My Own Liberator Dikgang Moseneke,2018-01-01 In My Own Liberator, Dikgang Moseneke pays homage to the many people and places that have helped to define and shape him. In tracing his ancestry, the influence on both his maternal and paternal sides is evident in the values they imbued in their children – the importance of family, the value of hard work and education, an uncompromising moral code, compassion for those less fortunate and unflinching refusal to accept an unjust political regime or acknowledge its oppressive laws. As a young activist in the Pan-Africanist Congress, at the tender age of fifteen, Moseneke was arrested, detained and, in 1963, sentenced to ten years on Robben Island for participating in anti-apartheid activities. Physical incarceration, harsh conditions and inhumane treatment could not imprison the political prisoners' minds, however, and for many the Island became a school not only in politics but an opportunity for dedicated study, formal and informal. It set the young Moseneke on a path towards a law degree that would provide the bedrock for a long and fruitful legal career and see him serve his country in the highest court. My Own Liberator charts Moseneke's rise as one of the country's top legal minds, who not only helped to draft the interim constitution, but for fifteen years acted as a guardian of that constitution for all South Africans, helping to make it a living document for the country and its people.

South Africa Recent Economic and Political Developments Yearbook

The Political Economy of Development and Underdevelopment in Africa Toyin Falola,Jessica Achberger,2013-06-07 While Africa is too often regarded as lying on the periphery of the global political arena, this is not the case. African nations have played an important historical role in world affairs. It is with this understanding that the authors in this volume set out upon researching and writing their chapters, making an important collective contribution to our understanding of modern Africa. Taken as a whole, the chapters represent the range of research in African development, and fully tie this development to the global political economy. African nations play significant roles in world politics, both as nations influenced by the ebbs and flows of the global economy and by the international political system, but also as actors, directly influencing politics and economics. It is only through an understanding of both the history and present place of Africa in global affairs that we can begin to assess the way forward for future development.

The E of Marketing Japie Swanepoel,2007-07 Do I need a website? Is Internet marketing successful? These are two of the questions many businesses are asking. The E of Marketing answers them by showing you how to make the most of your website for communication, information, marketing, sales and also internal management and administration. The text: explains how to optimise your site to make it search engine friendly, by reviewing keywords, search phrases and meta tags; discusses 'pay-per-click' advertising; presents the good and bad features of banner advertising; shows how to make the most of e-mail marketing; explains viral marketing and affiliate marketing. This text simplifies the process of e-marketing and gives readers tools that they can use immediately, without spending lots of money. The text is also supported by a companion website, which will be updated regularly to keep readers informed of the latest developments.

Violence and Public Memory Martin Blatt,2023-06-23 Violence and Public Memory assesses the relationship between these two subjects by examining their interconnections in varied case studies across the United States, South America, Europe, the Middle East, and Africa. Those responsible for the violence discussed in this volume are varied, and the political ideologies and structures range from apartheid to fascism to homophobia to military dictatorships but also democracy. Racism and state terrorism have played central roles in many of the case studies examined in this book, and multiple chapters also engage with the recent rise of the Black Lives Matter movement. The sites and history represented in this volume address a range of issues, including mass displacement, genocide, political repression, forced disappearances, massacres, and slavery. Across the world there are preserved historic sites, memorials, and museums that mark places of significant violence and human rights abuse, which organizations and activists have specifically worked to preserve and provide a place to face history and its continuing legacy today and chapters across this volume directly engage with the questions and issues that surround these sometimes controversial sites. Including photographs of many of the sites and events covered across the volume, this is an important book for readers interested in the complex and often difficult history of the relationship between violence and the way it is publicly remembered.

