Haunted Utica Dennis Webster,Bernadette Peck,2014-08-19 A ghostly journey into New York State history . . . photos included! Once a bustling hub on the Erie Canal, Utica and the surrounding region still harbor some spirits from the industrial age. "Old Main," Utica's shuttered psychiatric hospital, is one of the most haunted sites in New York State. John and Mary Jane Munn still walk the lavish halls of their castle on Rutger Street. Shrouded in secrecy, the Newport Masonic Temple's "Brotherhood of the Leather Apron" includes a ghostly membership. Otherworldly visitors also inhabit the Stanley Theater, Forest Hill Cemetery, the Madison House, and many other historic locales. Follow Dennis Webster, Bernadette Peck and the Ghost Seekers of Central New York as they delve into the region's supernatural past . . .

If You Should Go at Midnight Jeffrey S. Debies-Carl,2023-04-21 Tonight, across America, countless people will embark on an adventure. They will prowl among overgrown headstones in forgotten graveyards, stalk through darkened woods and wildlands, and creep down the crumbling corridors of abandoned buildings. They have set forth in search of a profound paranormal experience and may seem to achieve just that. They are part of the growing cultural phenomenon called legend tripping. In *If You Should Go at Midnight: Legends and Legend Tripping in America*, author Jeffrey S. Debies-Carl guides readers through an exploration of legend tripping, drawing on years of scholarship, documentary accounts, and his own extensive fieldwork. Poring over old reports and legends, sleeping in haunted inns, and trekking through wilderness full of cannibal mutants and strange beasts, Debies-Carl provides an in-depth analysis of this practice that has long fascinated scholars yet remains a mystery to many observers. Debies-Carl argues that legend trips are important social practices. Unlike traditional rites of passage, they reflect the modern world, revealing both its problems and its virtues. In society as well as in legend tripping, there is ambiguity, conflict, crisis of meaning, and the substitution of debate for social consensus. Conversely, both emphasize individual agency and values, even in spiritual matters. While people still need meaningful and transformative experiences, authoritative, traditional institutions are less capable of providing them. Instead, legend trippers

voluntarily search for individually meaningful experiences and actively participate in shaping and interpreting those experiences for themselves.

A Brief Guide to Ghost Hunting Leo Ruickbie, 2013-08-15 There has been an upsurge in books, television programmes, films and websites exploring the reality or otherwise of the spirit world. Not since the founding of The Ghost Club in 1862 and the Society for Psychical Research in 1882 has ghost hunting been so popular. Television and the internet, in particular, have fueled this new level of interest, creating a modern media phenomenon that spans the globe. But while the demand for information is high, good information remains scarce. *A Brief Guide to Ghost Hunting* leads us through the process of ghost hunting, from initially weighing the first report, to choosing equipment, and investigating and identifying the phenomena, with an analysis of the best places to go looking, methods of contacting the spirit world, how to explain paranormal activity and, crucially, how to survive the encounter. However, it is also a book about ghost hunting itself, drawing on 130 years of research in the cavernous archives of the Society for Psychical Research and even older history to find the earliest ghost stories. *A Ghost Hunting Survey* makes use of interviews with those billing themselves as ghost hunters to find out their views, motivations and experiences. New and original research makes use of statistics to map the nebulous world of apparitions while *a Preliminary Survey of Hauntings* offers an analysis of 923 reported phenomena from 263 locations across the UK. This is, as far as possible, an objective presentation of ghosts and ghost hunting. It is no wonder that mainstream science largely refuses to deal with the subject: it is too complicated. Without trying to convince you of any viewpoint, this book is intended to help you understand more.

Ghost Hunting with Tech Mae Respicio, 2023-08 A shadowy figure takes shape in a dark, old house. Was it just your imagination? Or was it a ghost? Ghost hunters investigate ghostly encounters with thermal cameras, EVP recorders, magnetic field detectors, and other advanced gear. Get an inside look at all the high-tech tools used to study hair-raising hauntings--

Haunted Everett, Washington Deborah Cuyle, 2019 The historic mill town of Everett, abutting the deep, dark waters of Puget Sound, has been haunted since its founding. The Rucker family's spirits are said to linger near both their distinctive pyramid-shaped mausoleum and mansion by the bay, and the shadowy figures of former patrons and entertainers are purported to roam inside the Historic Everett Theater. Many believe the angry shades of laborers still riot, demanding freedom of speech just like on that horrible November night in 1916 when several lost their lives. Even the Everett Community College library is rumored to house ghosts reading their favorite books. Author Deborah

Cuyle reveals the spooky history of the City of Smokestacks and the spirits that refuse to leave it.

Huffman Legend Michelle Huffman,2017-10-23 The true story of how an incredible young man helps his grieving mother to heal, from the other side.

