New Zealand's Global Responsibility László Szöllösi-Cira, 2022-01-01 New Zealand often plays leading roles in implementing progressive ideas. This book investigates what explanatory factors facilitated the country to become such a relevant normative actor. New Zealand's case suggests that democratic institutions, skilled bureaucracy, and ambitious politicians play the crucial roles to create global influence. The case studies included in this book develop the argument that small states can better influence international politics by focusing on domestic issues. In contributing to discourses on New Zealand's possible future role, the book is an invaluable resource to intellectuals, researchers, and students alike.

Aotearoa New Zealand in the Global Theatre

Marketplace James Wenley, 2020-10-18 Aotearoa New Zealand in the Global Theatre Marketplace offers a case study of how the theatre of Aotearoa has toured, represented and marketed itself on the global stage. How has New Zealand work attempted to stand out, differentiate itself, and get seen by audiences internationally? This book examines the journeys of a dynamic range of culturally and theatrically innovative works created by Aotearoa New Zealand theatre makers that have toured and been performed across time, place and theatrical space: from Moana Oceania to the Edinburgh Festival Fringe, from a Māori Shakespeare adaptation to an immersive zombie theatre experience. Drawing on postcolonialism, transnationalism,

cosmopolitanism and globality to understand how Aotearoa New Zealand has imagined and conceived of itself through drama, the author investigates how these representations might be read and received by audiences around the world, variously reinforcing and complicating conceptions of New Zealand national identity. Developing concepts of theatrical mobility, portability and the market, this study engages with the whole theatrical enterprise as a play travels from concept and scripting through to funding, marketing, performance and the critical response by reviewers and commentators. This book will be of global interest to academics, producers and theatre artists as a significant resource for the theory and practice of theatre touring and cross-cultural performance and reception.

Landscape and Quaternary Environmental Change in New Zealand James Shulmeister,2016-12-16 This book brings together an overview of the recent geological history, active earth and biological processes and human settlement of New Zealand. Topics covered include the very active neotectonic and volcanic setting. Mountain geomorphic processes are examined and new ideas about landsliding are highlighted. The exceptional sedimentary archives of the Whanganui Basin are also presented. As one of two land masses that extend into the southern mid-latitudes, New Zealand is ideally located to investigate changes in Southern Ocean climate. Related to this, mountain glaciation in New Zealand is a focus in global climate change debates. New Zealand also has a unique biota due to its long isolation and is the last major land mass to be settled by people. Advances in DNA technologies have revolutionised our understanding of the histories and processes involved. The book provides a comprehensive review of existing work and highlights new ideas and major debates across all these fields.
