## **Detection and Backprojection of Ghost Targets Within a Network of Radar Sensors**

Timo Grebner, Fabian

Konrad, Dominik Schwarz, Christian Waldschmidt, 2023

*Radar* Deborah Hitzeroth, 1990 Examines the invention and development of radar, its history, and its uses in science, law enforcement, navigation, space travel, and the military.

Optimal Spectrum Filtering for the Radar Detection of Targets in Clutter John K. Schindler, 1969 A novel radar technique is proposed for detecting the presence of a target having a priori known frequency-dependent scattering properties. The target coexists with a large collection of clutter elements having random scattering properties and ranges. Assuming a wideband random signal excitation, the power spectrum of the scattered field consists of the target return having an a priori known frequency behavior embedded in a clutter return having a random frequency dependence. On an ensemble average basis, the clutter appears as additive noise from which the existence of a prescribed target return must be extracted.

## **Meter-wave Synthetic Aperture Radar for Concealed Object Detection**

Hans Hellsten, 2017 This unique resource

presents the principles of meter wave ground imaging radar

focusing on foliage penetration. Scattering of VHF/UHF radar

signals are presented including the basic laws of

electromagnetism, homogeneous media, media

discontinuities/non-flat media discontinuities, and ground

reflectivity. The book introduces meter wavelength synthetic

aperture radar, bandwidth, and SAR imaging principles, including

moving objects and also compares collected SAR data. Meter

wavelength SAR system design and processing is explored, highlighting low frequency SAR design aspects, characterization of additive noise, antenna system basics, waveforms and emission adaptation which is critical material to the advancement in sensors and signal processing for below ground imaging by the energy industry and governments worldwide.

### **Radar Detection Theory of Sliding Window Processes**

Graham V. Weinberg, 2017 Constant false alarm rate detection processes are important in radar signal processing. Such detection strategies are used as an alternative to optimal Neyman-Pearson based decision rules, since they can be implemented as a sliding window process running on a radar range-Doppler map. This book examines the development of such detectors in a modern framework. With a particular focus on high resolution X-band maritime surveillance radar, recent approaches are outlined and examined. Performance is assessed when the detectors are run in real X-band radar clutter. The book introduces relevant mathematical tools to allow the reader to understand the development, and follow its implementation.-- Provided by publisher.

### **My Husband Has Died, but That’S Not the Funny Part**

Debra J. Blood, 2013-02-19 Losing her husband Dennis unexpectedly in 2011, at the young age of 47, Debra was faced with handling grief in the only way she knew how, with strength, grace and much laughter. Debra worked through her tears by posting to her husband each day (for one year) on a social media website after his passing. She credits her seeing the light of day by sharing funny stories of their time together and walking through the pain, not alone, but with her ever growing unshakeable faith in God and the resounding love of many who have taken this journey each day with her. Through her stories, her daily blog ([thehappywidow.com](http://thehappywidow.com)) and her posts she has used her distinctively unique humor, desire to honor the love of her life, and her ability to tell it like it is to inspire, lift, and encourage others in a way seldom seen. Losing the one you love suddenly is like being put on a roller coaster ride (and I have always hated those). You rise slowly, fall fast, hold on for dear life, and scream not so nice words that you hope those around you didn't hear. But when you get off this ride, while you may not want to buy another ticket, you are so proud of yourself for just being able to say you let go, threw your hands in the air the entire time and you indeed lived through it. You will laugh, you will cry, at time you will pray you never personally know how she truly feels, but after you read this book that was written to her sweet husband Dennis and for her children Timothy and Sarah, you will believe that just maybe there is a way to face death and come out smiling.

**Notes on a Silencing** Lacy Crawford, 2020-07-07 A powerful and scary and important and true memoir of a young woman's struggle to regain her sense of self after trauma, and the efforts by a powerful New England boarding school to silence her—at any cost (Sally Mann, author of *Hold Still*). Shortlisted for the

2022 William Saroyan International Prize for Writing When Notes on a Silencing hit bookstores in the summer of 2020, even amidst a global pandemic, it sent shockwaves through the country. Not only did this intimate investigative memoir usher in a media storm of coverage, but it also prompted the elite St. Paul's School to issue a formal apology to the author, Lacy Crawford, for its handling of her report of sexual assault by two fellow students nearly thirty years ago. In this searing book, Crawford tells the story of coming forward during the state investigation of the elite New England prep school decades after her assault, only to find for the first time evidence that corroborated her memories. Here were depictions of the naïve, hardworking girl she'd been, as well as astonishing proof of an institutional silencing. The slander, innuendo, and lack of adult concern that Crawford had experienced as a student hadn't been imagined; they were the actions of a school that prized its reputation above anything, even a child. This revelation launched Crawford on an extraordinary inquiry deep into gender, privilege, and power, and the ways shame and guilt are used to silence victims. Insightful, arresting, and beautifully written, Notes on a Silencing wrestles with an essential question for our time: what telling of a survivor's story will finally force a remedy? "Erudite and devastating... Crawford's writing is astonishing... Notes on a Silencing is a purposefully named, brutal and brilliant retort to the asinine question of 'Why now?'... The story is crafted with the precision of a thriller, with revelations that sent me reeling..." —Jessica Knoll, New York Times A Best Book of the Year: Time, NPR, People, Real Simple, Marie Claire, The Lineup, LitHub, Library Journal, BookPage, and Shelf Awareness A New York Times Book Review Notable Book A New York Times Book Review Editors' Choice One of People Magazine's 10 Best Books of the Year Semifinalist for a Goodreads Choice Award

**Inklings** David P. Campbell,1992 This book brings together 35 of David P. Campbell's essays originally published as a regular column in a quarterly publication called Issues and Observations.
