Becoming a Successful Goal Setter Mosiah Young,2013-05-24 For someone new to goal setting, it can be difficult to grasp why setting goals has been a point stressed by many personal development life coaches. However, there is a valid reason. As you read this book, you will come to understand why is goal setting important. Goal setting is a powerful process for thinking about your ideal future, and for motivating yourself to turn your vision of this future into reality. Goals are a form of motivation that sets the standard for self-satisfaction with performance. Achieving the goal one has set for oneself is a measure of success, and being able to meet job challenges is a way one measures success in the workplace. It has been said[by whom?] that Goal setting capitalizes on the human brain's amazing powers: Our brains are problem-solving, goal-achieving machines. Goal Setter Dr. Rashad Vance, 2021-06-09 Looking back, my life at school wasn't quite easy for me. Sometimes I hated school, but I was so determined to wrestle at the division I level, that I worked as hard as I could in order to accomplish that goal. I hardly ever focused on my problems; For the most part, I focused on exerting myself in ways that set me aside and away from the rest. Upon earning my masters and doctoral degree, I had to work just as hard, if not, way harder than I had before. During this process, I had an epiphany. If I put forth the effort into excelling and keeping my mind focused on achieving my goals, then I could and would accomplish anything I've ever dreamt of. This book talks about how wrestling at the division 1 level prepared me to earn my doctorate degree and equipped me for success despite having to face many ongoing challenges. Today, I am an educator for the Baltimore City Public Schools System (BCPSS) and a mixed martial arts champion. Furthermore, I run multiple small businesses while I teach fitness and mixed martial arts lessons in my community; In addition to performing sports administration duties for Baltimore City Recreation and Parks. Early in life, I developed a work ethic and learned discipline coupled with delayed gratification. This has prepared me to get through school as a collegiate athlete and to also make hard sacrifices which allowed me to earn my doctorate degree.
