The Legend of the Golden Raven K. Ancrum, 2017-10-31 K. Ancrum's *The Legend of the Golden Raven* novella, part fairy tale and part gritty reality, follows a boy as he descends into madness. August and Jack weren't meant to be friends. One is a misfit with a pyro streak and the other a golden boy on the rugby team. But as their relationship intensifies, Jack slowly begins to lose his mind—taking readers on an intimate journey into the fantasy kingdom creeping into the edges of his world. As the novella moves back and forth between a medieval legend and our own, contemporary world, nothing is as it seems. The boys alienate everyone around them as they struggle with their

sanity and as Jack's quest to fulfill a dark prophecy begins to consume them both . . . Devour this companion novella to *The Wicker King*. Myths, Legends, and Sacred Stories Philip Wilkinson, 2019-11-19 From lightning-wielding Zeus, the supreme Greek god, to protective Hathor, the Egyptian goddess of love - heroes, gods, and monsters are brought to life in these retellings of myths from around the world. *Myths, Legends, and Sacred Stories* is a children's book that invites you to explore all the well-known stories from Greek and Norse mythology, and a range of other cultures across more than 100 tales. Discover the fascinating myths of Anansi, the West African trickster god who takes the form of a spider; the story of the Wawilak Sisters of Arnhem Land in northern Australia, who form the land as they walk across it; or the Slavic tale of Ivan as he chases the mischievous Firebird. Read about ferocious, man-eating monsters such as the Minotaur and Fafnir the dragon, and the legendary heroes that fought them, like Theseus and Sigurd. Also included are the legends of Robin Hood, and of King Arthur and the Knights of the Round Table, epics from Asia, such as the Mahabharata and Gilgamesh, and a host of tales from Aztec mythology and a range of other cultures. As well as offering the retellings themselves, *Myths, Legends, and Sacred Stories: a visual encyclopedia* investigates the meanings of these primal stories, examining why these tales have stood the test of time over thousands of years. Themed features draw

together elements that are common to myths from all over the world, such as shapeshifters, mythical beasts, and magical weapons. Panels on modern retellings, such as Percy Jackson and The Little Mermaid, help to show why these myths are still relevant to our lives today.

Manga Discourse in Japan Theatre

Fukushima,2005-03-24 During the Japanese 'bubble' economy of the 1980's, the youth of Japan began to exert unprecedented influence on Japanese culture through their spirited patronage of certain art forms previously deemed subcultural or avant-garde. Among these were manga (Japanese comics or animation) and shogekijo (Japanese little theater). These art forms, while ve

Mirror Opens Ancient Temple Door. William Van Zyl,2023-12-29 I have produced a fictitious short story about how Lara and Alexander - the two archaeologists, found the elusive El Dorado temple and unearthed the Golden Mask. In this resource - including the exciting legend of the elusive city of El Dorado - I look at the story, the gold, the treasure, the golden mask, and a modern-day escape room. I provide prompts for using technology - in the context of creating an El Dorado-themed escape room. Inspired by my visit to an escape room in Hamilton (NZ) in December 2023, I show how technology, like digital sensors, surveillance cameras, and more, could be used in escape rooms. I use a simple microprocessor - like the Arduino Uno - to show how this microprocessor could detect light and switch a rack and pinion - powered by an electric motor - to open a door. Just like Lara and Alexander opened the door by reflecting the shaft of daylight from the cave roof onto the mirrors and the Sun motif. I use the Arduino, an LDR (light-dependent resistor), a relay, and an electric motor to show how a door in an escape room can be opened. This resource could be helpful

