*Voice and Agency* Jeni Klugman, Lucia Hanmer, Sarah Twigg, Tazeen Hasan, Jennifer McCleary-Sills, Julieth Santamaria, 2014-09-29 Despite recent advances in important aspects of the lives of girls and women, pervasive challenges remain. These challenges reflect widespread deprivations and constraints and include epidemic levels of gender-based violence and discriminatory laws and norms that prevent women from owning property, being educated, and making meaningful decisions about their own lives--such as whether and when to marry or have children. These often violate their most basic rights and are magnified and multiplied by poverty and lack of education. This groundbreaking book distills vast data and hundreds of studies to shed new light on deprivations and constraints facing the voice and agency of women and girls worldwide, and on the associated costs for individuals, families, communities, and global development. The volume presents major new findings about the patterns of constraints and overlapping deprivations and focuses on several areas key to women's empowerment: freedom from violence, sexual and reproductive health and rights, ownership of land and housing, and voice and collective action. It highlights promising reforms and interventions from around the world and lays out an urgent agenda for governments, civil society, development agencies, and other stakeholders, including a call for greater investment in data and knowledge to benchmark progress.

The Brand Innovation Manifesto John Grant, 2006-05-12 The days of the image brands are over, and 'new marketing' has gone mainstream. The world's biggest companies are pursuing a post-advertising strategy, moving away from advertising and investing in leading edge alternatives. In the vanguard of the revolution has been John Grant, co-founder of the legendary agency St. Luke's and

author of The New Marketing Manifesto, whose radical thinking has informed a generation. Now Grant is set to stun the industry again. In The Brand Innovation Manifesto, he redefines the nature of brands, showing why old models and scales no longer work and revealing that the key to success today is impacting people's lifestyles (think Starbucks, iPod and eBay). At the heart of the book is the concept of the 'brand molecule' to which new cultural ideas can be constantly added to keep pace with change. Cataloguing 32 classes of idea, Grant presents a practical approach to mixing and matching them within your own market to develop new brand ideas - and new ideas for existing brands.

The Gospel of the Flying Spaghetti Monster Bobby Henderson,2010-04-07 Can I get a "ramen" from the congregation?! Behold the Church of the Flying Spaghetti Monster (FSM), today's fastest

growing carbohydrate-based religion. According to church founder Bobby Henderson, the universe and all life within it were created by a mystical and divine being: the Flying Spaghetti Monster. What drives the FSM's devout followers, a.k.a. Pastafarians? Some say it's the assuring touch from the FSM's "noodly appendage." Then there are those who love the worship service, which is conducted in pirate talk and attended by congregants in dashing buccaneer garb. Still others are drawn to the Church's flimsy moral standards, religious holidays every Friday, or the fact that Pastafarian heaven is way cooler: Does your heaven have a Stripper Factory and a Beer Volcano? Intelligent Design has finally met its match—and it has nothing to do with apes or the Olive Garden of Eden. Within these pages, Bobby Henderson outlines the true facts—dispelling such malicious myths as evolution ("only a theory"), science ("only a lot of theories"), and whether we're really descended from apes (fact: Humans share 95 percent of their DNA with chimpanzees, but they share 99.9 percent with pirates!) See what impressively credentialed top scientists have to say: "If Intelligent Design is taught in schools, equal time should be given to the FSM theory and the non-FSM theory." –Professor Douglas Shaw, Ph.D. "Do not be hypocritical. Allow equal time for other alternative 'theories' like FSMism, which is by far the tastier choice." –J. Simon, Ph.D. "In my scientific opinion, when comparing the two theories, FSM theory seems to be more valid than classic ID theory." –Afshin Beheshti, Ph.D. Read the book and decide for yourself!

**Raw Life, New Hope** Fiona C. Ross, 2010 The Cape Flats, a windswept, barren and sandy area which rings Cape Town, is home to more than a million people. Many live here in sprawling shack settlements. The post-apartheid state is attempting to eradicate such settlements by providing formal houses in planned residential estates. Raw Life, New Hope is a longitudinal study of the residents of one such shack settlement, The Park, who moved to new, 'formal' houses in The Village, at the turn of the millennium. It introduces readers to core social science topics and modes of theorising. Over 17 years the author has traced how ordinary people attempt to live in accord with their ideals of decency under almost impossible circumstances, and the effects of material changes in their lives after 1994, including the provision of housing. Photos, maps, anecdotes, recipes and philosophical reflections on subjects that arose during conversations elicit a sense of the everyday and of how people try to solve the problems of poverty

**Historical Linguistics and the Comparative Study of African Languages** Gerrit J.

Dimmendaal, 2011-06-08 This advanced historical linguistics course book deals with the historical and comparative study of African languages. The first part functions as an elementary introduction to the comparative method, involving the establishment of lexical and grammatical cognates, the

reconstruction of their historical development, techniques for the subclassification of related languages, and the use of language-internal evidence, more specifically the application of internal reconstruction. Part II addresses language contact phenomena and the status of language in a wider, cultural-historical and ecological context. Part III deals with the relationship between comparative linguistics and other disciplines. In this rich course book, the author presents valuable views on a number of issues in the comparative study of African languages, more specifically concerning genetic diversity on the African continent, the status of pidginised and creolised languages, language mixing, and grammaticalisation.

**Medicine Woman** Lynn V. Andrews,2023-05-02 The first in the late Lynn Andrews’s widely popular and visionary Medicine Woman series, this book will encourage you to find your own sacred feminine power. Join Lynn V. Andrews in her pivotal book Medicine Woman, following her journey as an American Indian art collector turned shaman initiate. While visiting an art gallery in Beverly Hills, Lynn sees an image of a rare American Indian basket, which immediately captivates her and haunts her dreams. Upon calling the gallery the following day, she finds that it has mysteriously disappeared. Through a series of serendipitous events, Lynn eventually finds herself in the wilderness of Manitoba to locate a Cree woman named Agnes Whistling Elk, who is said to know the location of the sacred marriage basket and could help Lynn retrieve it. But once up north, Lynn finds more than she bargained for. The evil shaman Red Dog has stolen the marriage basket from Agnes. Agnes asks fellow wise woman Ruby Plenty Chiefs to help her teach Lynn their sacred ways before she attempts to steal it back. From there, Lynn is instructed to become a huntress, invite her wolf-self forward to better serve her on her mission, and to learn to embrace her own sacred medicine. Will Lynn find the feminine power within herself in time to face and defeat Red Dog once and for all?

IziHlabelelo ZamaNazaretha Isaiah Shembe,Galilee Shembe,Johannes Galilee Shembe,Carol Ann Muller,Bongani Mthethwa,Themba Mbhele,Sazi Dlamini,2010 The texts comprise the original isiZulu hymns as well as English translations, and are brought to life with an accompanying compact disc of song, story and interview excerpts. These include detail about the seminal moment of change and

controversy in the 1990s, when the organ was introduced by church member and ethnomusicologist, Bongani Mthethwa, to accompany the Shembe hymnal repertory. The initiative gave birth to dozens of youth choirs who sang the hymns in a new style, and began to compose their own repertory about Shembe in a more 'gospel-inflected' musical version of their faith. --