Google Hacking for Penetration Testers Johnny Long,Bill Gardner,Justin Brown,2015-11-12 Google is the most popular search engine ever created, but Google's search capabilities are so powerful, they sometimes discover content that no one ever intended to be publicly available on the Web, including social security numbers, credit card numbers, trade secrets, and federally classified documents. Google Hacking for Penetration Testers, Third Edition, shows you how security professionals and system administrators manipulate Google to find this sensitive information and self-police their own organizations. You will learn how Google Maps and Google Earth provide pinpoint military accuracy, see how bad guys can manipulate Google to create super worms, and see how they can mash up Google with Facebook, LinkedIn, and more for passive reconnaissance. This third edition includes completely updated content throughout and all new hacks such as Google scripting and using Google hacking with other search engines and APIs. Noted author Johnny Long, founder of Hackers for Charity, gives you all the tools you need to conduct the ultimate open source reconnaissance and penetration testing. Third edition of the seminal work on Google hacking Google hacking continues to be a critical phase of reconnaissance in penetration testing and Open Source Intelligence (OSINT) Features cool new hacks such as finding reports generated by security scanners and back-up files, finding

sensitive info in WordPress and SSH configuration, and all new chapters on scripting Google hacks for better searches as well as using Google hacking with other search engines and APIs

Pentecostalism and Cultism in South Africa Mookgo Solomon Kgatle, 2021-02-28 Pentecostalism is a growing movement in world Christianity. However, the growth of Pentecostalism in South Africa has faced some challenges, including the abuse of religion by some prophets. This book first names these prophets and the churches they lead in South Africa, and then makes use of literary and media analysis to analyse the religious practices by the prophets in relation to cultism. Additionally, the book analyses the "celebrity cult" and how it helps promote the prophets in South Africa. The purpose of this book is threefold: First, to draw parallels between the abuse of religion and cultism. Second, to illustrate that it is cultic tendencies, including the celebrity cult, that has given rise to many prophets in South Africa. Last, to showcase that the challenge for many of these prophets is that the Pentecostal tradition is actually anti-cultism, and thus there is a need for them to rethink their cultic tendencies in order for them to be truly relevant in a South African context.

Globalisation, Human Rights Education and Reforms Joseph Zajda, Sev Ozdowski, 2016-09-23 This book, the seventeenth instalment in the 24-volume series Globalisation, Comparative Education and Policy Research, explores the interrelationship between ideology, the state and human rights education reforms, setting it in a global context. The book examines major human rights education reforms and policy issues in a global culture. It focuses on the ambivalent and problematic relationship between the state, globalisation and human rights education discourses. Using a number of diverse paradigms, ranging from critical theory to historical-comparative research, the authors examine the reasons for, and the outcomes of human rights education reforms and policy. The authors discuss discourses surrounding the major dimensions affecting the human rights education, namely national identity, democracy, and ideology. These dimensions are among the most critical and significant dimensions defining and contextualising the processes surrounding the nation-building, identity politics and human rights education globally. With this as its focus, the chapters represent hand-picked scholarly research on major discourses in the field of human rights education reforms. The book draws upon recent studies in the areas of globalisation, equality, and the role of the state in human rights education reforms. Furthermore, the perception of globalisation as dynamic and multi-faceted processes clearly necessitates a multiple-perspective approach in the study of human rights education. This book provides that perspective commendably. It also critiques current human rights education practices and policy reforms. It illustrates the way shifts in the relationship between the state and human rights education policy. In the book, the authors, who come from diverse backgrounds and regions, attempt insightfully to provide a worldview of current developments in research concerning human rights education, and citizenship education globally. The book contributes, in a very scholarly way, to a more holistic understanding of the nexus between nation-state, human rights education both locally and globally.

Acid Mine Drainage in South Africa Suvania Naidoo, 2016-10-13 This SpringerBrief focuses on Acid Mine Drainage (AMD) in the three basins in the Witwatersrand, South Africa. It provides a background to AMD and its impacts from a social science perspective. The South African government and non-governmental organizations' response to AMD is assessed, as well the socio-economic and developmental effects of AMD. This volume, which is based on the author's Master's dissertation at UNISA, involves interviews with a range of experts in the field from government departments, environmental organisations (activists), the private sector (mining), tourism sector and the agricultural sector. The book discusses existing policy documents on AMD and provides recommendations in response to the many socio-economic impacts which have not been fully addressed. A literature review on the global context of AMD is provided. South Africa's water systems are already severely harmed by climate change, different forms of pollution, and poorly managed sanitation systems. For these reasons, the country is becoming increasingly water-stressed and therefore, water will continue to become much scarcer in the future. As a result of AMD's continued impact on South Africa's water systems, as a technical or scientific matter as well as the policy implications for the mining sector, water security and socio-economic sustainability has become a highly contested issue.

