When Eagles Soared Harry Cooper,2018-09-04 There were the Golden Knights of the skies in World War Two. They slipped the chains of gravity and soared high on their silver wings. Some returned covered in glory - many did not return at all. Some of these memories will make you ache to turn back the clock to those days of glory; some will bring a tear to your eye for a brave flier who did not return but all were pure history. Special! This book also contains an in-depth post-war interview with Hermann Goring and he gives his evaluation of Hitler, von Ribbentrop, and so many others of the 3rd Reich hierarchy. You will be surprised at some of his revelations.

Under the Blue Skies of Naples Frank Palescandolo,2001 Mark Vitelli, age 25, scion of a successful manufacturer of pizza: The Perfetto Pizza Company of Milwaukee, is deputized by his father to introduce the fast food pizza to Italy beginning in Naples. He is in charge of six huge refrigerated containers of pizza dough, and thousands of frozen individual pizza pie samples stowed in the refrigerated hold of a freighter whose direct port of call is Naples. On landing, Mark is greeted by Katerina Smith, a rep of the Wall Street underwriter of this enterprise. The proposal meets with violent opposition by two groups: The Anti-Blue Sky (anti cielo azzurro) movement that wishes to violently disassociate Naples from folklore kitsch and emblematic buffoonery of the pizza mystique. Their manifesto reads radically like that of the once Italian Futurists, the Anti-Blue Sky wish is to drag Naples into the 21st Century, an example: that the Sorrentine Peninsula be turned into a Silicon Valley, etc. Another group objecting is the Slow Food Movement against fast food emporiums, especially shoddy pizza palaces in the environs of Naples, and the cielo azzurro Pro-Blue Sky is championing the ancestral culture and charms of Naples. Mark, after many hilarious tries is blocked which leaves him footloose in Italy.

Google Earth 2017: Learning the Essentials Dale Michelson,2017-08-03 Google Earth is a geographic browser or geobrowser which means that it can access images from satellites, the air, ocean, and other geographical data by using the internet. It represents the Earth as a three-dimensional globe. In simpler terms, it is a computer program that uses satellite imagery to provide a representation of the earth. It was first released on June 11, 2001. Subsequent versions were released thereafter, including the most recent version called Google Earth Update. Google Earth displays satellite imagery of the Earth's surface so that users can view cities, oceans, and pretty much almost all of the earth in 3D, or three dimensions. Users can also add their own data and make them available. There are many other things that users can do with Google Earth, and they will be mentioned further on in the book.

A Portal 2 Story - Blue Sky Luke.c,

Flying for France with the American Escadrille at Verdun James Rogers McConnell,2017-06-12 Beneath the canvas of a huge hangar mechanics are at work on the motor of an airplane. Outside, on the borders of an aviation field, others loiter awaiting their aerial charge's return from the sky. Near the hangar stands a hut-shaped tent. In front of it several short-winged biplanes are lined up; inside it three or four young men are lolling in wicker chairs. They wear the uniform of French army aviators. These uniforms, and the grim-looking machine guns mounted on the upper planes of the little aircraft, are the only warlike note in a pleasantly peaceful scene. The war seems very remote. It is hard to believe that the greatest of all battles-Verdun-rages only twenty-five miles to the north, and that the field and hangars and mechanics and aviators and airplanes are all playing a part therein. Suddenly there is the distant hum of a motor. One of the pilots emerges from the tent and gazes fixedly up into the blue sky. He points, and one glimpses a black speck against the blue, high overhead. The sound of the motor ceases, and the speck grows larger. It moves earthward in steep dives and circles, and as it swoops closer, takes on the shape of an airplane. Now one can make out the red, white, and blue circles under the wings which mark a French war-plane, and the distinctive insignia of the pilot on its sides. Ton patron arrive! one mechanic cries to another. Your boss is coming! The machine dips sharply over the top of a hangar, straightens out again near the earth at a dizzy speed a few feet above it and, losing momentum in a surprisingly short time, hits the ground with tail and wheels. It bumps along a score of yards and then, its motor whirring again, turns, rolls toward the hangar, and stops. A human form, enveloped in a species of garment for all the world like a diver's suit, and further adorned with goggles and a leather hood, rises unsteadily in the cockpit, clambers awkwardly overboard and slides down to terra firma. A group of soldiers, enjoying a brief holiday from the trenches in a cantonment near the field, straggle forward and gather timidly about the airplane, listening open-mouthed for what its rider is about to say. Hell! mumbles that gentleman, as he starts divesting himself of his flying garb. What's wrong now? inquires one of the tenants of the tent. Everything, or else I've gone nutty, is the indignant reply, delivered while disengaging a leg from its Teddy Bear trousering. Why, I emptied my whole roller on a Boche this morning, point blank at not fifteen metres off. His machine gun quit firing and his propeller wasn't turning and yet the darn fool just hung up there as if he were tied to a cloud. Say, I was so sure I had him it made me sore-felt like running into him and yelling, 'Now, you fall, you bum!' The eyes of the poilus register surprise. Not a word of this dialogue, delivered in purest American, is intelligible to them. Why is an aviator in a French uniform speaking a foreign tongue, they mutually ask themselves....
