Mathematizing Children's Literature Allison Hintz, Antony T.

Smith,2023-10-10 Many teachers use traditional counting and shape books in math class. But what would happen if we approached any story with a math lens? How might mathematizing children's literature give learners space to ask their own questions, and make connections between stories, their lives, and the world around them? These are the questions authors Allison Hintz and Antony T. Smith set out to explore in *Mathematizing Children's Literature: Sparking Connections, Joy, and Wonder Through Read-Alouds and Discussion* as they invite us to consider fresh ways of using interactive read-alouds to nurture students as both readers and mathematicians. Inside *Mathematizing Children's Literature* , you'll learn how to do the following: Select picture books according to the goals of the read aloud experience Plan and facilitate three styles of read aloud discussions - Open Notice and Wonder, Math Lens, and Story Explore Utilize Idea Investigations - experiences that invite students to pursue literacy and math-focused ideas beyond the pages of the read aloud Connect with students' families and communities through stories Along the way, Hintz and Smith provide a wide range of picture book suggestions and appendices that include ready-to-use lesson planning templates, a form for notes, and a bookmark of guiding questions. *Mathematizing Children's Literature* is a practical resource you'll find yourself referring to frequently.

Rapper, Writer, Pop-Cultural Player Josephine Metcalf, Will

Turner,2016-04-08 This collection of essays critically engages with factors relating to black urban life and cultural representation in the post-civil rights era, using Ice-T and his myriad roles as musician, actor, writer, celebrity, and industrialist as a vehicle through which to interpret and understand the African American experience. Over the past three decades, African Americans have faced a number of new challenges brought about by changes in the political, economic and social structure of America. Furthermore, this vastly changed social landscape has produced a number of resonant pop-cultural trends that have proved to be both innovative and admired on the one hand, and contentious and divisive on the other. Ice-T's iconic and multifarious career maps these shifts. This is the first book that, taken as a whole, looks at a black cultural icon's manipulation of (or manipulation by?) so many different forms simultaneously. The result is a fascinating series of tensions arising from Ice-T's ability to inhabit conflicting pop-cultural roles including: 'hardcore' gangsta rapper and dedicated philanthropist; author of controversial song Cop Killer and network television cop; self-proclaimed 'pimp' and reality television house husband. As the essays in this collection detail, Ice-T's chameleonic public image consistently tests the accepted parameters of black cultural production, and in doing so illuminates the contradictions of a society erroneously dubbed 'post-racial'.

A World Gone Crazy Richard J. Lukenda,2009-10-23 A WORLD GONE CRAZY
Synopsis The story begins with a retired member of a highly specialized, very small elite government tactical organization, which specialized in altering governments and national economies by crippling or death to inactivate organization leaders. Members used nothing more than common, readily available materials and rarely, imported biologicals, to achieve their goals while posed as innocuous individuals on various trade missions. When he retired, his government abandoned him, and Zeke, in his pursuit of funding to continue his education began a simple journey to Florida in hopes of receiving financial help from his only surviving relative now running his fathers business. The simple journey becomes a complex case of intrigue leading from Newark, New Jersey to Fort Lauderdale, Florida then on to a unique island off the coast of Cuba as Zeke again becomes involved with his past in the pursuit of his woman. The appearance of biologically engineered assault weapons, manufactured by the U.S. government, in violation of international law and falling into the hands of Cuban patriots and Arab terrorists further complicate the life of a man wishing to fade into oblivion. Unknowingly to him, politics becomes a factor as he enlists the aid of a past cohort, a beautiful woman with an insatiable sexual appetite, who, unknowingly to him, is still in the government service. In their travels through Cuba, posing as husband and wife, they selectively eliminate a Cuban official on their governments behalf. With the task accomplished, the trip, which is now to be purely pleasure, truly unfolds as a covertly assigned mission of destroying the Cuban sugar industry and bringing the island economy to its knees. With the aid of Helena, a mysterious Italian heiress, Zeke learns the true purpose of his mission and his being used by his government to destroy the innocent people of Cuba. A decision must be made; Zeke then uses his training and intelligence to begin to right an injustice he purposely but unknowingly caused. In the end, all, but Zeke, get their just rewards and a new chapter seems to be beginning.