Everyday Communists in South Africa's Liberation Struggle Alan Kirkaldy, 2021-11-10 This book explores the role of social movements in the Southern African liberation struggle, through the lens of two 'everyday communists'. Focusing on the Communist Party of South Africa (CPSA), the author explores the lives of Ivan and Lesley Schermbrucker, whose contribution to the party was more clandestine than that of leaders such as Bram Fischer and Joe Slovo. They represent how 'ordinary' people could play significant roles based on stances more rooted in common decency and morality than in Marxist theory. The book also sheds light on the interplay between transnational and national tendencies during the liberation movement, particularly between the 1940s and the 1960s. The Schermbruckers changed their views in response to the shifting national and international political landscape, the rise of Stalinism, and the flight of South African activists into exile from the 1960s. Both fluent in African languages, they were able to create relationships of trust with African members of the CPSA. Examining tensions and conflicts during the liberation struggle, this book provides fresh insights into 'underground' activism.

Cultural Governance in a Global Context Ian W. King, Annick Schramme, 2019-01-17 This original book explores the character of cultural governance of arts and cultural institutions in eight countries across five continents. Examining strategy and decision-making at an organisational level, this is the first empirical contribution on cultural policy and management, revealing how it is applied across the globe in otherwise unexplored countries. Concerned with the assumption that 'one-size fits all', the chapter authors analyse how cultural governance is managed within arts organizations in a range of countries to assess whether some locations are trying to apply unsuitable models. The chapters aim to discover and assess new practices to benefit the understanding of cultural governance and the arts sector which have as yet been excluded from the literature. As a collection of local accounts, this book offers a broad and rich perspective on managing cultural governance around the world.

Achievements, Milestones and Challenges in Biomedical and Health Informatics J. Mantas, A. Hasman, R. Haux, 2022-11-23 The technological advances in Biomedical and Health Informatics (BMHI) in the last 4 decades could barely have been imagined when the field was in its infancy. At the time, computers were large and unwieldy, memory was measured in kilobytes, and the Internet was accessible only to people in the technology professions. How the world has changed. The skills of BMHI are now essential for everyone who participates in healthcare, from practitioners and researchers to administrators and patients. This book presents the 17 accepted papers of the International Symposium on Achievements, Milestones, and Challenges in Biomedical and Health Informatics (BMHI), held in Athens, Greece, on 29 October 2022. This event marks the retirement of Professor John Mantas, whose career in BMHI spans over 40 years, and a number of eminent colleagues from around the world were invited to present original review papers in their respective domains, not only to celebrate the work of Professor Mantas, but to review the achievements, milestones, and challenges of BMHI. Most of those presenting papers have worked in the field for decades, and their collective experience and wisdom highlights the accomplishments and limitations of the field. Each paper was peer reviewed by 3 independent reviewers before being thoroughly revised ensuring the high quality of the accepted papers. The book is dedicated to the entire BMHI community. It covers the achievements attained, the milestones reached, and the challenges which have been overcome or which have not been conquered, and provides knowledge and perspective for both learners and practitioners in the field.

People Management, 2023-04-26 Managing people is the chief task of human resources officers in businesses and industries worldwide. It is a difficult and demanding task, especially in this era of highly dynamic and constantly changing business environments. In addition, the COVID-19 pandemic led to major and perhaps irreversible changes in how people work and how businesses operate. This book provides a comprehensive overview of what it means to manage people in the modern world. It includes sixteen chapters organized into three sections: "People Management in a VUCA World", "A Bright Future for People Management", and "People Management for People Happiness". Chapters address such topics as dealing with staff turnover, human resource development strategies during and post-crisis, diversity management, the relationship between career development and value proposition, the happy-productive worker thesis (HPWT), and much more.