to teachers and students. The focus is integrating different subject areas for a lesson for high school students. For example, the brief is to design an El Dorado-themed escape room. I focus on technical aspects like art, design, and electronics (digital sensors, surveillance cameras, servos, racks and pinions, and more) to detect, switch and move doors. The focus is also on how to create a light sensor (LDR - light-dependent resistor) to detect when a mirror reflects light that suddenly comes from a crack in the cave (an electrical light switched on after a symbolic puzzle is solved). Improving and developing collaboration and solving real-life problems is another aspect I investigate. I look at the design of a board game—context: Escape room. Developing creative and innovative skills of students and teachers. I also touch on renewable systems: Installing solar panels, wind turbines, inverters, and 12 Volt (DC) batteries - on a micro-scale - to power an escape room or a model of an escape room. Lastly, I provide links to cave ecosystems. I include the Waitomo Caves in New Zealand (famous glowworms). See the ideas and concepts for possible lessons for students in this article. It is challenging to layer, embed, and integrate different subject areas into one or a set of lessons.

Wolf Canyon Donna Menchen, Alida Young, 2021-12-01
Wolf Canyon is one story with two parallel viewpoints. Thirteen-year-old Robbie for the boys while Cactus, the desert cat, gives us his side of things. Budge wants no part of plans to go into Wolf Canyon—at night in a bad storm—looking for a lost cave, an ancient family treasure, and a legendary gold Aztec mask. “It has to be tonight,” Robbie says, “or wait till next summer vacation.” With the help of a coyote’s howl and a shaft of moonlight through the “Eyes of Death,” they find the cave and make some shocking discoveries. They can’t identify a terrible odor that fills the cave. From one of the passageways, they suddenly hear howl, yowl, screech, growl, then silence. What is it? A werewolf, a werecat, or...? It sends them all flying back out into the night. The animals, as they react to what is happening and each other, add a lot to the mystery and humor of the story.

Draculas, Vampires, and Other Undead Forms John Edgar Browning, Caroline Joan "Kay" S. Picart, 2009-04-08
Since the publication of *Dracula* in 1897, Bram Stoker's original creation has been a source of inspiration for artists, writers, and filmmakers. From Universal's early black-and-white films and Hammer's Technicolor representations that followed, iterations of *Dracula* have been cemented in mainstream cinema. This anthology investigates and explores the far larger body of work coming from sources beyond mainstream cinema reinventing *Dracula*. *Draculas, Vampires and Other Undead Forms* assembles provocative essays that examine *Dracula* films and their movement across borders of nationality, sexuality, ethnicity, gender, and genre since the 1920s. The essays analyze the complexity *Dracula* embodies outside the conventional landscape of films with which the vampire is typically associated. Focusing on *Dracula* and *Dracula*-type characters in film, anime, and literature from predominantly non-Anglo markets, this anthology offers unique perspectives that seek to ground depictions and experiences of *Dracula* within a larger political, historical, and cultural framework.

Justice Denied Robert K. Tanenbaum, 2010-12-28
Manhattan's homicide bureau chief investigates a murder at the UN in the New York Times–bestselling author's "most powerful thriller yet" (Vincent Bugliosi). While on his way to the UN, a Turkish diplomat is gunned down in the street. All signs point to an ancient blood feud, and the NYPD quickly tracks down their lead suspect: an Armenian

nationalist they believe was out to avenge the Armenian genocide. He fits their suspect profile perfectly—so perfectly, in fact, that Chief Butch Karp is beginning to doubt the story. With the help of his crime-fighting wife Marlene Ciampi, Karp digs into the diplomat's death, uncovering a deadly web of corruption far more sinister than even he could have imagined. Written by legendary prosecutor and New York Times–bestselling author Robert K. Tanenbaum, *Justice Denied* exposes the kind of dirty dealing that goes on in the shadow of the UN. *Justice Denied* is the 6th book in the Butch Karp and Marlene Ciampi series, but you may enjoy reading the series in any order. “Tanenbaum’s experience as a New York City assistant district attorney serves him well in this gritty tale of intrigue.” —Chicago Tribune “Scrupulously realistic.” —Joseph Wambaugh, author of *The Onion Field* “A highly satisfying tale.” —Library Journal

The Butch Karp and Marlene Ciampi Novels