Music for Life C. Victor Fung,Lisa J. Lehmberg,2016-04-01 Music for Life: Music Participation and Quality of Life of Senior Citizens presents a fresh, new exploration of the impact of musical experiences on the quality of life of senior citizens, and charts a new direction in the facilitation of the musical lives of people of all ages. Authors Fung and Lehmberg clearly define the issues surrounding music education, music participation, quality of life,

and senior citizens, discussing the most relevant research from the fields of music education, adult learning, lifelong learning, gerontology, medicine, music therapy, and interdisciplinary studies. At the heart of the book is Evergreen Town, a retirement community in the southeastern U.S.A., that serves as the backdrop for three original research studies. The first of these is in two phases, a survey and a focus group interview, that examines the histories and rationales for the music participations and non-participations of community residents. The second and third case studies take an in-depth look at a church choir and a bluegrass group, two prominent musical groups in the community, and include the perspectives of the authors themselves as group members and participant-observers. Fung and Lehmborg conclude with a challenge for the profession of music education: to act on this research and on the current advances in the field, to enable all people to benefit from the richness of music as a substantial contributor to quality of life.

Diary of a Zombie Killer Terry Black,

The Hidden Musicians Ruth Finnegan, 2013-09-01 A landmark in the study of music and culture, this acclaimed volume documents the remarkable scope of amateur music-making in the English town of Milton Keynes. It presents in vivid detail the contrasting yet overlapping worlds of classical orchestras, church choirs, brass bands, amateur operatic societies, and amateur bands playing jazz, rock, folk, and country. Notable for its contribution to wider theoretical debates and its influential challenge to long-held assumptions about music and how to study it, the book focuses on the practices rather than the texts or theory of music, rejecting the idea that only selected musical traditions, "great names," or professional musicians are worth studying. This opens the door to the invisible work put in by thousands of local people of diverse backgrounds, and how the pathways creatively trodden by amateur musicians have something to tell us about both urban living and what it is to be human. Now with a new preface by the author, this long-awaited reissue of *The Hidden Musicians* will bring its insights and innovations to a new generation of students and scholars.

The Player Renee Rose, 2022-05-24 MY BRATVA BROTHER WILL KILL HIM IF HE TOUCHES ME. Flynn Taylor, rock 'n roll heartthrob, plays fast and loose. He's with different girls every night. Yes, girls plural. On the brink of becoming not just a Chicago sensation, but an American icon, he's everything I should avoid. Then again, maybe it doesn't matter. I'm so damaged, I'm not even capable of a relationship. He might be the perfect antidote. The temptation I need to lure me back to the side of the living. He could help me get over my trauma. Attempt physical intimacy. If it goes wrong--no harm, no foul, right? If only I can keep my overprotective bratva brother from threatening to kill him if he even touches me...

Geno Geno Auriemma, Jackie MacMullan, 2008-12-14 Controversial, confrontational, and driven, Coach Geno Auriemma is a force to be reckoned with -- and the most accomplished male coach in women's basketball today. In his relentless quest for excellence at the University of Connecticut, he has led the Huskies to five national championships. Yet his soul never rests. For Auriemma, life affords only the briefest moments of happiness -- a good round

of golf, forty minutes of great basketball, a day at the beach with his family, a nice glass of wine -- while disaster is seemingly always waiting to strike. It's a fatalistic philosophy, a remnant of his hardscrabble early years, but it's an outlook that has driven him to unparalleled success. In this deeply personal memoir, Geno Auriemma reveals for the first time the man behind the legend. He talks candidly about his coaching style, famed for being one of the most demanding in all the sports world. He spills the beans about his stormy dealings with other coaches such as his archrival, Pat Summitt, of the University of Tennessee. And with warmth and a genuine love for his champions, he writes openly about Diana Taurasi, Sue Bird, Nykesha Sales, Rebecca Lobo, Swin Cash, and all of his other UConn stars who have gone on to stellar WNBA careers. You get a courtside seat to all of the action -- including an epilogue on the 2004-05 season, as well as interviews with the team's most celebrated players. A rare look inside the soul of a true competitor, GENO is the story of how one passionate man overcame his own fears to achieve an extraordinary record of success.
