Heart and Sell Shari Levitin, 2017-02-20 Are you making it difficult for your potential customers to buy from you? Today's buyers are overloaded - overwhelmed by too much information and suffering from decision fatigue. Across industries, customers are delaying purchasing decisions or even choosing to stick with the status quo so they can avoid the dreaded "sales process." In response, many sales professionals are overcompensating with behaviors that are either too accommodating or that create high pressure - and alienating potential buyers in the process. How can you reconcile your need to meet sales targets with the customer's desire for a heartfelt, authentic sales approach? Author Shari Levitin, creator of the Third-Level Selling system, offers a dynamic framework for effective selling in the Digital Age. Unlike other sales books that focus on abstract tips or techniques, *Heart and Sell* offers a science based real-world approach that will help you dramatically increase your sales—regardless of your level or industry. Discover the 7 Key Motivators that influence every decision your customer will make. Learn to align your sales process with how people buy—instead of fighting against it. Harness the power of the Linking Formula to create true urgency. Master the 10 Universal Truths so you can beat your sales quota without losing your soul. Understand the 6 Core Objections and how you can neutralize them. In a market where the right approach is key, *Heart and Sell* shows you how to blend the new science of selling with the heart of human connection to reach more prospects and consistently close more deals.

to yard sales and garage sales, because in our city it has been the norm for the 85 years of its existence. Weekends means empty out your garrets/cellars and garage especially when you are doing your spring cleaning, and selling all the junk which has been accumulated there. As the city grew and more families arrived there to set up house, and settle down, especially, as this was a “Made to Order” city made for retired defense personnel, and retired senior level government officials, it was a given, that one could find some amazing treasures, collected through a lifetime of traveling all over the globe, being sold in junk yard sales. That was the place where everybody learned how to bargain. That was the place when anybody could know that he could get something he had always wanted, on his limited paycheck. And that was our weekly social club, where the visitors were told where the next junk sale would be, in whose garage, the next week, and to pass the word on through word-of-mouth. The sellers had one full week in which to decide whether they wanted something or some gewgaw could be put in the junk yard sale pile.

Trauma Impacts Jessica Stone, Robert J. Grant, Clair Mellenthin, 2024-03-19 A systems-oriented look at how unhealed trauma can prevent optimal functioning—and what to do about it *Trauma Impacts: Repercussions of Individual and Collective Trauma* explores the many ways that traumatic experiences affect people from diverse backgrounds, as individuals and in groups. In chapters contributed by experts in their fields, this book offers a systemic overview of how trauma impacts all humans, then delves into the manifestations of trauma in specific populations like BIPOC communities, neurodivergent children, and those in helping professions. The book's third and final section looks at emerging modalities for working with trauma and implications for the future of trauma-

focused therapy. Ideal for anyone who works closely with individuals who have experienced trauma—therapists, educators, social workers, and beyond—Trauma Impacts will benefit from a thorough understanding on how trauma continues to influence lives, even long after the fact. Trauma can interfere with meeting basic needs, forming healthy relationships, and finding fulfillment in the pursuit of individual and collective goals. When we conceptualize these impacts, we become empowered to help people process their traumatic experiences, integrate the pain they have experienced, and lead more satisfying lives. Understand the intersectional effects of trauma on individuals and systems Discover hope for healing through real-world voices and current research Consider how collective trauma manifests in the lives of individuals Gain insights that can help you work more effectively with clients
