*Making Sense of People and Place in Linguistic Landscapes*

Amiena Peck, Christopher Stroud, Quentin Williams, 2018-10-18 This volume offers comprehensive analyses of how we live continuously in a multiplicity and simultaneity of 'places'. It explores what it means to be in place, the variety of ways in which meanings of place are made and how relationships to others are mediated through the linguistic and material semiotics of place. Drawing on examples of linguistic landscapes (LL) over the world, such as gentrified landscapes in Johannesburg and Brunswick, Mozambican memorializations, volatile train graffiti in Stockholm, Brazilian protest marches, Guadeloupian Creole signs, microscapes of souvenirs in Guinea-Bissau and old landscapes of

apartheid in South Africa in contemporary time, this book explores how we are what we are through how we are emplaced. Across these examples, world-leading contributors explore how LLs contribute to the (re)imagining of different selves in the living past (living the past in the present), alternative presents and imagined futures. It focuses particularly on how the LL in all of these mediations is read through emotionality and affect, creating senses of belonging, precarity and hope across a simultaneous multiplicity of worlds. The volume offers a reframing of linguistics landscape research in a geohumanities framework emphasizing negotiations of self in place in LL studies, building upon a rich body of LL research. With over 40 illustrations, it covers various methodological and epistemological issues, such as the need for extended temporal engagement with landscapes, a mobile approach to landscapes and how bodies engage with texts.

#### **MEMOIR OF AN ARTIST Amitabh SenGupta, 2014-06-26**

Memoir of an Artist is a compelling account of an unpredictable life that stretches through India, Nigeria, and Paris. As a student, he was a witness to the student revolt in Paris in 1968; in the seventies, he was in Nigeria observing the post-Biafra scenario as a teacher in the university. As a product of institutional education

that shaped and groomed the new artists, he realizes the impact of Eurocentric dialogue on Indian art so imposing that it makes Indian art in perpetual transit. Again, in the process of creating dialogue within Kolkata life, author discovers contemporary art indeed has no social connectivity; thus, the educated progressive is unable to dialogue with the progressing art. Indian modernism has become a manufactured brand within art commerce, aligned to global marketing. Meanwhile, life has many spectrums, and the author has observed the modernistic agenda exists in contemporary art, as in many activities of Indian life, but each is like an island without connectivity.
