petiz de 3 anos. As lembranças de Marília, Santana (Rua Darzan, 355), Arthur Alvim e por fim da Rua Colorado 349. O telefone da casa de vovó que nunca saiu da memória " (11)-290-5851, as festas de Confraternização no Departamento Aerooviário do Estado de São Paulo - DAESP, me lembro de brincar com a máquina de escrever na mesa de papai e que a sala da Tia Gueiga fica no final de um longo corredor, a garagem onde o tio Whadir transformou em seu escritório; seu guarda-roupas repleto de VHS, e acima da TV a icônica sandália de Carmem Miranda, isso sem contar as tardes que ficávamos a assistir os clássicos do Walt Disney, Dumbo, Branca de Neve e Dama e o Vagabundo, ou O Mágico de Oz e A noviça rebelde... eslaides de memórias foram sendo regatadas para que este levantamento não ficasse parecendo a copilação de uma imensa lista telefônica. Espero realmente que no futuro este trabalho possa ser continuado e que os possíveis erros que eu possa ter cometido, possam ser corrigidos, enfim só tenho a agradecer primeiramente a todos os ancestrais, os quais tenho orgulho de carregar o mesmo sangue e por fim a cada ascendente que me dou alguns momentos de confidências e partilhou um pedaço de suas memórias. Sequence Comparison in Historical Linguistics Mattis List, 2014-07-21 The comparison of sound sequences (words, morphemes) constitutes the core of many techniques and methods in historical linguistics. With the help of these techniques, corresponding sounds can be determined, historically related words can be identified, and the history of languages can be uncovered. So far, the application of traditional techniques for sequence comparison is very tedious and time-consuming, since scholars have to apply them manually, without computational support. In this study, algorithms from bioinformatics are used to develop computational methods for sequence comparison in historical linguistics. The new methods automatize several steps of the traditional comparative method and can thus help to ease the painstaking work of language comparison.

Dissertations in Language and Cognition This series explores issues of mental representation, linguistic structure and representation, and their interplay. The research presented in this series is grounded in the idea explored in the Collaborative Research Center 'The structure of representations in language, cognition and science' (SFB 991) that there is a universal format for the representation of linguistic and cognitive concepts.