Legend Tripping Lynne S. McNeill,Elizabeth Tucker,2018-11-30 Legend Tripping: A Contemporary Legend Casebook explores the practice of legend tripping, wherein individuals or groups travel to a site where a legend is thought to have taken place. Legend tripping is a common informal practice depicted in epics, stories, novels, and film throughout both contemporary and historical vernacular culture. In this collection, contributors show how legend trips can express humanity's interest in the frontier between life and death and the fascination with the possibility of personal contact with the supernatural or spiritual. The volume presents both insightful research and useful pedagogy, making this an invaluable resource in the classroom. Selected major articles on legend tripping, with introductory sections written by the editors, are followed by discussion questions and projects designed to inspire readers to engage critically with legend traditions and customs of legend tripping and to explore possible meanings and symbolics at work. Suggested projects incorporate digital technology as it appears both in legends and in modes of legend tripping. Legend Tripping is appropriate for students, general readers, and folklorists alike. It is the first volume in the International Society for Contemporary Legend Research series, a set of casebooks providing thorough and up-to-date studies that showcase a variety of scholarly approaches to contemporary legends, along with variants of legend texts, discussion questions, and projects for students. Contributors: S. Elizabeth Bird, Bill Ellis, Carl Lindahl, Patricia M. Meley, Tim Prizer

Haunted Southern Nights Vol. 1 Ghost Hunting, The Basics + Deborah Collard,2013-12-27 Deborah Collard has been aggressively seeking answers to paranormal activity since being a teenager. Deborah is the Founder of North-Eastern Alabama Paranormal Society in Guntersville, Alabama. Deborah uses both scientific methods as well as sensitive methods to attempt to determine the evidentiary proof of spiritual activity. Seeking the clues to life after death is something that we all look for. This book will begin you on a path to develop your paranormal investigative skills and to understand why people choose to follow this path. Many questions asked, many answered in Haunted Southern Nights. You be the judge.

Ghosthunting Kentucky Patti Starr, 2010-09-29 The hills and hollows -- and cities -- of the Bluegrass State offer excellent opportunities for the ghost hunter. Guide Patti Starr leads readers on a tour of 30 legendary haunted spaces in Kentucky. She snoops around creepy farmhouses and grim garrets, eerie rooms and dark corners, exposing the ghosts and recording first-hand accounts of terrifying encounters. Clear maps and photographs help readers locate each dire destination, while more sensitive souls can enjoy experiencing these visits from the other side from the safety of their armchair.

Still Standing Raphael Grant, 2012-08 Still Standing is a book of joy, excitement and hope for the hopeless. It reflects on the past, examines the present and speculates on the future. Still Standing will teach you how to stand in spite of the storm, how to still stand in spite of the adversities. Raphael Grant will make you understand that anybody destined by God for greatness will go through trials, afflictions, pain, and struggles, because it is a necessity for where God is taking them. The changes and challenges that lie ahead are God-given possibilities for people to live their lives in conformity of his will and purpose.

Commanding Canadians Michael Whitby, 2011-11-01 Commander A.F.C. Layard, RN, wrote almost daily in his diary, in bold, neat script, from the time he entered the Royal Navy as a cadet in 1913 until his retirement in 1947. The pivotal 1943-45 years of this edited volume offer an extraordinarily full and honest chronicle, revealing Layard's preoccupations, both with the daily details and with the strain and

responsibility of wartime command at sea. Enhanced by Michael Whitby's explanatory essays, the diary is a highly personal piece of history that greatly enhances our understanding of the Canadian naval experience and the Atlantic war as a whole.

The Evolution of Horror in the Twenty-First Century Simon Bacon, 2023-03-15 The Evolution of Horror in the Twenty-First Century explores the many aspects of the horror genre across thematics and media in the 2020s. Consisting of 21 original essays by experts in the field, this book examines how horror reveals the anxieties around our current cultural moment and how that might develop in the future.

Ghost Channels Amy Lawrence, 2022-03-08 Through American history, often in times of crisis, there have been periodic outbreaks of obsession with the paranormal. Between 2004 and 2019, over six dozen documentary-style series dealing with paranormal subject matter premiered on television in the United States. Combining the stylistic traits of horror with earnest accounts of what are claimed to be actual events, "paranormal reality" incorporates subject matter formerly characterized as occult or supernatural into the established category of reality TV. Despite the high number of programs and their evident popularity, paranormal reality television has to date received little critical attention. *Ghost Channels: Paranormal Reality Television and the Haunting of Twenty-First-Century America* provides an overview of the paranormal reality television genre, its development, and its place in television history. Conducting in-depth analyses of over thirty paranormal television series, including such shows as *Ghost Hunters*, *Celebrity Ghost Stories*, and *Long Island Medium*, author Amy Lawrence suggests these programs reveal much about Americans' contemporary fears. Through her close readings, Lawrence asks, "What are these shows trying to tell us?" and "What do they communicate about contemporary culture if we take them seriously and watch them closely?" Ridiculed by nearly everyone, paranormal reality TV shows—with their psychics, ghost hunters, and haunted houses—provide unique insights into contemporary American culture. Half-horror, half-documentary realism, these shows expose deep-seated questions about class, race, gender, the value of technology, the failure of institutions, and what it means to be American in the twenty-first century.

Shabba! Frank Ingels, 2008-10-09 A novel of suspense, intrigue and technological secrets. The aftermath of Desert Storm left a horrid suspicion of something gone terribly awry with our air combat capability. The success of Desert Storm was blinding and so was the hint of disaster that lay in wait for the next armed conflict. What did the evidence show in the Iraq conflict that so frightened those in the know? How could they prove their suspicions? Even more important, how could they solve the puzzle

and find an answer that would allow our air combat power to remain effective? Curt Thomas, one time CIA radar scientist now a little known professor, is tasked to follow the leads and decipher the secrets of the new and awesome radar/missile system that must exist. He was once on the track of something akin but never could make it a working idea. Now he must search intensively for the key that he missed before. Learn why Thomas is led to China and to the keys he must have to protect our aircraft from certain death in the future. The technology is real, the danger is real and the conclusion is unusual and full of twists and turns.
